Jennifer Ring, 2012-02-01 In this book Jennifer Ring offers a wholly new interpretation of Hannah Arendt's work from Eichmann in Jerusalem with its bitter reception by the Jewish community to *The Life of the Mind* Departing from previous scholarship Ring applies the perspectives of gender and ethnicity to investigate the extent to which Arendt's identity as a Jewish woman influenced both her thought and its reception Ring's analysis of Zionist and assimilationist responses to century old antisemitic sexual stereotypes leads her to argue that Arendt's criticism of European Jewish leadership during the Holocaust was bound to be explosive New York and Israeli Jews shared a rare moment of unity in their condemnation of Arendt charging that she had betrayed the Jewish community the kind of charge Ring contends often leveled against women who dare to speak out publicly against prominent men in their own cultural or racial groups The book moves from a feminist analysis of the Eichmann controversy to a discussion of Jewish themes in the structure and content of Arendt's major theoretical works Ring makes a powerful contribution to an understanding of Arendt and of multiculturalism demonstrating that Arendt's most sustained philosophical work was influenced as much by her Jewish heritage as by her German education

**Paul's Glory-Christology** Carey C. Newman, 2014-04-09 In 1927 C A A Scott while commenting on the apostle Paul s Christology remarked that the history of the word Glory in the Bible has yet to be written By using methodology developed in semantics semiotics and more generally literary theory Newman examines the origin and rhetoric of Paul s Glory Christology The investigation involves three distinct tasks 1 to plot the tradition history of Glory which formed part of Paul s linguistic world 2 to examine Paul s letter in light of the reconstructed tradition history of Glory in order to discern the rationale of Paul s identification of Christ as Glory and 3 to map out the implications of such an identification for Paul s theological and rhetorical strategy On the basis of this study four conclusions are reached for understanding Paul First Paul inherited a symbolic universe with signs already full of signification Second knowing the diachronically acquired connotative range of a surface symbol e g Glory aids in discerning Paul s precise contingent strategy Third knowing the surface symbol s referential power defines and contributes to the deeper structure of Paul s theological grammar Finally the heuristic power within the construals of the Glory tradition coalesce in Paul s Christophany and thus provide coherence at the deepest level of Paul s Christology

**Time, Eternity, and the Trinity** Eunsoo Kim, 2010-03-01 One of the vital issues in contemporary Christian theology is the problem of a renewed understanding of God s eternity and its relation to time This is not merely a peripheral doctrinal issue but lies at the heart of our understanding of God and humanity and contributes to our entire worldview This study focuses on a long standing debate between two competing views on God s eternity one focused on God s absolute timelessness in classical theism and the other on God s temporal everlastingness in contemporary panentheism In contrast to both of these well worn options this book presents an alternative Trinitarian analogical understanding of God s eternity and its relation to time especially through a critical reflection on Karl Barth s and Hans Urs von Balthasar s engagement of the issue This analogical approach based on the dynamic and dramatic concepts of God s being in relation and of the Triune God s communicative action in eternity and time has the potential to resolve the debate between absolute timeless eternity and temporal everlasting duration

**Sodom and Gomorrah** Weston W. Fields, 1997-01-01 According to Fields biblical narrative is didactic socio religious commentary on human experience reflected in history and that such history is a way of describing the conceptual universe of the ancient authors Biblical narrative is strikingly free of abstract formulations but encapsulates abstract reflections within recurring literary motifs and by the reporting of historical information This perception of biblical narrative is strikingly illustrated by an analysis of the story of Sodom and Gomorrah Genesis 19 The motifs of the Sodom tradition are compared with those in the stories about the concubine in Gibeah Judges 19 and about the destruction of Jericho Joshua 2

**Through a Speculum That Shines** Elliot R. Wolfson, 2020-06-30 A comprehensive treatment of visionary experience in some of the main texts of Jewish mysticism this book reveals the overwhelmingly visual nature of religious experience in Jewish spirituality from antiquity through the late Middle Ages Using phenomenological and critical historical tools Wolfson examines Jewish mystical texts from late antiquity pre kabbalistic sources from the tenth to the twelfth centuries and twelfth and thirteenth century kabbalistic literature His work demonstrates that the sense of sight assumes an epistemic priority in these writings reflecting and building upon those scriptural passages that affirm the visual nature of revelatory experience Moreover the author reveals an androcentric eroticism in the scopic mentality of Jewish mystics which placed the externalized and representable form the phallus at the center of the visual encounter In the visionary experience as Wolfson describes it imagination serves a primary function transmuting sensory data and rational concepts into symbols of those things beyond sense and reason In this view the experience of a vision is inseparable from the process of interpretation Fundamentally challenging the

conventional distinction between experience and exegesis revelation and interpretation Wolfson argues that for the mystics themselves the study of texts occasioned a visual experience of the divine located in the imagination of the mystical interpreter Thus he shows how Jewish mystics preserved the invisible transcendence of God without doing away with the visual dimension of belief      *Lectures on Government and Binding* Noam Chomsky,1993 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century This branch of linguistics broadly known as Generative Grammar is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the language organ The series comprises high quality monographs and collected volumes that address such issues The topics in this series range from phonology to semantics from syntax to information structure from mathematical linguistics to studies of the lexicon      *The Genesis Conspiracy* Wayne Talbot,2022-01-24 Did the early Church of Rome conspire with the pagan Emperor Constantine to create a new religion for the West superseding Judaism and displacing the Children of Israel as God s First Born Son Exodus 4 22 Catholic scholar Bernard Lee observed Most Christological interpretation has been supersessionist that is it has interpreted Jesus as initiating a new Covenant that supersedes Judaism Historically it is quite improbable that Jesus had any such thing in mind Similarly There is little likelihood that Jesus had any conscious intention of founding a new religious institution either superseding Judaism or alongside it The obvious question is If that was not in the mind of Jesus on whose life and teachings Christianity is said to be based in whose mind was it This study examines the wealth of evidence that has convinced the author that in truth Christianity is a centuries old conspiracy with significant anti Jewish undercurrents      *Picture Imperfect* Russell Jacoby,2005 Many observers judge utopians and their sympathizers as foolhardy dreamers at best and murderous totalitarians at worst However as noted social critic and historian Russell Jacoby argues not only has utopianism been unfairly characterized a return to an iconoclastic utopian spirit is vital for today s society Jacoby reexamines the anti utopian mindset and identifies how utopian thought came to be regarded with such suspicion He challenges standard readings of such anti utopian classics as 1984 and Brave New World and offers stinging critiques of the influential liberal and anti utopian theorists Hannah Arendt Isaiah Berlin and Karl Popper As Jacoby demonstrates iconoclastic utopianism shaped by the works of Theodor Adorno Walter Benjamin Ernst Bloch Gustav Landauer and other predominantly Jewish thinkers revives society s dormant political imagination and suggests new and more imaginative ideas of the future      **The Art of Drawing Closer to God** Belinda É. Samari,2020-03-16 In a work that is both imaginative and ambitious Belinda exploits very well the spiritual potential of the Old Testament Her specialist knowledge of Hebrew and psychology combine well in ways that are accessible to the lay person showcasing the potential of approaching Scripture this way Belinda s explanation of the difference between Hebrew and Greek thinking and its relationship to left and right hemisphere thinking not only sheds light on individual biblical texts but also creates an exciting environment for spiritual growth Dr Laurence Turner Professor

Emeritus of Old Testament Theology      **Sensing the World** David Le Breton, 2020-05-31 Sensing the World An Anthropology of the Senses is a highly original and comprehensive overview of the anthropology and sociology of the body and the senses Discussing each sense in turn seeing hearing touch smell and taste Le Breton has written a truly monumental work vast in scope and deeply engaging in style Among other pioneering moves he gives equal attention to light and darkness sound and silence and his disputation of taste explores aspects of disgust and revulsion Part phenomenological part historical this is above all a cultural account of perception which returns the body and the senses to the center of social life Le Breton is the leading authority on the anthropology of the body and the senses in French academia With a reputation comparable to the late Pierre Bourdieu his 30 books have been translated into numerous languages This is the first of his works to be made available in English This sensuously nuanced translation of *La Saveur du monde* is accompanied by a spicy preface from series editor David Howes who introduces Le Breton's work to an English speaking audience and highlights its implications for the disciplines of anthropology sociology and the cross disciplinary field of sensory studies      **The History of the Second Temple Period** Paolo Sacchi, 2004-12-13 This book represents the fruit of a long process of study and reflection a powerful but subtle synthesis by one of the most eminent scholars of Second Temple Judaism Far from a conventional narrative history it is organized around themes and seeks to uncover the essence of Hebraic Jewish religious thinking while confronting the phenomenon of its division into several parties and traditions Drawing also on recent studies of Christianity as a Judaism Sacchi provides a stimulating perspective on the nature of ancient Oriental and Occidental thought and the intellectual and spiritual heritage of European civilization
