Hegel And Marx:

Hegel, Marx and Dialectic Richard J. Norman, Sean Sayers, 1980 A lively and provocative debate on the nature of Hegelian and Marxist dialectic and the relation between them A direct and explicit definition of dialectic is given and by sustained debate the dialectical idea of the fruitfulness of contradiction is exemplified in practice The author relate their accounts of dialectic both to recent discussion in the Marxist tradition Sartre Colletti Althusser and to work in the analytical tradition of philosophy thus initiating a dialogue between two as yet hardly related philosophical traditions The clarity and directness of this collection and its complete avoidance of dogmatism make it an invaluable work for anyone interested in the fundamental questions of philosophy Back cover

Hegel and Marx David MacGregor, 2014-06-15 The Second Edition of Hegel and Marx After the Fall of Communism surveys Hegel s close connection with world famed economist Friedrich List the declared enemy of Karl Marx Illuminating the mysterious nature of Hegel s relationship with Marx and Friedrich List may help us to comprehend the extraordinary geopolitical transformations that have occurred in the last 15 years since the original publication in 1998 The Afterword to this Edition looks at Russia s revival as a world power under Vladimir Putin and China s ambitious economic development efforts that bring to mind Sun Yat sen s vision of The International Development of China

Divergent Paths: The Hegelian foundations of Marx's method Norman Levine, 2006-01-01 Divergent Paths is the first in a series of three volumes that explores the historiography of the relationship between Hegel and Marx it sets the terms of the relationship between Marx and Engels and explores the genesis of the theories of Marxism and Engelsism from the late 19th century to the present day Given the vast pool of contemporary post Marxist theoretical work a study like this is sorely needed This is the most thorough exploration of Marx s ideas from Hegel through to the present day and is absolutely essential reading

The Communist Ideal in Hegel and Marx (RLE Marxism) David MacGregor, 2015-04-24 One reader has called this study first published in 1984 easily the best book on the relation of Hegel to Marx With spirited argument MacGregor demonstrates that Hegelian logic suited Marx s purpose so well because it already contained the unique elements that later appeared in Marx s social theory including the notions of surplus value and the transition to communism The most exciting thing about the book is the clear demonstration that the mature Marx gets ever closer to Hegel and is increasingly indebted to him In short the author gives us a new Hegel and a new Marx In a manner both original and penetrating MacGregor shows that dialectical logic is pre eminently social logic a reconstruction in thought of social relationships and social structure Central to the work is the examination of the Philosophy of Right in which Hegel delineated a theory of modern capitalist society MacGregor provides a compelling analysis of Hegel s importance for Lenin and a strong caveat that contemporary Marxism ignores Hegel to its own peril MacGregor establishes that Hegel s absolute idealism is founded on a theory of the dialectics of labour similar to Marx s historical materialism Another significant discovery elucidates Hegel s concept of poverty as the missing link which joins Marx s formulation to classical liberal theory

Contemporary World Kaveh Boiveiri, Emmanuel Chaput, 2016-06-22 This book is the result of a three day conference held in April 2014 at the University of Montreal Canada discussing the relevance of the work of Hegel and Marx in today s world particularly with regard to the ecological economic political and anthropological crisis facing humanity Accordingly the book an exploration of the specific nature of the crisis we face both in our everyday lives and in the realm of theory However if indeed the necessity of a proper critique Kritikos is intimately linked to a state of crisis Krisis the conceptual frame necessary to produce such a critique may itself be in crisis Among the vast number of critical oppositions to contemporary capitalism what are the keys available to understand the present forms of human conditions alienation and exploitation Controversies and divisions among the different tendencies within the critical tradition tend to highlight the point that there is also a theoretical crisis which prevents a proper diagnosis of the actual crisis and prevents in turn a proper plan of action from being established Looking back to Marx and Hegel allowed a return if not to the sources at least to two unavoidable influences among the various critical approaches to capitalism Be it with or against Hegel and or Marx the criticisms of modernity post modernity and capitalism cannot neglect the shadows of these thinkers Both Marx s and Hegel s philosophical sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time from in Hegel s case the spiritual crisis which followed the advent of modernity and its accompanying turmoil to the social and political crisis caused by capitalism and the advent of a new industrial society in Marx s case Both intellectual ventures are at every turn haunted by the notion of crisis This book will appeal to anyone interested in Hegel s and Marx s philosophical and political theories Not only does it provide the historical context necessary to understand properly the relation between Marx and Hegel but it also places the relevance of their teachings for the contemporary reader in perspective

Marx's Discourse with Hegel N. Levine, 2012-02-21 The end of Stalinist Russia China s change under Deng Xiaoping and the publication of previously unexplored documents of Marx in the MEGA2 opened a new epoch in the analysis of Marx Marx s Discourse With Hegel is both a product and contribution to this rebirth of Marxism by its reformulation of the relationship between Hegel and Marx

Divergent Paths Norman Levine, 2006-02-13 *Divergent Paths* is the first volume of a groundbreaking three volume work Its purpose is to explore the relationship between Hegel and Marx to define the relationship between Hegel and Engels and to distinguish between the theories of Marxism and Engelsism Marx used Feuerbach towards the critique and ultimate transformation of Hegel s phenomenology and humanism This transformation which cut out Hegel s idealism by identifying the environment in which people produced their sustenance as the subject of history marks the genesis of historical materialism Marx continued to use Hegel s logical categories In chapter three of *Divergent Paths* Norman Levine conducts an in depth study of Marx s 1841 doctoral dissertation *The Difference Between Democritus and Epicurus Philosophy of Nature* It is the center of gravity and controversy of Levine s study Placed alongside Hegel s *Philosophy of History* Levine isolates the categories Marx

appropriated from Hegel to show conclusively that Marx was not a dialectical materialist Levine then claims that Engels totally distorted the Hegelian legacy and this debasement is enshrined in his 1887 essay *Ludwig Feuerbach and The End of Classical German Philosophy* Levine brilliantly locates Marxism as the theory of Marx and Engelsism the theory of Engels According to Levine both embodied a separate view of history and society and their contradictions are expressive in part of their divergent receptions of Hegel This is an analysis like no other published to date with two more volumes planned Philosophers sociologists anthropologists and historiographers of Marx and Engels cannot afford to miss this study

Hegel and Marx Ian Fraser,1998 This text introduces the concept of need as viewed by Hegel and Marx and places it within the context of modern need theories and theorists The book works through key texts including Hegel's *Philosophy of Right* and Marx's *Capital* and discusses the theory in relation to Soviet Communism and social democracy Covers key texts by Hegel and Marx studied by undergraduates on political theory courses Looks at political implications for modern need theory Accessible author makes good use of textual evidence Need theory is a major element of modern social theory

The Hegel-Marx Connection T. Burns,I. Fraser,2000-07-19 A major and timely re examination of key areas in the social and political thought of Hegel and Marx The editors extensive introduction surveys the development of the connection from the Young Hegelians through the main Marxist thinkers to contemporary debates Leading scholars including Terrell Carver Chris Arthur and Gary Browning debate themes such as the nature of the connection itself scientific method political economy the Hegelian basis to Marx's *Doctoral Dissertation* human needs history and international relations

Hegel, Marx, and the Necessity and Freedom Dialectic Russell Rockwell,2018-04-26 This book provides close readings of primary texts to analyze the linkage between G W F Hegel's philosophy and Karl Marx's critical social theory of necessity and freedom This is important for three reasons first to understand the significance of the changing relationships of work society and critical social theory in the origins of Hegelian Marxism in the US as documented in the recently published correspondence between the Marxist Humanist theoretician Raya Dunayevskaya and the critical theorist Herbert Marcuse second to identify the intersections of the Critical Theorists Jurgen Habermas and Marcuse's influential reinterpretations of Marx's value theory of economy and society that enables navigation of the changing relationships of the social and economic spheres in the last century as developed in Marx's *Grundrisse* and thirdly to assess the potential of Moishe Postone's renewal of Marx's value theory largely conceived by the notion of a necessity and freedom dialectic intrinsic to capitalism

Critique of Hegel's Philosophy of Right Karl Marx,2024-05-09 Written between 1843 and 1844 but unpublished during his lifetime Marx's *Critique of Hegel's Philosophy of Right* *Kritik des Hegelschen Staatsrechts* marks a decisive break from Hegelian idealism and initiates Marx's turn toward a materialist critique of politics and society Composed while he was still associated with the Young Hegelians Marx systematically confronts Hegel's *Philosophy of Right* dismantling its speculative framework and exposing its ideological justifications for monarchical and bureaucratic rule The manuscript incomplete and driven by

polemical urgency reveals Marx's early commitment to revolutionary praxis over abstract philosophical reconstruction. Although often cited for the famous dictum that religion is the opium of the people, the text's deeper significance lies in its critique of the alienation embedded in the structure of the modern constitutional state. Marx argues that the state, far from embodying a universal rational will, conceals the fragmentation of civil society and reinforces the separation between political and human emancipation. Drawing influence from Rousseau's concept of the general will, Marx critiques the German state as an emblem of political mystification and democratic failure. In *Toward the Critique of Hegel's Philosophy of Right*, Marx contends that Hegel's political theory abstracts away from material reality and overlooks the concrete social relations and economic structures that shape political life. He insists that understanding the state, civil society, and alienation requires a historical and materialist analysis grounded in class dynamics. The state, according to Marx, is not a neutral expression of collective interests but a vehicle of class domination, a view that echoes and radicalizes Feuerbach's critique of idealist abstraction. This work anticipates the foundational ideas of historical and dialectical materialism, serving as a critical bridge between Marx's philosophical beginnings and his later revolutionary theory. It is not a polished treatise but a raw, penetrating intervention that reveals the emergence of Marx's distinctive critique of ideology, alienation, and political power. This modern Critical Reader's Edition includes an illuminating afterword tracing Marx's intellectual relationships with revolutionary thinkers and philosophers, including Hegel, Feuerbach, Engels, and Ricardo, containing unique research into his ideological development and economic metaphysical theories, a comprehensive timeline of his life and works, a glossary of Marxist terminology, and a detailed index of all of Marx's writings. This professional translation renders Marx's dense dialectical prose into modern language to preserve the original force and precision of the text. Combined with the scholarly amplifying material, this edition is an indispensable exploration of Marx's classic works and his enduring Hegelian/Protestant influence in the political, religious, economic, and philosophical spheres.

David MacGregor, 2019-04-08. In this radically revised intellectual portrait of Hegel and Marx that challenges standard interpretations of their political theory, David MacGregor considers the nature of the state in capitalist society. This is the first book to place Marx's and Hegel's political thought directly into social and historical context. Revealing the revolutionary c

From Marx to Hegel and Back. Victoria Fareld, Hannes Kuch, 2020-01-09. The relation between Hegel and Marx is among the most interpreted in the history of philosophy. Given the contemporary renaissance of Marx and Marxist theories, how should we re-read the Hegel-Marx connection today? What place does Hegel have in contemporary critical thinking? Most schools of Marxism regard Marx's inversion of Hegel's dialectics as a progressive development, leaving behind Hegel's idealism by transforming it into a materialist critique of political economy. Other Marxist approaches argue that the mature Marx completely broke with Hegel. By contrast, this book offers a wide-ranging and innovative understanding of Hegel as an empirically informed theorist of the social, political, and economic world. It proposes a movement from Marx to Hegel and back.
