Hegel And The Freedom Of Moderns:

Hegel and the Freedom of Moderns Domenico Losurdo, 2004-08-18 Available in English for the first time Hegel and the Freedom of Moderns revives discussion of the major political and philosophical tenets underlying contemporary liberalism through a revolutionary interpretation of G W F Hegel's thought Domenico Losurdo one of the world's leading Hegelians reveals that the philosopher was fully engaged with the political controversies of his time In so doing he shows how the issues addressed by Hegel in the nineteenth century resonate with many of the central political concerns of today among them questions of community nation liberalism and freedom Based on an examination of Hegel's entire corpus including manuscripts lecture notes different versions of texts and letters Losurdo locates the philosopher's works within the historical contexts and political situations in which they were composed Hegel and the Freedom of Moderns persuasively argues that the tug of war between conservative and liberal interpretations of Hegel has obscured and distorted the most important aspects of his political thought Losurdo unravels this misleading dualism and provides an illuminating discussion of the relation between Hegel's political philosophy and the thinking of Karl Marx and Friedrich Engels He also discusses Hegel's ideas in relation to the pertinent writings of other major figures of modern political philosophy such as Jean Jacques Rousseau John Locke Edmund Burke John Stuart Mill Jeremy Bentham Karl Popper Norberto Bobbio and Friedrich Hayek

Modern Individuality in Hegel's Practical Philosophy Erzsébet Rózsa, 2012-10-19 Modern individuality is the not so secret protagonist of Hegel's practical philosophy In the framework of spirit Hegel presents some basic features of the individual's way of life lifeworld self interpretation and self determination which can also be timely in shaping our own personal and social identities

Modern Freedom Adriaan T Peperzak, 2001-07-31 This book the result of 40 years of Hegel research gives an integral interpretation of G W F Hegel's mature practical philosophy as contained in his textbook *Grundlinien der Philosophie des Rechts* published in 1820 and the courses he gave on the same subject between 1817 and 1830

Hegel's Moral Corporation Thomas Klikauer, 2016-01-26 Hegel's Moral Corporation is about two versions of a corporation one business oriented and dedicated to shareholder value and profit maximisation and one dedicated to moral life *Sittlichkeit* in Hegelian terms

A History of Modern Political Thought Gary K. Browning, 2016 How are we to understand past political thinkers Is it a matter simply of reading their texts again and again Do we have to relate past texts of political thought to the contexts in which ideas were composed and in which the aims of past thinkers were formulated Or should past political theories be deconstructed so as to uncover not what their authors maintain but what the texts reveal In this book theories of interpreting past political thinkers are examined and the interpretive methods of a range of theories are reviewed including those of Hegel Marx Oakeshott Collingwood the Cambridge School Foucault Derrida and Gadamer The application of these theories of interpretation to notable modern political theorists Machiavelli Hobbes Locke Rousseau Kant Hegel Marx Bentham Mill Nietzsche and Beauvoir is then used as a way of understanding modern political thought and of

assessing interpretive theories of past political thought The result is a book which sees the history of modern political thought as more than a procession of political theories but rather as a reflection on the meaning of past political thought and its interpretation It provides a way of reading the history of modern political thought in which the question of interpretation matters both for understanding how we interpret the past but also for considering what it means to undertake political thinking *Hegel's Theory of the Modern State* Shlomo Avineri,1974-01-17 The author presents an overall view of Hegel through his philosophical political and personal ideas **Hegel and Modern Society** Charles Taylor,2015-10-15 This book is an exploration of the relevance of Hegel s thought to contemporary society and politics Europe and Its Boundaries Andrew Davison,Himadeep Muppidi,2009-01-01 In crating a forum for a deeply hermeneutical consideration of the project of provincializing Europe this book articulates an alternative grammar of global political thought It shows that forms of global political thought are capable of residing simultaneously within as well as significantly beyond the boundaries of European thought *Hegel's Ethical Thought* Allen W. Wood,1990-11-30 Hegel s philosophy of society politics and history is exposed to ethical debate on human rights the justification of legal punishment criteria of moral responsibility and authority of individual conscience *The Perfection of Freedom* D. C. Schindler,2012-11-08 The Perfection of Freedom seeks to respond to the impoverished conventional notion of freedom through a recovery of an understanding rich with possibilities yet all but forgotten in contemporary thought This understanding developed in different but complementary ways in the German thinkers Schiller Schelling and Hegel connects freedom not exclusively with power and possibility but rather most fundamentally with completion wholeness and actuality What is unique here is specifically the interpretation of freedom in terms of form whether it be aesthetic form Schiller organic form Schelling or social form Hegel Although this book presents serious criticisms of the three philosophers it shows that they open up new avenues for reflection on the notion of freedom avenues that promise to overcome many of the dichotomies that continue to haunt contemporary thought for example between freedom and order freedom and nature and self and other The Perfection of Freedom offers not only a significantly new interpretation of Schiller Schelling and Hegel it also proposes a modernity more organically rooted in the ancient and classical Christian worlds Hegel: Elements of the Philosophy of Right Georg Wilhelm Fredrich Hegel,1991-10-25 This book is a translation of a classic work of modern social and political thought Elements of the Philosophy of Right Hegel s last major published work is an attempt to systematize ethical theory natural right the philosophy of law political theory and the sociology of the modern state into the framework of Hegel s philosophy of history Hegel s work has been interpreted in radically different ways influencing many political movements from far right to far left and is widely perceived as central to the communication tradition in modern ethical social and political thought This edition includes extensive editorial material informing the reader of the historical background of Hegel s text and explaining his allusions to Roman law and other sources making use of lecture materials which have only recently become available The new translation is literal readable and

consistent and will be informative and scholarly enough to serve the needs of students and specialists alike

Hegel's Phenomenology Terry Pinkard, 1996-04-26 This analysis is the most detailed commentary on Hegel's work available and develops an independent philosophical account of the general theory of knowledge culture and history contained in it It reconstructs Hegel's theoretical philosophy and its connection to the ethical and political theory

Hegel and the Present of Art's Past Character Alberto L. Siani, 2023-08-11 This book reclaims Hegel's notion of the end of art or more precisely of art's past character not just as a piece of the history of philosophy but as a living critical and interpretive methodology It addresses the presence of the past character of art in both Hegel and contemporary philosophy and aesthetics The book's innovative contribution lies in unifying the Hegelian thesis with discussions of contemporary art and philosophy The author not only offers a Hegelian exegesis but also applies the idea of the past character of art to themes that are related to both Hegel's philosophy such as the French Revolution and the modern state Kantian aesthetics and religion and the sacred space disclosed for art and going beyond Hegel such as Celan's poetry Gramsci's criticism of Croce human rights and even the grunge rock band Pearl Jam Conversely such non-Hegelian explorations will help enlighten what may look like a specific thread of Hegel's aesthetics but can be used to shed light on some core motives of his philosophy The author's interpretation of art's past character reclaims the full value attractiveness and philosophical soundness of Hegel's thesis while rejecting its interpretation in terms of a complete dissolution of the aesthetic element into the philosophical one Hegel and the Present of Art's Past Character will be of interest to scholars and advanced students working on Hegel philosophy of art and aesthetics history of philosophy political philosophy and art theory

A Global History of Modern Historiography Georg Iggers, Q. Edward Wang, Supriya Mukherjee, 2013-09-13 So far histories of historiography have concentrated almost exclusively on the West This is the first book to offer a history of modern historiography from a global perspective Tracing the transformation of historical writings over the past two and half centuries the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for Western but also for much of non Western historical studies At the same time it critically examines the reactions in post modern and post colonial thought to established conceptions of scientific historiography A main theme of the book is how historians in the non Western world not only adopted or adapted Western ideas but also explored different approaches rooted in their own cultures

Recovering Hegel from the Critique of Leo Strauss Sara MacDonald, Barry Craig, 2013-11-26 Recovering Hegel from the Critique of Leo Strauss offers a defense of modernity against the critique of the influential mid twentieth century political philosopher Leo Strauss Strauss whose influence on contemporary conservative political theory is well documented discovered the ground of much of what he found wanting in contemporary political and social life to lie in the philosophy of the 19th century German philosopher G W F Hegel Specifically Strauss accused Hegel of being the greatest exponent of historicism and thus the relativism that afflicts modern thought Ultimately according to Strauss this has led to the nihilism and general mediocrity that characterizes modern western culture In this book Sara MacDonald and Barry Craig examine Strauss s reading of Hegel and argue that in fact it is a mis reading Contrary to Strauss s interpretation this book holds that Hegel was no relativist and in fact sought to show the compatibility of objective eternal truth with modern human subjectivity At the same time it illustrates the way in which Hegel s thought prepared the ground for enlightened modern liberal democracies and also remains relevant to current social and political conversations

God, Education, and Modern Metaphysics Nigel Tubbs, 2017-05-12 The Western tradition has long held the view that while it is possible to know that God exists it nevertheless remains impossible to know what God is The ineffability of the monotheistic God extends to each of the Abrahamic faiths In this volume Tubbs considers Aristotle s logic of mastery and questions the assumptions upon which God s ineffability rests Part I explores the tensions between the philosophical definition of the One as thought thinking itself the Aristotelian concept of noesis noeseos and the educational vocation of the individual as know thyself gnothi seuton Identifying vulnerabilities in the logic of mastery Tubbs puts forth an original logic of education which he calls modern metaphysics or a logic of learning and education Part II explores this new
