## **Hegel The Logic Of Self Consciousness And The Legacy Of Subjective Freedom:**

**Hegel** Robert B. Ware,2019-08-08 This volume offers a new interpretation of Hegel s thought challenging traditional readings and reconsidering Hegel in terms of his understanding of his own philosophy *Hegel* Robert Bruce Ware,1999

**The Relevance of Hegel's Concept of Philosophy** Luca Illetterati,Giovanna Miolli,2021-12-16 In a systematic treatment of Hegel s concept of philosophy and all of the different aspects related to it this collection explores how Hegel and his understanding of his discipline can be put into dialogue with current metaphilosophical inquiries and shed light on the philosophical examination of the nature of philosophy itself Taking into account specific aspects of Hegel s elaboration on philosophy such the scientificity of philosophy as a self grounding rational process and his explanation of the relationship between philosophy and the history of philosophy an international line up of contributors consider Hegel s concept of philosophy in general from skepticism idealism history and difference to time politics and religion The relation of Hegel s concept of philosophy to other philosophical traditions and philosophers including Kant Fichte Schelling and Jacobi Hegel s concept of philosophy with reference to philosophy s relation to other forms of rationality and disciplines The relation of Hegel s concept of philosophy to specific issues in present metaphilosophical debates Reflecting the renewed and widespread interest in Hegel seen in Analytic philosophy and Continental thought this volume advances study of Hegel s conceptual tools and provides new readings of traditional philosophical problems **The European Philosophers from Descartes to**

**Nietzsche** Monroe Beardsley,2002-11-12 Between the earliest and the latest of the works included here we have two hundred and fifty years of vigorous and adventurous philosophizing Monroe Beardsley writes in his Introduction to this collection If the modern period can be only vaguely or arbitrarily bounded it can at least be studied and we can ask whether any dominant themes overall patterns of movement or notable achievements can be found within it This question is one that is best asked by the reader after he has read or read around in these works This Modern Library Paperback Classic also includes a newly updated Bibliography **Historical Dictionary of Hegelian Philosophy** John W. Burbidge,2008-08-22

George Wilhelm Friedrich Hegel evoked passionate discipleship as well as equally passionate opposition He was praised by the likes of Karl Marx and John Dewey but scorned by Karl Popper and Bertrand Russell He has been charged with being a proponent of an authoritarian state by some and he has been accused of instigating the dissolution of the state by others Notoriously difficult to understand Hegel s keen insights continue his legacy today The second edition of the Historical Dictionary of Hegelian Philosophy covers all aspects of Hegel s thought It discusses his students and colleagues as well as key figures who either adopted and adapted his thought or attempted to explicate it for later generations This is done through a chronology an introductory essay a glossary of German terms a bibliography and over 500 cross referenced dictionary entries **Hegel's Metaphysics and the Philosophy of Politics** Michael J. Thompson,2018-04-27 The

renaissance in Hegel scholarship over the past two decades has largely ignored or marginalized the metaphysical dimension

of his thought perhaps most vigorously when considering his social and political philosophy Many scholars have consistently maintained that Hegel's political philosophy must be reconstructed without the metaphysical structure that Hegel saw as his crowning philosophical achievement This book brings together twelve original essays that explore the relation between Hegel's metaphysics and his political social and practical philosophy The essays seek to explore what normative insights and positions can be obtained from examining Hegel's distinctive view of the metaphysical dimensions of political philosophy His ideas about the good the universal freedom rationality objectivity self determination and self development can be seen in a new context and with renewed understanding once their relation to his metaphysical project is considered Hegel's Metaphysics and the Philosophy of Politics will be of great interest to scholars of Hegelian philosophy German Idealism nineteenth century philosophy political philosophy and political theory

**Hegel and the Metaphysical Frontiers of Political Theory** Eric Goodfield, 2014-06-27 For over one hundred and fifty years G W F Hegel's ghost has haunted theoretical understanding and practice His opponents first and later his defenders have equally defined their programs against and with his In this way Hegel's political thought has both situated and displaced modern political theorizing This book takes the reception of Hegel's political thought as a lens through which contemporary methodological and ideological prerogatives are exposed It traces the nineteenth century origins of the positivist revolt against Hegel's legacy forward to political science's turn away from philosophical tradition in the twentieth century The book critically reviews the subsequent revisionist trend that has eliminated his metaphysics from contemporary considerations of his political thought It then moves to re evaluate their relation and defend their inseparability in his major work on politics the Philosophy of Right Against this background the book concludes with an argument for the inherent metaphysical dimension of political theorizing itself Goodfield takes Hegel's reception representation as well as rejection in Anglo American scholarship as a mirror in which its metaphysical presuppositions of the political are exceptionally well reflected It is through such reflection he argues that we may begin to come to terms with them This book will be of great interest to students scholars and readers of political theory and philosophy Hegel metaphysics and the philosophy of the social sciences

**Hegel's Political Philosophy** Thom Brooks, 2012-11-30 A new and significantly expanded edition of the first systematic reading of Hegel's political philosophy

Hegel's Political Philosophy Dr Thom Brooks, 2007 Hegel's Elements of the Philosophy of Right is widely acknowledged to be one of the most important works in the history of political philosophy It is broadly agreed that Hegel intended this work to be interpreted as a significant part of his greater system of speculative philosophy Where disagreement occurs is on the question of the relevance of Hegel's larger philosophical system to understanding his Philosophy of Right This is the first book on the subject to take Hegel's system of speculative philosophy seriously as an important component of any robust understanding of his Philosophy of Right It sets out the difference between systematic and non systematic readings of the text before discussing important relevant features of Hegel's system in particular the unique structure of his philosophical

arguments The greater part of the book demonstrates the results of this systematic reading by exploring several areas of Hegel's political philosophy his theories of property punishment morality law monarchy and war It is shown that by looking beyond the text to Hegel's larger philosophical system we can achieve an improved understanding of Hegel's Philosophy of Right

**Creolizing Hegel** Michael Monahan, 2017-02-09 The 19th century German thinker G W F Hegel is a towering figure in the canon of European philosophy Indeed most of the significant figures of European Philosophy after Hegel explicitly address his thought in their own work Outside of the familiar territory of the Western canon however Hegel has also loomed large most often as a villain but sometimes also as a resource in struggles for liberation from colonialism sexism and racism Hegel understood his own work as aiming above freedom yet ironically wrote texts that are not only explicitly Eurocentric and even racist Should we and is it even possible to bring Hegelian texts and ideas into productive discourse with those he so often himself saw as distinctly Other and even inferior In response to this question Creolizing Hegel brings together transdisciplinary scholars presenting various approaches to creolizing the work of Hegel The essays in this volume take Hegelian texts and themes across borders of method discipline and tradition The task is not simply to compare and contrast Hegel with some outsider figure or tradition but rather to reconsider and reconfigure our understandings of all of the figures and ideas brought together in these cross disciplinary essays

**F. C. Baur's Synthesis of Böhme and Hegel** Corneliu Simut, 2014-10-16 In this book Professor Simu shows how Christian theology started to be understood as a Gnostic philosophy of religion in the thought of the 19th century scholar F C Baur Although Baur was seen traditionally as a theologian and biblical exegete Simu argues that he was in fact a philosopher of religion and it was his philosophical reading of Christian theology that informed his biblical preoccupations Specifically Baur's perspective on Christian theology was heavily influenced by Jakob Böhme's esoteric theosophy and Hegel's religious philosophy in some key issues such as creation Lucifer dualism and the connection between spirit and matter coupled with that between philosophy and religion

**IBSS: Sociology: 1999**, 2000-12-07 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences

**Realizing Freedom: Hegel, Sartre and the Alienation of Human Being** G. Rae, 2011-10-12 A first in English this book engages with the ways in which Hegel and Sartre answer the difficult questions What is it to be human What place do we have in the world How should we live What can we be

*Foundations of Coopetition Strategy* Anna Minà, Giovanni Battista Dagnino, 2021-12-30 This book disentangles the foundations of coopetition i.e. concurrent competition and cooperation by exploring in depth the intellectual legacy of Eastern and Western perspectives In particular it detects the foundations of coopetition in three Chinese streams of thought Confucianism Taoism and Legalism and in five Western schools of thought David Hume Adam Smith Immanuel Kant Georg Wilhelm Frederick Hegel and Søren Kierkegaard In such a way it unveils four logics used to tackle the essence of coopetition respectively either or both and both or and either and The

key objectives of the book are firstly to adopt a paradoxical lens to investigate the foundations of coopetition strategy Secondly to offer an interpretive framework that detects the different forms tactics and patterns of coopetition Thirdly to discuss the implications of the framework proposed for other paradoxical strategies and to distil a bouquet of managerial implications In such a way the volume combines existing foundational perspectives with a contemporary interpretation of the coopetition phenomenon thereby offering a valuable understanding of the current business and management world The guiding principles of the book enable readers to extricate the dichotomy between the phenomenon of coopetition and coopetitive strategy appraise the rationale for distinguishing between deliberate planned coopetition strategy and emergent unplanned but conscious coopetition strategy and understand how to deal with coopetition tensions *Marx and We* Sun Zhengyu,2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations **Chechnya** Richard Sakwa,2005 The struggle for Chechnya has come to international prominence in recent years through a string of high profile atrocities such as the hostage seizures at Beslan and the Dubrovka theatre IN Moscow For the first time Western Russian and Chechen perspectives on the conflict are brought together in a single authoritative new volume in which leading experts from all sides of the crisis provide a unique insight into its causes and contexts Chechnya from Past to Future creates a historical framework against which the most pressing issues raised by the Chechen struggle are considered including the rights and wrongs of Chechen secessionism the role of Islamic and Western international agencies in defending human rights the conduct of the war changing perceptions of the war against the backdrop of international terrorism democracy in Chechnya itself and the uncertain fate of democracy in Russia as a whole The precarious position of Chechnya is one of the most important social and political situations of our times and this book should be of interest to anyone with an interest in the world we live in Creolizing Practices of Freedom Michael J. Monahan,2022-11-28 Creolizing Practices of Freedom argues that many of our long standing debates over the concept of freedom have been bound up in the politics of purity explicitly or implicitly insisting on clear and distinct boundaries between self and other or between choice and coercion In this model freedom becomes a matter of purifying the self at the individual level and the body politic at the larger social level The appropriate response to this is a creolizing theory of freedom an approach that sees indeterminacy and ambiguity not as tragic flaws but as crucial productive elements of the practice of freedom *The Bulletin of the Hegel Society of Great Britain* ,2004 **Mind** ,2001 Includes papers of the Aristotelian

Society 1896 1900      **Philosophical Legacies** Daniel O. Dahlstrom, 2008 Immanuel Kant the Prussian thinker at the forefront of the German Enlightenment decisively shaped what is arguably the central philosophical legacy of his era a legacy of critical rationality and ethico political self determination In *Philosophical Legacies* Daniel O Dahlstrom brings exceptional scholarship to an examination of the diversity and lasting influence not only of Kant but also of some of his most prominent contemporary critics Dahlstrom makes a thorough study of various authors such as Johan Georg Hamann Johann Gottfried Herder Friedrich Heinrich Jacobi Friedrich Schiller and later Friedrich Wilhelm Schelling and Georg Wilhelm Friedrich Hegel He shows that the legacy of German Idealism remains undeniably relevant today He examines diverse aspects of these philosophers legacies legacies which continue to find their way into contemporary philosophical debates Among the many topics Dahlstrom discusses are the relation of science to ethics and the different modes and conditions of knowledge He also considers the nature and legitimate reach of aesthetics the ends of history and art the place of conscience in ethical life the religious significance of philosophy and art and the political potential of art the roots of ethics in sexual life the morality of equal opportunity and the speculative idea of a philosophical responsibility that cannot be deferred The essays trace carefully the histories of the influences of earlier thinkers and their legacies upon later thinkers But the essays engage these histories with a view to indicating and in some cases critically weighing the significance of these legacies spawned by one of the most fertile periods of German thought for philosophical thinking in the present Daniel O Dahlstrom is professor of philosophy at Boston University He has authored edited or translated numerous publications including Husserl's *Logical Investigations* *Philosophy and Art* *Nature and Scientific Method* *Das logische Vorurteil* Heidegger's *Concept of Truth* Mendelssohn's *Philosophical Writings* and Schiller's *Essays*

## Unveiling the Energy of Verbal Art: An Mental Sojourn through **Hegel The Logic Of Self Consciousness And The Legacy Of Subjective Freedom**

In a world inundated with monitors and the cacophony of immediate conversation, the profound energy and psychological resonance of verbal artistry usually fade into obscurity, eclipsed by the regular onslaught of noise and distractions.
