

A CRITIQUE OF HEGEL'S PHILOSOPHY OF HISTORY

ABDULVAHAP ALICI

Research Assistant, Necmettin Erbakan University

"To be independent of public opinion is the first formal condition of achieving anything great."
Georg Wilhelm Friedrich Hegel

Abstract

This paper aims at demonstrating the Hegelian concept of the philosophy of the History. The terms, Spirit, Universal History and Truth, are widely used in the Hegelian notion of the History. The unity of these terms sheds light on the route of the History which is viewed as to be pre-destined to reach a particular goal, the freedom. The freedom is only attainable if imperative stages are reached. The progress, in History, plays an indispensable role to accomplish the goal of the History. The paper ascertains the role of each notion in depth to display the overall structure of the Hegelian philosophy of the History.

INTRODUCTION

Hegel's philosophy of the History is criticized due to its lack of tangible data and speculative content, even though it does not address the concrete existences.¹ Firstly, Hegel has not written on the philosophy of the historiography. The major works of Hegel concerned with the questions related to metaphysical aspects of the History such as history of philosophy. Hegel represented the history of philosophy or thought in a historical way by examining the characteristics of each well-known culture such as Chinese, Indian, Persian, Egyptian, Greek, Roman and German respectively. Hegel's philosophy of the History is somewhat similar to the philosophy of historicity which investigates the main driving forces behind the major events in history.² Hegel, by following the traits of the History demonstrated that the aim of the History is the emancipation of the Spirit.³

Nature, in its incipient form, is the obstacle ahead of human beings to reach designed subjectivity. Nature, put the humans in the confinement of irrational environ. The Reason and Nature are in conflict on the way to the freedom. Nature must be defeated to achieve greater spiritual freedom. History is the medium of this conflict. Hegel defines the history as a rationally motivated phenomenon destined to set free itself for itself. History is the development of Spirit in time and nations can be ordered according to their present levels of the Freedom. However, Hegelian development concept takes the thought as an indicator of progress, not the time.⁴

Hegel's history of philosophy was the first treatment of the history of philosophy in a philosophical sense.⁵ Hegel was ahead of his peers in terms of speculative penetration and sharpness of universal criticism.⁶ Furthermore, Hegel can be classified as the most influential philosopher after Plato and Aristotle in a context of prevalence in the philosophical world.

THE ELEMENTS OF THE HISTORY

THE SPIRIT

Hegel argues that there exist a universal History which governs the order of the events; even, they appeared to be uneven.⁷ The governor is called the Spirit which has its own way to overcome or lead the Nature. The Reason, as the

The Philosophy of History Georg Wilhelm Friedrich Hegel, 2012-03-06 One of the great classics of Western thought develops concept that history is not chance but a rational process operating according to the laws of evolution and embodying the spirit of freedom

Introduction to The Philosophy of History Georg Wilhelm Friedrich Hegel, 1988 eminently readable admirably picks up the spirit of what Hegel is saying more readable and accurate than Hartmann's and it translates a more readable text than does Nisbet's It includes as Hartmann's does not an excerpt which serves as chapter five from *The Geographical Basis of History* particularly interesting for what it says of America and a brief chapter six entitled *The Division of History* The volume closes with an appendix translating 341-360 of Hegel's *Philosophy of Right* and deals directly with the very concept of World History It constitutes a big help in coming to grips with what Hegel means by Spirit Quentin Lauer SJ Fordham University in *International Philosophical Quarterly*

Lectures on the Philosophy of World History Georg Wilhelm Friedrich Hegel, 1975-07-03 An English translation of Hegel's introduction to his lectures on the philosophy of history based directly on the standard German edition by Johannes Hoffmeister first published in 1955 The previous English translation by J Sibree first appeared in 1857 and was based on the defective German edition of Karl Hegel to which Hoffmeister's edition added a large amount of new material previously unknown to English readers derived from earlier editors In the introduction to his lectures Hegel lays down the principles and aims which underlie his philosophy of history and provides an outline of the philosophy of history itself The comprehensive and voluminous survey of world history which followed the introduction in the original lectures is of less interest to students of Hegel's thought than the introduction and is therefore not included in this volume

[Lectures on the History of Philosophy 1825-6: Greek philosophy](#) Georg Wilhelm Friedrich Hegel, 2006 The Hegel Lectures Series Series Editor Peter C Hodgson Hegel's lectures have had as great a historical impact as the works he himself published Important elements of his system are elaborated only in the lectures especially those given in Berlin during the last decade of his life The original editors conflated materials from different sources and dates obscuring the development and logic of Hegel's thought The

Hegel Lectures series is based on a selection of extant and recently discovered transcripts and manuscripts. The original lecture series are reconstructed so that the structure of Hegel's argument can be followed. Each volume presents an accurate new translation accompanied by an editorial introduction and annotations on the text which make possible the identification of Hegel's many allusions and sources. Lectures on the History of Philosophy Volume II Greek Philosophy. Hegel's Lectures on the History of Philosophy offer one of the best points of entry to his philosophical system. The second volume dating from 1825-6 covers a thousand years of ancient Greek philosophy; this is the period to which Hegel devoted by far the most attention and which he saw as absolutely fundamental for all that came after it. This edition sets forth clearly and for the first time for the English reader what Hegel actually said. It forms part of OUP's Hegel Lectures series presenting accurate new translations accompanied by editorial introductions and annotations. These lectures challenged the antiquarianism of Hegel's contemporaries by boldly contending that the history of philosophy is itself philosophy, not just history. It portrays the journey of reason or spirit through time as reason or spirit comes in stages to its full development and self-conscious existence through the successive products of human intellect and activity. Hegel's Lectures on the History of Philosophy proved to be extremely influential on the intellectual history of the past two centuries. These lectures are crucial to understanding Hegel's own systematic philosophy in its constructive aspect as well as his views on the centrality of reason in human history and culture. The volume on Greek Philosophy covers the first one thousand years, the period to which Hegel devoted by far the most attention and which he saw as absolutely fundamental for all that came after it. This edition adapts the considerable editorial resources of the German edition that it translates to the needs of the general reader as well as the serious scholar so as to constitute an unparalleled resource on this topic in the English language.

Reason in History, a General Introduction to the Philosophy of History Georg Wilhelm Friedrich Hegel, 2003-01-01 Reason in History Georg Wilhelm Friedrich Hegel, 1953 **Hegel's Lectures on the History of Philosophy** Georg Wilhelm Friedrich Hegel, 1996

This new abridgment of a well-known edition makes the main insights of Hegel's famous Lectures on the History of Philosophy widely available in an inexpensive edition. **History and System** Robert L. Perkins, 1984-06-30. History and System represents the first contemporary volume on Hegel's philosophy of history to be published in English. The editor notes that with the possible exceptions of Augustine and Vico no philosopher before Hegel had such a deep sense of the mutual penetration of history and philosophy as did Hegel. Historical reflection influenced his reading of other philosophers and philosophical reason penetrated his views of past events and eras. Reflecting the best of Hegelian scholarship, the papers here focus on the sources of Hegel's philosophy of history, its internal structure and relation to other parts of his system, analyses of specific aspects of his philosophy of history and its influence on subsequent thinkers. In its breadth and depth, the volume attests to the continued and growing importance of Hegel's thought for contemporary philosophy.

The Static & the Dynamic Philosophy of History & the Metaphysics of Reason Georg Wilhelm Friedrich Hegel, 1977 *Hegel's Preface*

to the *Phenomenology of Spirit* Georg Wilhelm Friedrich Hegel, 2005-01-17 This is a new translation with running commentary of what is perhaps the most important short piece of Hegel's writing The Preface to Hegel's first major work the *Phenomenology of Spirit* lays the groundwork for all his other writing by explaining what is most innovative about Hegel's philosophy This new translation combines readability with maximum precision breaking Hegel's long sentences and simplifying their often complex structure At the same time it is more faithful to the original than any previous translation The heart of the book is the detailed commentary supported by an introductory essay Together they offer a lucid and elegant explanation of the text and elucidate difficult issues in Hegel making his claims and intentions intelligible to the beginner while offering interesting and original insights to the scholar and advanced student The commentary often goes beyond the particular phrase in the text to provide systematic context and explain related topics in Hegel and his predecessors including Kant Spinoza and Aristotle as well as Fichte Schelling Heidegger and others The commentator refrains from playing down as many interpreters do today those aspects of Hegel's thought that are less acceptable in our time and abstains from mixing his own philosophical preferences with his reading of Hegel's text His approach is faithful to the historical Hegel while reconstructing Hegel's ideas within their own context Hegel's Philosophy of Mind Georg Wilhelm Friedrich Hegel, 1894 The present reissue of Wallace's translation of Hegel's *Philosophy of Mind* includes the *Zusätze* or lecture notes which in the collected works accompany the first section entitled Subjective Mind and which Wallace omitted from his translation Professor J N Findlay has written a Foreword and this replaces Wallace's introductory essays The Philosophy of Hegel Georg Wilhelm Friedrich Hegel, 1954 An examination and evaluation of Hegel's most important works including The *Philosophy of History* The *Philosophy of Right* and Law and The *Science of Logic* *Lectures on the Philosophy of History* Georg Wilhelm Friedrich Hegel, 2017-08-18 Hegel's Philosophy of Right Georg W. F. Hegel, 2004 Georg Wilhelm Friedrich Hegel was one of the foremost philosophers of the nineteenth century best known for his exploration of the realm of human existence and in particular his beliefs in an ultimate reality called the Absolute Spirit A lifelong scholar theorist lecturer and writer Hegel's reputation as the most important philosopher in Germany eventually led to his prestigious post as Chair of Philosophy at the University of Berlin in 1818 a position he would hold till his death in 1831 In 1820 Hegel published his most sophisticated statements of legal moral social and political philosophy in his *Philosophy of Right* The work begins with a discussion of the concept of free will and progresses into the examination of Hegel's three spheres of right abstract right morality and ethical life Although Hegel's reputation has diminished significantly his influence can be seen in the works of such important figures as Karl Marx Jean Paul Sartre F W Bradley and John Dewey **Hegel: Elements of the Philosophy of Right** Georg Wilhelm Friedrich Hegel, 1991-10-25 This book is a translation of a classic work of modern social and political thought *Elements of the Philosophy of Right* Hegel's last major published work is an attempt to systematize ethical theory natural right the philosophy of law political theory and the sociology of the modern state into the framework of Hegel's

philosophy of history Hegel's work has been interpreted in radically different ways influencing many political movements from far right to far left and is widely perceived as central to the communication tradition in modern ethical social and political thought This edition includes extensive editorial material informing the reader of the historical background of Hegel's text and explaining his allusions to Roman law and other sources making use of lecture materials which have only recently become available The new translation is literal readable and consistent and will be informative and scholarly enough to serve the needs of students and specialists alike Hegel and History Will Dudley, 2010-07-02 Nearly two centuries after declaring the end of history Hegel remains a rich source of insights into our historical nature The essays collected here interpret and develop those insights while also challenging Hegel's philosophical approach to comprehend present and future phenomena that he could neither experience nor imagine They represent the very best in contemporary scholarship on Hegel and history and collectively they address all of the important and disputed topics in the field Hegel's claim that history has an end whether his philosophy of history is Eurocentric or racist how elements of what he terms subjective spirit and objective spirit contribute to historical development and the relationship between religion and his philosophy of history *Hegel's First Principle* Georg Wilhelm Friedrich Hegel, 1869 **Hegel's Philosophy of History** Ben Kimpel, 1963
