Robert Oppenheimer Heinar Kipphardt, 2005 Narrative as Counter-Memory Reiko Tachibana, 1998-01-01 A pioneering study of German and Japanese postwar fiction providing a broad cultural basis for understanding a half century of responses to World War II from within the two societies Arts: A Science Matter Maria Burguete, Lui Lam, 2011-04-26 This book treats arts as part of science from the unified perspective of Science Matters It contains 17 chapters with 18 contributors who are prominent humanists professional artists or scientists It consists of three parts Part I Philosophy and History of Arts Part II Arts in Action Part III Understanding Arts The book is aimed at both research scholars and laypeople and is unique in two important aspects It is probably the first and only book that academic professionals and practicing artists contribute to the same book as equals on the common theme of creating and understanding arts Artists here include Cristina Leiria whose huge Kun Iam Goddess of Mercy sculpture is an important landmark in Macau and the famous movie director Hark Tsui who is publishing his first ever article on movie making Perhaps more importantly a new understanding of the origin and nature of arts is offered for the first time which is more convincing than all the other hypotheses put forth in the last two thousand years **Jews in German Literature Since 1945** Pól Ó Dochartaigh, 2000 This volume contains some 46 essays on various aspects of contemporary German Jewish literature The approaches are diverse reflecting the international origins of the contributors who are based in seventeen different countries Holocaust literature is just one theme in this context others are memory identity Christian Jewish relations anti Zionism la belle juive and more Prose poetry and drama are all represented and there is a major debate on the controversial attempt to

stage Fassbinder's Der M ll die Stadt und der Tod in 1985 The overall approach of the volume is an inclusive one In his introduction the editor calls for a reappraisal of the terms of German Jewish discourse away from the notion of Germans and Jews and towards the idea that both Jews and non Jews all of them Germans have contributed to the corpus of German Jewish Literatur im Jahrhundert der Physik Clemens Özelt, 2018-07-02 Interaktive Gattungen machen dominante literature Linien der komplexen Austauschbeziehungen zwischen Literatur und Physik im 20 Jahrhundert lesbar Jahrhundertwissenschaft Schicksalswissenschaft oder Leitwissenschaft des Jahrhunderts sind wiederkehrende Apostrophierungen mit denen Wissenschaftshistoriker auf die singul re Rolle der Physik im 20 Jahrhundert hinweisen Wie die Literatur diese Bedeutung erfasst und mitgestaltet hat und dabei ihrerseits von der Physik umgestaltet wurde zeigt die Studie in funktionsgeschichtlich orientierten Gattungsanalysen Gattungen reagieren als Bed rfnissynthesen auf gesellschaftliche Herausforderungen machen auf sie aufmerksam und gestalten sie so auch beim Aufstieg einer neuen Leitwissenschaft Die finf interaktiven Gattungen Roman Dialog Brief Tagebuch und Trag die werden als Formungen solcher gesellschaftlichen Bed rfnisse vorgestellt die einerseits den engen Rahmen der Fachwissenschaft Physik andererseits den Bereich der literarischen Imagination bersteigen Sie machen erstmals dominante Linien der komplexen Austauschbeziehungen lesbar **Relations of Literature and Science** ,1982 Staged Minou Arjomand, 2018-09-11 Theater requires artifice justice demands truth Are these demands as irreconcilable as the pejorative term show trials suggests After the Second World War canonical directors and playwrights sought to claim a new public role for theater by restaging the era's great trials as shows The Nuremberg trials the Eichmann trial and the Auschwitz trials were all performed multiple times first in courts and then in theaters Does justice require both courtrooms and stages In Staged Minou Arjomand draws on a rich archive of postwar German and American rehearsals and performances to reveal how theater can become a place for forms of storytelling and judgment that are inadmissible in a court of law but indispensable for public life She unveils the affinities between dramatists like Bertolt Brecht Erwin Piscator and Peter Weiss and philosophers such as Hannah Arendt and Walter Benjamin showing how they responded to the rise of fascism with a new politics of performance Linking performance with theories of aesthetics history and politics Arjomand argues that it is not subject matter that makes theater political but rather the act of judging a performance in the company of others Staged weaves together theater history and political philosophy into a powerful and timely case for the importance of theaters as public institutions **Encyclopedia of German Literature** Matthias Konzett, 2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest
