Heinemann Maths 3: Home Link-Up, 1997 This component of the Heinemann Mathematics series offers a strategy for home support of children's work in school. Whilst consolidating all aspects of the curriculum, the photocopiable homework activities also provide opportunities for children to use and apply their maths in problem solving activities. The activities provide practice of key skills and techniques, are clearly linked to specific pages in the textbooks and workbooks, allowing for easy integration with class work. They give parents an insight into the approach used in the Heinemann Mathematics series and provide opportunities for children to work individually and at their own pace. **Heinemann Mathematics** Scottish

**P7 Answer Book**, 1996 For Heinemann Mathematics P7, colour textbooks and workbooks are used by children to practise and record their understanding of concepts, skills, and applications in number, measure, shape, and handling data. They include a wide range of problem solving and investigative work to develop children's ability to use and apply maths. The textbooks help promote children's recording skills using a variety of motivating contexts and include activities to give further practice in applying maths. The format of the workbooks frees children to concentrate on the maths rather than on the presentation of their work, and each one contains a record keeping grid to show work completed. The reinforcement sheets are for use selectively with those children who need extra practice of key maths topics in addition to that provided in the textbooks and workbooks. Each sheet is clearly referenced to a workbook or textbook page for easier integration with the core work, and clear flagging in the textbooks and workbooks shows which topics are supported by a reinforcement sheet. All the extra work is at the same mathematical level as the core. The extension textbook provides additional work at every stage to consolidate and extend learning. Some of the work extends the range of a topic for all children, and some is specifically to stretch the
