Historical Dictionary of Postwar German Literature William Grange, 2009-07-09 Some authors strongly criticized attempts to rebuild a German literary culture in the aftermath of World War II while others actively committed themselves to dealing with the German past There are writers in Austria and Switzerland that find other contradictions of contemporary life troubling while some find them funny or even worth celebrating German postwar literature has in the minds of some observers developed a kind of split personality In view of the traumatic monstrosities of the previous century that development may seem logical to some The Historical Dictionary of Postwar German Literature is devoted to modern literature produced in the German language whether from Germany Austria Switzerland or writers using German in other countries This volume covers an extensive period of time beginning in 1945 at what was called zero hour for German literature and proceeds into the 21st century concluding in 2008 This is done through a list of acronyms and abbreviations a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on writers such as Nobel Prize winners Heinrich Böll Günter Grass Elias Canetti Elfriede Jelinek and W G Sebald There are also entries on individual works genres movements literary styles and forms

The Work of Memory Alon Confino, Peter Fritzsche, 2002 Coming to terms with a troubled past is the mark of the modern condition But how does memory operate This powerful collection of original essays probes this question by focusing on Germany where historical trauma and political turbulence over the past century have deeply scarred modern memory and identity Tracing the role of memory in German history between the Reformation and reunification contributors show how memory has a history and the presence of the past has historical context With scholarly zeal and keen insight these essays draw on ghost stories and the postwar fiction of Heinrich Böll among other memory sites escorting the reader through the streets of Alt Hildesheim and the grocery aisles of East

Germany By historicizing memory this volume surpasses the efforts of previous memory scholarship in confronting Germany's National Socialist past Standard approaches to memory in modern Germany have explored how the past represents social relations and is commemorated in literature art and personal narrative In taking memory out of the museum and beyond the monument *The Work of Memory* investigates the ways memory forms social relations and is integral to the construction of identities communities and policies Profound and provocative *The Work of Memory* contributes to a much needed anthropology of memory in modern Germany *West Germany and Israel* Carole Fink,2019-01-17 A new history of the West German Israeli relationship as these two countries faced terrorism war and economic upheaval in a global Cold War environment *Europe Since 1945* Bernard A. Cook,2014-01-27 *Europe Since 1945* An Encyclopedia is a comprehensive reference work of some 1 700 entries in two volumes Its scope includes all of Europe and the successor states to the former Soviet Union The volumes provide a broad coverage of topics with an emphasis on politics governments organizations people and events crucial to an understanding of postwar Europe Also includes 100 maps and photos *The Force of Tradition* Donald G. Marshall,2005-08-25 The essays in this volume offer analyses of religious literary and cultural traditions and both responses and resistance to them including works by Hans Georg Gadamer Josiah Royce Alasdair MacIntyre Jacques Derrida Charlotte Bronte Soren Kierkegaard Ludwig Wittgenstein Edith Wharton Chinua Achebe Samuel Taylor Coleridge Thomas Kuhn Donald Davidson antebellum African American women preachers and Christian and Jewish thinkers in the wake of the Holocaust among others **BOOK JACKET** *Narrative as Counter-Memory* Reiko Tachibana,1998-07-30 **CHOICE** 1999 Outstanding Academic Books The wartime and postwar cultural histories of Germany and Japan show similar experiences of defeat occupation and then the reconstruction of powerful societies Little previous research has examined the literary works that reflect these contacts and parallelisms For the first time this book offers an extensive comparative study of German and Japanese narratives that serve as a form of counter memory in Foucault's phrase for the two cultures Rather than attempting to present objective or comprehensive views of history these narratives draw upon personal memories to offer subjective selective and individualistic reports They provide an alternative or counter memory to more official versions of World War II and its aftermath Major writers such as Mishima Yukio Ibuse Masuji Oba Minako Gunter Grass Uwe Johnson Christa Wolf and the Nobel Prize winners Oe Kenzaburo and Heinrich Boll are set in the context of lesser known writers including a nine year old child a medical doctor a woman who served as a journalist and a former prisoner to provide a broad cultural basis for understanding responses to the war from within the two societies This book combines a broad historical scope with detailed examinations of important individual texts with both aspects securely set on a firm foundation of historical and literary scholarship The rhythm of alternation between synthetic generalizations and close textual explication yielding interpretive insights while providing lucid and economical exposition and summary allows for carefully balanced and integrated comparisons **Kitsch & Kunst** Maggie Sargeant,2005 This book examines the presentation of and attitudes to

the Second World War in post war West German prose fiction The fierce public reactions which some of these works provoked at the time of their publication are taken into account in this study since their reception provides a picture of the psychological relationship West Germany had with its wartime past in the immediate post war period and beyond Writers of Unterhaltungsliteratur and Trivialliteratur are often studied within their own genre but this book sets such writers alongside their canonical colleagues This approach opens up the possibility of considering whether the strategies adopted to influence contemporary society to reflect that society and to come to terms with the Second World War are determined by the classification of these works as Kitsch or Kunst The authors included are Alfred Andersch Heinrich Böll Hans Hellmut Kirst Heinz G. Konrad Theodor Plievier and Erich Maria Remarque The selected works deal specifically with the German soldier and officer the fighting fronts the home front and the connections between the German army and the National Socialist regime

German History in Modern Times William W. Hagen, 2012-02-13 This history of German speaking central Europe offers a very wide perspective emphasizing a succession of many layered communal identities It highlights the interplay of individual society culture and political power contrasting German with Western patterns Rather than treating the Germans as a collective whole whose national history amounts to a cumulative biography the book presents the pre modern era of the Holy Roman Empire the nineteenth century the 1914-45 era of war dictatorship and genocide and the Cold War and post Cold War eras since 1945 as successive worlds of German life thought and mentality This book's Germany is polycentric and multicultural including the multinational Austrian Habsburg Empire and the German Jews Its approach to National Socialism offers a conceptually new understanding of the Holocaust The book's numerous illustrations reveal German self presentations and styles of life which often contrast with Western ideas of Germany
