Hidden New York Marci Reaven, Steve Zeitlin, 2006-10-05. Despite its innumerable tourist attractions, New York City still has many secrets hidden in the most unlikely places. There is the Edison Hotel in Times Square where magicians gather round the Magic Table to socialize and compete. There is Hua Mei Garden in the Lower East Side where elderly Chinese men meet to display exotic birds. And there is Sahadi's in Brooklyn where the culinary arts thrive and New Yorkers go for just the right ingredients for a Middle Eastern meal. This book details thirty-two unusual locations such as these and enhances them by including a cluster of additional related spots. Hidden New York shows you why these places matter and guides you through the historical and cultural significance of each one. Many of them matter because of the opportunities they provide for socializing, such as the Empire Roller Disco in Brooklyn that attracts a community of skaters and the Cube sculpture on Astor Place which is a meeting spot for homeless youth. Others matter because they are focal points for communities and the spaces are intertwined with how people share in each other's lives. Still others have been lost, like the house under the roller coaster in Coney Island made famous by Woody Allen in *Annie Hall*. This book is not just about Manhattan but covers all five boroughs in New York City. It is an invitation to visit, revisit, learn, and enjoy all that you didn't know the city has to offer. It will show you what's there, what used to be there, and why it will be there for years to come. The chapters, illustrated with appealing black and white photos, include first-person remembrances and commentaries from New Yorkers themselves. Each entry functions as a small travel essay evoking how certain destinations are experienced. As a guide to the New York City that is less traveled, this unique book shows that some of the best places to visit are ones that you never even thought existed. The 32 Places That Matter: Hua Mei Bird Garden, Russian and Turkish Tenth Street Baths, Bohemian Hall, and Beer Garden. The

Up the Junction Nell Dunn, 2000-04-14 Nell Dunn's scenes of London life as it was lived in the early Sixties in the industrial slums of Battersea have few parallels in contemporary writing The exuberant uninhibited disparate world she found in the tired old streets and under the railway arches is recaptured in these closely linked sketches and the result is pure alchemy In the space of 120 perfect pages we witness clip joint hustles petty thieving candid sexual encounters casual birth and casual death She has a superb gift for capturing colloquial speech and the characters observed in these pages convey that caustic ironic and compassionate feeling for life in

which a turn of phrase frequently contains startling flashes of poetry Battersea that teeming wasteland of brick south of the Thames has found its poet in Nell Dunn and Up the Junction is her touchingly truthful and timeless testimonial to it

My Name Is Tiny Mary Ann Carper, 2011-02 My Name Is Tiny is a devotional about fitting in I used a little puppy to tell the story Tiny and his friends share biblical truths with one another in a way that makes it easier for children to remember We don't fit in in the world but we fit in in God's plan for our lives If a child realizes how valuable he is to God when he is young the rejection he may receive in this world won't be as devastating It may prevent him or her from seeking acceptance in the wrong places and from the wrong people If the Word is hidden in their hearts especially at a young age it will give them strength throughout their lives Thank you for letting me share this devotional with you I pray the Lord blesses you and your family exceeding abundantly
