Help Im Being Held A Prisoner In A Ransom Note Factory:

American Sherlock Kate Winkler Dawson,2020-02-11 From the acclaimed author of *Death in the Air* Not since *Devil in the White City* has a book told such a harrowing tale Douglas Preston comes the riveting story of the birth of criminal investigation in the twentieth century Berkeley California 1933 In a lab filled with curiosities beakers microscopes Bunsen burners and hundreds upon hundreds of books sat an investigator who would go on to crack at least two thousand cases in his forty year career Known as the American Sherlock Holmes Edward Oscar Heinrich was one of America s greatest and first forensic scientists with an uncanny knack for finding clues establishing evidence and deducing answers with a skill that seemed almost supernatural Heinrich was one of the nation s first expert witnesses working in a time when the turmoil of Prohibition led to sensationalized crime reporting and only a small systematic study of evidence However with his brilliance and commanding presence in both the courtroom and at crime scenes Heinrich spearheaded the invention of a myriad of new forensic tools that police still use today including blood spatter analysis ballistics lie detector tests and the use of fingerprints as courtroom evidence His work though not without its serious some would say fatal flaws changed the course of American criminal investigation Based on years of research and thousands of never before published primary source materials *American Sherlock* captures the life of the man who pioneered the science our legal system now relies upon as well as the limits of those techniques and the very human experts who wield them
