Doctor, Please Help Me Die Tom Preston MD, 2013 Death comes for us all and the desire to ease into that death is as ancient as humankind The idea that sometimes it is better to die quickly and in control of that death rather than linger in pain and misery once impending death is certain has troubled yet comforted humankind In Doctor Please Help Me Die author Tom Preston MD presents a thorough overview and discussion of end of life issues and physician assisted death in America Doctor Please Help Me Die traces the history of patients seeking relief from suffering at the end of life and

discusses how cultural and professional customs have inhibited many doctors from helping their patients at the end Preston shows how most doctors fail their patients by not discussing dying with them and by refusing to consider legal physician aid in dying ultimately deceiving the public in their refusal to help patients die He discusses the religious political and legal battles in this part of the culture war and gives advice to patients on how to gain peaceful dying Preston presents a strong argument for why every citizen who is dying ought to be extended an inalienable right to die peacefully and why every physician has an ethical obligation to assist patients who want to exercise this right safely securely and painlessly *Can You Help Me Solve This Crime?* Lois K. Please Help Me With This Family Maurizio Andolfi, Russell Haber, 2013-10-28 Please Help Me With This Family is based on the premise that it is generally useful to expand the therapeutic system when it is not working By calling in additional resources when therapy reaches an impasse the therapist is giving two strong messages to stuck families 1 the admission of the failure of the present system to grow beyond the impasse and 2 a model of creativity in recruiting resources to improve chances of success Often the resources in the large system hold the keys to uncovering and correcting troublesome relationships and behaviors in the smaller system Please Help Me With This Family is divided into four major sections each illustrating unique approaches and methods for unlocking resources in family and therapeutic systems The first section opens with a comprehensive review of the theoretical roots of family therapy consultation followed by a discussion of the different faces of consultation around the world a detailed case study of an anorectic family in which Maurizio Andolfi successfully provokes a therapeutic impasse and to which Carl Whitaker provides fascinating insights into his role as a consultant Section II discusses the variety of consultative resources available in the client system and how best to harness them Chapters cover using the child as consultant using family of origin and friends as resources and the use of consultation in treating addictions Using colleagues
