

Sustainably cooling buildings is about prioritising and combining all practices that reduce energy needs at city, building, individual and technological level, while also considering the local context and future climate change.

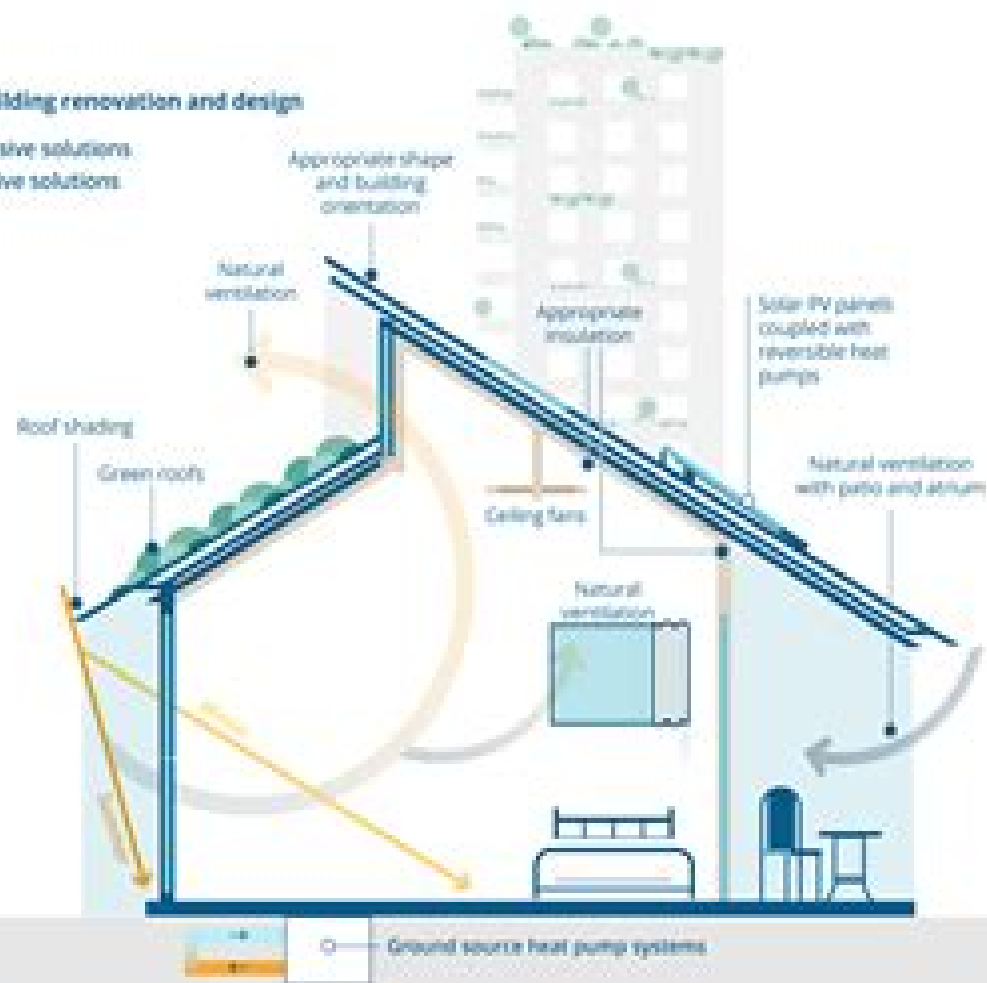

There is no one-size-fits-all solution and incorporating equitable access to cooling for the most vulnerable is part of the strategy. This visual offers non-exhaustive examples of options that can be combined and adopted.

1 City-area design

2 Building renovation and design

- Passive solutions
- Active solutions

3 Individual awareness, behaviour and good practices: non-exhaustive examples

4 Innovation to be considered
