Klink III, 2007-08-02 The last generation of gospel scholarship has considered the reconstruction and analysis of the audience behind the gospels as paradigmatic The key hermeneutical template for reading the gospels has been the quest for the community that each gospel represents This scholarly consensus regarding the audience of the gospels has been reconsidered Using as a test case one of the most entrenched gospels Edward Klink explores the evidence for the audience behind the Gospel of John This study challenges the prevailing gospel paradigm by examining the community construct and its functional potential in early Christianity the appropriation of a gospel text and J L Martyn's two level reading of John and the implied reader located within the narrative The study concludes by proposing a more appropriate audience model for reading John as well as some implications for the function of the gospel in early Christianity      **The Seductiveness of Jewish Myth** S. Daniel Breslauer, 1997-01-01 A collection of essays focusing on myth in Judaism from biblical to modern times this book offers a sense of the great diversity of the Jewish religion      **Philosophical Hermeneutics and Biblical Exegesis** Petr

Pokorný, Jan Roskovec, 2002 Essays that focus on the analysis of the hermeneutical process which is what occurs when texts are interpreted successfully Also includes contributions from prominent researchers from all religious denominations on the subjects of philosophical hermeneutics exegesis and theology      **Biblical Interpretation in Early Christian Gospels**

Thomas R. Hatina, 2008-08-18 The second title in a proposed five volume work volume two following on from the volume on Mark's Gospel concentrates on Matthew's Gospel Contributors consider the function of embedded scripture texts in the context of the Gospels written and read heard in their early Christian settings The project is wide ranging with essays on the function of scripture in the compositional history of the gospels and the collection is broad in scope as a result of current interest in the integration of methods especially historical and narrative ones Advancements over the last 20 years in the study of genre and narrative criticism have left a void in the study of the function of embedded biblical texts in the Gospels This collection of essays will move the study of scripture within scripture forwards      Human Agents of Cosmic Power in Hellenistic Judaism and the Synoptic Tradition

Mary E. Mills, 1990-01-01 The ancient world believed that the universe was made up of elements both material and spiritual These elemental forces affected human life positively or negatively and any human being who could share their energy was a person of great significance a human agent of cosmic power This is a significant part of the background of the life and career of Jesus of Nazareth The present work is a reappraisal of Synoptic accounts of Jesus and his followers in the light of recent developments in the study of ancient magic      *The Gospel of Matthew and the Sayings Source Q*

Frans Neirynck, 1998      **Debating Christian Theism** J. P. Moreland, Chad V. Meister, Khaldoun A. Sweis, 2013-08-15 Comprising groundbreaking dialogues by many of the most prominent scholars in Christian apologetics and the philosophy of religion this volume offers a definitive treatment of central questions of Christian faith The essays are ecumenical and broadly Christian in the spirit of C S Lewis's Mere Christianity and feature lucid and up to date material designed to engage readers in contemporary theistic and Christian issues Beginning with dialogues about God's existence and the coherence of theism and then moving beyond generic theism to address significant debates over such specifically Christian doctrines as the Trinity and the resurrection of Jesus Debating Christian Theism provides an ideal starting point for anyone seeking to understand the current debates in Christian theology      **The Oxford Handbook of Early Christian Apocrypha**

Joseph Verheyden, 2015-08-13 The Oxford Handbook of Early Christian Apocrypha addresses issues and themes that arise in the study of early Christian apocryphal literature It discusses key texts including the Gospel of Thomas the Gospel of Mary the Gospel of Peter letters attributed to Paul Peter and Jesus and acts and apocalypses written about or attributed to different apostles Part One consists of authoritative surveys of the main branches of apocryphal literature gospels acts epistles apocalypses and related literature and Part Two considers key issues that they raise These include their contribution to our understanding of developing theological understandings of Jesus the apostles and other important figures such as Mary It also addresses the value of these texts as potential sources for knowledge of the historical

Jesus and for debates about Jewish Christian relations the practice of Christian worship and developing understandings of asceticism gender and sexuality etc The volume also considers questions such as which ancient readers read early Christian apocrypha their place in Christian spirituality and their place in contemporary popular culture and contemporary theological discourse

**Commentaries on Hebrew and Christian Mythology** Parish B. Ladd, 1896 Ladd's commentaries on the mythological aspects of Judaism and Christianity are illuminated by his depth of scriptural knowledge and thorough researches This eclectic work examines extant writings of a variety of ancient civilizations to shed light upon the myths and stories of the Hebrews Ladd looks into the ancient Chaldeans the Egyptians the Greeks and even the Hindus of the East to arrive at his conclusions The author's desire is to uncover how Judaism and later on Christianity began in the context of the religious and cultural events which preceded their establishment Spending years amid volumes of disparate and obscure sources Ladd sought to condense and combine their insights into this single book that curious readers may discover such history with relative ease Individual monuments and stone tablets plus surviving examples of writing upon papyrus are among the original sources Ladd consults The Bible from the life of Moses and the Exodus from Egypt onwards is examined at length The author disagreed with the conventional explanations whether regarding the life of certain figures or the authorship and origins of various texts Thus much of this work seeks to validate and support the author's assertions to the farthest extent possible

**Theology as Hermeneutics** John Painter, 2015-01-29 Rudolf Bultmann was the most significant New Testament scholar we have known in the twentieth century This study approaches his work arguing that his theology can only be understood correctly as an interpretation of the New Testament Naturally it is a twentieth century interpretation involving complex hermeneutical questions But it is the New Testament which provides the subject matter to be interpreted Bultmann's theology stemming from the conviction that the New Testament addresses the present age offers important solutions to many problems for Christian theology in our materialistic relativist pluralistic age The book introduces the reader to Bultmann's theology the problem of contemporary New Testament hermeneutics the problems of New Testament theology the question of the relation of New Testament theology to theology as such It makes a necessary critique of simplistic modes of interpreting Bultmann and shows a masterly hand in assessing his continuing significance

**New Testament Writers and the Old Testament** John M. Court, 2011-02-01 How the Old Testament is used in the New Testament is currently a matter of fierce debate Scholars argue about whether the early Christians as readers and writers or hearers would have known the Hebrew Bible by heart and the extent to which they would have acknowledged it as Scripture Many modern translations of the Bible no longer include cross references that indicate the sources of Old Testament quotations or allusions in New Testament writings Students may therefore find it difficult to appreciate how much Old Testament material is included in the New Testament and to estimate the relative weighting of Old Testament themes in different New Testament writings New Testament Writers and the Old Testament introduces the issues involved in

understanding the controversy about the relationship of the Old and New Testaments The wealth of information this book contains together with cross references linking the two testaments make it an invaluable resource for both the Bible student and the general reader      *Subversive Symmetry* George Young,2021-10-11 A rigorous analysis of Mark 6 45 56 Jesus sea walk The first part of the book argues that given the complexities which challenge the reader in Mark 6 45 56 traditional historical critical approaches lack the terminology and conceptual categories necessary to provide an adequate elucidation of the passage in all its fantastic array The second part proposes a theoretical framework for scholars to examine the Gospel of Mark using tools and terms often associated with fantasy literature and suggests that this gospel is best viewed as an illustration of ancient fantastic fiction The final part of the book shows how the tools of fantasy studies can be applied to the gospel using Mark 6 45 56 as a case in point      **Creation, Christ and Culture** Richard W. A. McKinney,2016-10-06 With contributions from eminent theologians from different countries confessions disciplines and interests this volume celebrates the immense breadth and influence of T F Torrance Contributors include R E Clements Matthew Black R S Barbour Alasdair Heron Dietrich Ritschl Robert W Jenson D M MacKinnon Allan D Galloway J rgen Moltmann Noel Dermot O Donoghue Stanley L Jaki Thomas A Langford J Houston Enda McDonagh John McIntyre Eberhard J ngel Richard W A McKinney S W Sykes John Heywood Thomas Lesslie Newbigin      **Encyclopedia of Early Christianity** Everett Ferguson,1999 First published in 1990 Routledge is an imprint of Taylor Francis an informa company      **The Liberation of Christmas** Richard A. Horsley,2006-02-14 Current biblical scholarship tends to treat the nativity narratives as having little historical basis and to see in them illustrations of the particular theologies of Matthew and Luke Nonbiblical scholarship sees in these narratives only an adaptation of traditional folklore themes relating to the birth of the hero This leaves the ordinary Christian in a vacuum that the mass media and other commercial interests are only too anxious to fill Liberating Christmas shows that regardless of whether the nativity narratives are rooted in actual historical situations they do portray a particular network of social political relationships Thus Caesar ruled and taxed peoples such as the Jews through client kings such as Herod who ruled with sharply repressive violence But the narratives also celebrate the birth of a messiah who will finally liberate his people even though he and his family are driven into exile The Christmas stories as reappraised by this book have therefore important political implications implications not only about first century Palestine but about contemporary history as well These latter implications are brought out by an extensive analysis of the political economic domination exercised in much of Latin America by the United States domination maintained by client dictators who use death squads paralleling Herod s slaughter of innocents to terrorize and control the exploited peasants while driving members of basic Christian communities into exile Liberating Christmas has as much to say about the Pax Americana as the original nativity narratives had to say about the Pax Romana The story of Jesus is as important to ordinary readers today as it was when it was first told centuries ago      **Recovering Jewish-Christian Sects and Gospels** Petri Luomanen,2011-11-25 This book provides a new approach

to patristic sources on the earliest Jewish Christians It shows the artificial nature of the church fathers discourse and challenges the widely accepted theory of three Jewish Christian gospels bringing the Gospel of the Hebrews closer to its synoptic cousins
