The American Musical and the Performance of Personal Identity Raymond Knapp, 2010-06-21 The American musical has long provided an important vehicle through which writers performers and audiences reimagine who they are and how they might best interact with the world around them Musicals are especially good at this because they provide not only an opportunity for us to enact dramatic versions of alternative identities but also the material for performing such alternatives in the real world through songs and the characters and attitudes those songs project This book addresses a variety of specific themes in musicals that serve this general function fairy tale and fantasy idealism and inspiration gender and sexuality and relationships among others It also considers three overlapping genres that are central in quite different ways to the projection of personal identity operetta movie musicals and operatic musicals Among the musicals discussed are Camelot Candide Chicago Company Evita Gypsy Into the Woods Kiss Me Kate A Little Night Music Man of La Mancha Meet Me in St Louis The Merry Widow Moulin Rouge My Fair Lady Passion The Rocky Horror Picture Show Singin in the Rain Stormy Weather Sweeney Todd and The Wizard of Oz Complementing the author's earlier work The American Musical and the Formation of National Identity this book completes a two volume thematic history of the genre designed for general audiences and specialists alike

Literature into Film Linda Costanzo Cahir, 2014-12-24 For most people film adaptation of literature can be summed up in one sentence The movie wasn't as good as the book This volume undertakes to show the reader that not only is this evaluation not always true but sometimes it is intrinsically unfair Movies based on literary works while often billed as adaptations are more correctly termed translations A director and his actors translate the story from the

written page into a visual presentation Depending on the form of the original text and the chosen method of translation certain inherent difficulties and pitfalls are associated with this change of medium So often our reception of a book based movie has more to do with our expectations and reading of the literature than with the job that the movie production did or did not do Avoiding these biases and fairly evaluating any particular literary based film takes an awareness of certain factors Written with a formalistic rather than historical approach this work presents a comprehensive guide to literature based films establishing a contextual and theoretical basis to help the reader understand the relationships between such movies and the original texts as well as the reader s own individual responses to these productions To this end it focuses on recognizing and appreciating the inherent difficulties encountered when basing a film on a literary work be it a novel novella play or short story Individual chapters deal with the specific issues and difficulties raised by each of these genres providing an overview backed up by case studies of specific film translations Films and literary works receiving this treatment include The Unbearable Lightness of Being The Manchurian Candidate 1962 Lady Windemere s Fan by Oscar Wilde and Shakespeare s Henry V Interspersed throughout the text are suggestions for activities the film student or buff can use to enhance his or her appreciation and understanding of the films Instructors considering this book for use in a course may request an examination copy here
