Hegel And Whitehead Contemporary Perspectives On Systematic Philosophy:

Hegel and Whitehead George R. Lucas Jr., 1986-01-15 Hegel and Whitehead presents a careful exploration of the similarities between these two formidable representatives of systematic philosophy Some of the most distinguished scholars in European and American philosophy converge herein to explore the similarities in Hegel's and Whitehead's contemporary influence as well as in the content of their respective systems and in their philosophical styles This volume begins with important critical comparative and historical assessments of the contemporary problems in metaphysics philosophy of science philosophy of mind ethics social thought and philosophy of religion of history and of culture against the background of the important contributions made to these discussions by both Hegel and Whitehead The result is a collection of vigorous new essays in systematic philosophy that reflect the enduring contributions of these two philosophers to the contemporary philosophical climate on two continents *Hegel and Whitehead* George R. Lucas (jr), 1986 *A Commentary to Hegel's Science of Logic* David Gray Carlson, 2007-01-04 Hegel is regarded as the pinnacle of German idealism and his work has undergone an enormous revival since 1975 In this book David Gray Carlson presents a systematic interpretation of Hegel's *The Science of Logic* a work largely overlooked through a system of accessible diagrams identifying and explicating each of Hegel's logical derivations **Thinking with Whitehead and the American Pragmatists** Brian G. Henning, William T. Myers, Joseph D. John, 2015-04-16 Despite there being deep lines of convergence between the philosophies of Alfred North Whitehead C S Peirce William James John Dewey and other classical American philosophers it remains an open question whether Whitehead is a pragmatist and conversation between pragmatists and Whitehead scholars have been limited Indeed it is difficult to find an anthology of classical American philosophy that includes Whitehead's writings These camps began separately and so they remain This volume questions the wisdom of that separation exploring their connections both historical and in application The essays in this volume embody original and creative work by leading scholars that not only furthers the understanding of American philosophy but seeks to advance it by working at the intersection of experience and reality to incite novel and creative thought This exploration is long overdue Specific questions that are addressed are Is Whitehead a pragmatist What contrasts and affinities exist between American pragmatism and Whitehead's thought What new questions strategies and critiques emerge by juxtaposing their distinct perspectives Hegel, History, and Interpretation Shaun Gallagher, 1997-06-30 *Hegel History and Interpretation* is a collection of essays that extend critical discussions of Hegel into contemporary debates about the nature of interpretation and theories of philosophical hermeneutics Essays by Susan Armstrong John D Caputo William Desmond Robert J Dostal Shaun Gallagher Philip T Grier H S Harris Walter Lammi George R Lucas Jr Michael Prosch Tom Rockmore and P Christopher Smith explore difficult issues concerning historical interpretation the nature of hermeneutics at the end of metaphysics the social and critical function of reason and the inadequacy of Hegel's interpretation of the experience of otherness In the course of these essays Hegel is

made to converse with Kierkegaard Nietzsche and Heidegger as well as with contemporary theorists such as Gadamer Habermas Foucault and Derrida Thus the contributors explore both the themes that form the common ground between Hegelian philosophy and contemporary interpretation theory and the mixed reception of Hegel's philosophy into contemporary discussions about history deconstruction critical theory and alterity

Whitehead's Radically Different Postmodern Philosophy David Ray Griffin, 2012-02-01 Postmodern philosophy is often dismissed as unintelligible self contradictory and as a passing fad with no contribution to make to the problems faced by philosophers in our time While this characterization may be true of the type of philosophy labeled postmodern in the 1980s and 1990s David Ray Griffin argues that Alfred North Whitehead had formulated a radically different type of postmodern philosophy to which these criticisms do not apply Griffin shows the power of Whitehead's philosophy in dealing with a range of contemporary issues the mind body relation ecological ethics truth as correspondence the relation of time in physics to the irreversible time of our lives and the reality of moral norms He also defends a distinctive dimension of Whitehead's postmodernism his theism against various criticisms including the charge that it is incompatible with relativity theory

The Universal God James E. Will, 1994-01-01 How can Christians bring about peace and justice in the world when Christianity seems either to claim the absolute truth about God or to dissolve into disempowering relativism James Will seeks an answer for this crucial question in the spiritual and intellectual life of the church He challenges the traditional western idea of God as omnipotent and unchanging instead offering the theory of the universal relationality of God Writing from the perspective of process theology Will says that just as God had an impact on the world so the world has an impact on God God is related and responsive to the world In the modern world where many cultures and belief systems are in contact and often conflict with one another Will's broadening of the conception of God offers an integration of many cultures and beliefs recognizing their relatedness without reducing any of them In this way Will believes the universal God may bring love and peace to a pluralistic and often divided world

Marx and Whitehead Anne Fairchild Pomeroy, 2012-02-01 Marx and Whitehead boldly asks us to reconsider capitalism not merely as an economic system but as a fundamentally self destructive mode that by its very nature and operation undermines the cohesive fabric of human existence Author Anne Fairchild Pomeroy asserts that it is impossible to appreciate fully the impact of Marx's critique of capitalism without understanding the philosophical system that underlies it Alfred North Whitehead's work is used to forge a systematic link between process philosophy and dialectical materialism via the category of production Whitehead's process thought brings Marx's philosophical vision into sharper focus This union provides the grounds for Pomeroy's claim that the heart of Marx's critique of capitalism is fundamentally ontological and that therefore the necessary condition for genuine human flourishing lies in overcoming the capitalist form of social relations

The Ethics of Creativity Brian G. Henning, 2011-12-09 Foreword by Daniel A Dombrowski A central concern of nearly every environmental ethic is its desire to extend the scope of direct moral concern beyond human beings to plants nonhuman animals and the

systems of which they are a part Although nearly all environmental philosophies have long since rejected modernity's conception of individuals as isolated and independent substances few have replaced this worldview with an alternative that is adequate to the organic processive world in which we find ourselves In this context Brian G Henning argues that the often overlooked work of Alfred North Whitehead has the potential to make a significant contribution to environmental ethics Additionally inspired by classical American philosophers such as William James John Dewey and Charles Sanders Pierce and environmental philosophers such as Aldo Leopold Peter Singer Albert Schweitzer and Arne Naess Henning develops an ethical theory of which the seminal insight is called The Ethics of Creativity By systematically examining and developing a conception of individuality that is equally at home with the microscopic world of subatomic events and the macroscopic world of ecosystems The Ethics of Creativity correctly emphasizes the well being of wholes while not losing sight of the importance of the unique centers of value that constitute these wholes In this way The Ethics of Creativity has the potential to be a unique voice in contemporary moral philosophy

Intensity Judith A. Jones, 1998 A challenging iconoclastic study that makes clear the underlying unity of Whitehead's vision of the world This important and provocative book on the work of Alfred North Whitehead 1861-1947 explores how his avowed atomism is consistent with his equally essential commitment to a view of reality as a thoroughly interconnected sphere of relations Judith Jones challenges Whitehead's readers to reconsider certain prevailing interpretations of his organic philosophy To Jones a rereading of Whitehead's overall philosophic project is essential to evaluating his contributions to metaphysics and ontology Since Whitehead's basic worldview is holistic a return to viewing Whitehead's work as a whole helps clarify his ontological intentions and contributions to metaphysics For this purpose the concept of intensity which Jones defines as the quality and form of feeling involved in subjective experience is basic to Whitehead's thinking about process at all naturalistic levels and is therefore particularly useful as a lens through which to view his entire system Intensity is at once Whitehead's most basic metaphysical idea and a notion useful in deciphering the overall unity of purpose in his writings A central aim of this book is to develop an aesthetically sensitive sense of being that demonstrates the profound and original contributions of process philosophy to realism Jones shows that a thorough understanding of the concept of intensity yields modes of thought that help overcome knotty problems in conceiving Whitehead's distinction between the private experience of individuals and the public relations those individuals experience in relationship to other entities Drawing frequently on poetic allusions to aid her interpretations she focuses specifically on the status of intensity in intellectual and moral experience and develops an ethics of attention as an elaboration of Whitehead's aesthetic metaphysics The result is a book that should be enthusiastically greeted and debated by scholars of Whitehead and by all who are interested in the field of process thought including students of theology literature and feminist studies Jones's unorthodox conclusions backed up with scrupulous attention to both the Whitehead canon and related secondary literature present challenges to accepted interpretations that cannot be ignored

Ground Brian Schroeder, 2014-04-23 One of the most pressing concerns for contemporary society is the issue of violence and the factors that promote it In *Altared Ground* Levinas History and Violence Brian Schroeder stages an engagement between Emmanuel Levinas one of the leading figures in 20th century Continental philosophy and Plato Hegel Heidegger Nietzsche Merleau Ponty Derrida and others in the history of ideas Not merely an exposition of Levinas original and complex thinking Brian Schroeder seeks to re read the history of Western philosophy and religion by going beyond Levinas alternatives to traditional theories of the self in order to suggest a notion of subjectivity that is not grounded in violence **Beyond**

Superlatives Roland Faber, J. R. Hustwit, Hollis Phelps, 2014-04-23 This collection of essays drawn from the latest generation of Whitehead scholars explores how in the deconstruction of certain concepts an unceasing invitation of possibility and change is released both in relation to ongoing philosophical conversations and as applied to lived experience The essays make a significant intervention in the field of Whiteheadian scholarship by creating new intersections and paths that extend Whitehead's thought in novel and often unexpected directions The philosophy of Alfred North Whitehead proposes a radical reconceptualization of experience one in which we and all other things are composed of mutually implicated series of events in an infinite universe of interaction generating and regenerating experience Far from indicating a new superlative of holistic integrity Whitehead prefers the always incomplete movement of all realities which is the source of vitality for every new generation This volume applies Whitehead's philosophy to superlatives those valued concepts that limit and define our categories amid the flux of experience The first half of this book probes the superlatives that have historically defined philosophical method in the West These essays trace the adventures of concepts like substance novelty system and truth Ossified oppositions that define these superlatives are fractured indicating new directions for growth The essays in the second half of the book reflect on the influx fragility and impossibility of superlatives like care tragedy love and loss in human experience generating new matters of philosophical discourse Superlatives abound But Whitehead cautions us to attend to their multiplicity The mutual immanence of events constantly generates new constellations of importance and so superlatives because they are contingent upon unstable modes of togetherness cannot be taken for granted Any of these concepts may have a particular significance today but as events coalesce into new constellations those ideals will continue to take on new meaning Handbook of Whiteheadian Process Thought

Michel Weber, 2013-04-30 Gathering 115 entries written by 101 internationally renowned experts in their fields the *Handbook of Whiteheadian Process Thought* aims at canvassing the current state of knowledge in Whiteheadian scholarship and at identifying promising directions for future investigations through internal cross elucidation and external interdisciplinary development Two kinds of entries are weaved together in order to interpret Whitehead *secundum* Whitehead and to read him from the vantage point of interdisciplinary and crossdisciplinary research The thematic entries provide i a broad contextualisation of the issue at stake ii a focus on Whitehead's treatment if any or of a possible Whiteheadian treatment of the issue iii a history of relevant scholarship iv a

personal assessment by the Author The biographical entries provide i a brief vita of the targeted thinker ii a sketch of his/her categories relevant to the Whiteheadian scholarship iii a personal assessment of the actual or possible Whiteheadian semantic transfer to or from the thinker

Hegel Reconsidered H. Tristram Engelhardt Jr., T. Pinkard, 2013-03-09 Much of contemporary philosophy political theory and social thought has been shaped directly or indirectly by Georg Wilhelm Friedrich Hegel though there is considerable disagreement about how his work should be understood He has been described both as a metaphysician and characterized as an ironic narrator who anticipated the character of philosophy after metaphysics His position is equally ambiguous with regard to his political thought He has been construed both as an enemy of the liberal state and as a friend of freedom This volume's revisionist reassessment building on the scholarship of Klaus Hartmann explores these ambiguities in favor of a non metaphysical reading of Hegel's arguments It also shows how the foundations of his political thought support a liberal democratic state This reappraisal of Hegel's arguments resituates him as a philosopher who anticipates the difficulties of post modernity and offers a basis for reassessing ontology aesthetics and revolution Philosophers and those doing work in political theory will find this volume of great interest

Signature of the World Eric Alliez, 2004-12-01 The Signature of the World focuses on one of the most influential works of contemporary philosophy What is Philosophy by Gilles Deleuze and Felix Guattari their last joint work after Anti Oedipus and A Thousand Plateaus It sets What is Philosophy in the context of earlier work by the two thinkers and in a manner sure to challenge and provoke juxtaposes it to the work of both analytic philosophers and continental phenomenologists Alliez explores the distinctive theory of thought put forth by Deleuze Guattari from a series of angles delving into their revolutionary Spinozist treatment of the history of philosophy elucidating their engagement with the metaphysics of current research programmes in the sciences and delineating their invention of a material meta aesthetics capable of responding to the most radical experiments in contemporary art Much recent philosophy has revelled in declaring the end of metaphysics of ontology and sometimes of philosophy itself In sharp contrast The Signature of the World is a forceful reminder of the power of ontology

and the need for a materialist reinvention of metaphysics The Signature of the World is here accompanied by two appendices Deleuze Virtual Philosophy and On the Philosophy of Gilles Deleuze An Introduction to the Matter as well as a preface by Alberto Toscano *God and Nature* Curtis L. Thompson, Joyce M. Cuff, 2012-03-29 Two scholars who embrace contemporary insights from science and religion give shape to a compelling account of God's relation to nature *Process Philosophical Deliberations* Nicholas Rescher, 2013-05-02 Process philosophy has established itself as one of the 20th century's prime contributions to philosophical thought and Nicholas Rescher has for many years figured among its prime exponents His new book *Process Philosophical Deliberations* collects together ten studies illuminating various aspects of this many-sided philosophical approach Among the topics treated are the nature of process philosophy itself as well as its implementation in such areas as epistemology value theory moral philosophy and the philosophy of science **The Divine Manifold** Roland Faber, 2014-07-30 The Divine Manifold is a postmodern enquiry in intersecting themes of the concept and reality of multiplicity in a chaosmos that does not refuse a dimension of theopoetics but rather defines it in terms of divine polyphilia the love of multiplicity In an intricate play on Dante's Divine Comedy this book engages questions of religion and philosophy through the aporetic dynamics of love and power locating its discussions in the midst of and in between the spheres of a genuine philosophy of multiplicity This philosophy originates from the poststructuralist approach of Gilles Deleuze and the process philosophical inspirations of Alfred N Whitehead As their chaosmos invites questions of ultimate reality religious pluralism and multireligious engagement a theopoetics of love will find paradoxical dissociations and harmonizations with postmodern sensitivities of language power knowledge and embodiment At the intersection of poststructuralism's and process theology's insights in the liberating necessity of multiplicity for a postmodern cosmology the book realizes its central claim If there is a divine dimension of the chaosmos it will not be found in any identification with mundane forces or supernatural powers but on the contrary in the absolute difference of polyphilic love from creativity Yet the concurrent indifference of love and power its mystical undecidability in terms of any conceptualization will lead into existential questions of the insistence on multiplicity in a world of infinite becoming as inescapable background for its importance and creativeness formulating an ecological and ethical impulse for a mystagogy of becoming intermezzo German Idealism's Trinitarian Legacy Dale M. Schlitt, 2016-10-20 Dale M Schlitt presents a study of trinitarian thought as it was understood and debated by the German Idealists broadly engaging Schelling's philosophical interpretations of Trinity as well as Hegel's and analyzing how these Idealist interpretations influenced later philosophers and theologians Divided into different sections one considers nineteenth century central Europeans Philipp Marheineke Isaak August Dorner and Vladimir Sergeyevich Solovyov under the rubric testimonials Another section studies twentieth century Germans Karl Barth Karl Rahner and Wolfhart Pannenberg who share family resemblances with the Idealists and a third addresses the work of twentieth and twenty-first century Americans Robert W Jenson Catherine Mowry LaCugna Joseph A Bracken and Schlitt himself whose work

reverberates with what Schlitt terms transatlantic Idealist echoes The book concludes with reflection on the overall German Idealist trinitarian legacy noting several challenges it offers to those who will pursue creative trinitarian reflection in the future
