Hegemonías y emancipaciones en el siglo XXI Ana Esther Ceceña, Emir Sader, 2004 *Hegemonías y emancipaciones en el siglo XXI* Ana Esther Ceceña, Emir Sader, 2004 *Contemporary Left-Wing Activism Vol 2* Joseph Ibrahim, John Roberts, 2018-12-07 Within many societies across the world new social and political movements have sprung up that either challenge formal parliamentary structures of democracy and participation or work within them and in the process fundamentally alter the ideological content of democratic potentials At the same time some parliamentary political parties have attracted a new type of populist political rhetoric and support base This collection along with its accompanying volume 2 examines the emergence of and the connections between these new types of left wing democracy and participation Through an array of examples from different countries it explains why left wing activism arises in new and innovative spaces in society and how this joins up with conventional left wing politics including parliamentary politics It demonstrates how these new forms of politics can resonate with the real life experiences of ordinary people and thereby win support for left wing agendas **Handbook on Critical Political Economy and Public Policy** Christoph Scherrer, Ana Garcia, Joscha Wullweber, 2023-01-20 This comprehensive and stimulating Handbook examines the contribution of political economy to public policy It provides an overview of several strands of critical political economy supported by case studies from OECD countries Latin America South Africa and South and East Asia *Crisis de hegemonía de Estados Unidos*, 2007-05 El grupo de trabajo sobre Estados Unidos de CLACSO privilegió el concepto de hegemonía para tratar de penetrar el grueso tejido que recubre la sociedad de dicho país y descubrir algunas de las causas de su aparente crisis La cual se puede medir desde el punto de vista económico tasa de ganancia y participación global y también desde la perspectiva política control militar global El concepto de hegemonía también se refiere a la capacidad para crear símbolos que atraviesan formaciones El grupo asumió que la crisis de hegemonía es global pero que se deben de analizar también sus efectos al interior de esta formación social Los trabajos que se publican en este volumen abordan la crisis de hegemonía global de ese país así como la aparente pérdida de su legitimidad interna **Globalization and the Decolonial Option** Walter D. Mignolo, Arturo Escobar, 2013-10-18 This is the first book in English profiling the work of a research collective that evolved around the notion of coloniality understood as the hidden agenda and the darker side of modernity and whose members are based in South America and the United States The project called for an understanding of modernity not from modernity itself but from its darker side coloniality and proposes the decolonization of knowledge as an epistemological restitution with political and ethical implications Epistemic decolonization or decoloniality becomes the horizon to imagine and act toward global futures in which the notion of a political enemy is replaced by intercultural communication and towards an other rationality that puts life first and that places institutions at its service rather than the other way around The volume is profoundly interdisciplinary with authors writing from many intellectual transdisciplinary and institutional spaces This book was published as a special issue of

International Management and International Relations Ana Guedes, Alex Faria, 2010-04-23 Over the last few decades the field of management enlarged its boundaries especially in international terms in a very rapid fashion mainly because of the arrival of the so called era of globalization Many renowned scholars have criticized the universal approach given to management in the United States and its subsequent automatic conversion into international management but their arguments too can fall into the trap of universalism at times This book has a more specific concern to challenge the conversion of management into international management from a Latin American perspective This challenge might be taken as a first step toward the construction of a Latin American perspective in International Management and a potential contribution to the development of this field in other parts of the world Drawing upon such critical standpoint several authors in the book converge upon the idea that researchers practitioners and authorities in Latin America should challenge the US dominance in International Management and foster interdisciplinary

developments within International Relations The critical perspective provided in this book challenges the US's narrow viewpoint on management as it clearly does not fit the governance features of international management in Latin America So far we have not observed the constitution of sub areas such as international management of international organizations international management of transnational institutions international management of public private networks international management of public companies and international public administration or international public management all of which would be extremely important in Latin America Negotiating Space in Latin America ,2019-11-04 Winner of the 2020 Outstanding Academic Title Award created by Choice Magazine In *Negotiating Space in Latin America* edited by Patricia Vilches contributors approach spatial practices from multidisciplinary angles Drawing on cultural studies film studies gender studies geography history literary studies sociology tourism and current events the volume advances innovative conceptualizations on spatiality and treats subjects that range from nineteenth century nation formation to twenty first century social movements Latin America has endured multiple spatial transformations which contributors analyze from the perspective of the urban the rural the market and the political body The essays collected here signal how spatial processes constantly shape societal interactions and illuminate the complex relationships between humans and space emphasizing the role of spatiality in our actions and perceptions Contributors Gail A Bulman Ana Mar a Burdach Rudloff James Craine Angela N DeLutis Eichenberger Carolina Di Pr spero Gustavo Fares Jennifer Hayward Silvia Hirsch Edward Jackiewicz Magdalena Maiz Pe a Luc a Melgar Silvia Nagy Zekmi Luis H Pe a Jorge Saavedra Utman Rosa Tapia Juan de Dios Torralbo Caballero Tera Trujillo Patricia Vilches and Gareth Wood **El movimiento neozapatista al inicio de la tercera década del siglo XXI** Ullán de la Rosa, Francisco Javier,2022-06-29 Con paciencia de coleccionista hemos recogido uno a uno los textos de doce investigadores polit logos soci logos antrop logos de siete pa ses Estados Unidos Australia Francia Brasil Colombia Ecuador y por supuesto M xico y trece universidades diferentes entre las que se cuentan en el caso de M xico casi todas las m s prestigiosas Hemos confeccionado un mosaico plural una obra coral que ofrece al lector una visi n compleja poli drica llena de riqueza del movimiento neozapatista en la actualidad Este libro es en toda su humildad un eslab n m s de esa cadena sin fin La obra es el fruto de un concienzudo proceso de compilaci n y edici n trabajo de quien escribe estas l neas que ofrece a la comunidad cient fica y al p blico en general de habla hispana en la comodidad de un solo volumen algunos de los trabajos m s recientes que se han publicado sobre el movimiento neozapatista y que estaban dispersos por diferentes revistas y en diferentes idiomas ingl s franc s portugu s No se trata de una mera reedici n los textos han sido revisados ampliados y actualizados por sus autores en coordinaci n el editor para incluir datos y an lisis nuevos hasta enero de 2021 Es de destacar en ese sentido la inclusi n en cinco de los cap tulos de reflexiones y datos sobre la situaci n y percepci n de la pandemia de la Covid 19 en los Caracoles neozapatistas y de su gesti n por parte de las autoridades de los mismos **Naturaleza americana.
