Heidegger Et La Question Anthropologique:

Heidegger et la question anthropologique Françoise Dastur, 2003 Ce livre rassemble les textes de six conférences faites l'automne 2000 à l'Université de Louvain Il s'agit d'interroger dans l'œuvre de Heidegger certains des textes qui touchent la question du statut qui peut être attribué à l'être humain au sein de la question fondamentale qu'il reconnaît comme celle qui a déterminé en bout en bout son chemin de pensée savoir la question de l'être Ce que dessine ces quelques jalons c'est le pointillisme d'un chemin qui s'éloigne toujours davantage d'une pensée de l'existence de l'homme représentée à partir de la notion de subjectivité Heidegger s'engage ainsi sur la voie d'une toute autre expérience de l'être de l'homme que celle qui commande aujourd'hui les représentations que nous faisons des sphères éthique et politique sans que cependant la rupture qu'il opère avec l'anthropocentrisme qui régit depuis son début la pensée moderne signifie l'abandon pur et simple de la question de l'homme

An Atheism that Is Not Humanist Emerges in French Thought Stefanos Geroulanos, 2010-03-08 French philosophy changed dramatically in the second quarter of the twentieth century In the wake of World War I and later the Nazi and Soviet disasters major philosophers such as Kierkegaard Levinas Heidegger Kierkegaard Sartre Merleau Ponty and Hyppolite argued that man could no longer fill the void left by the death of God without also calling up the worst in human history and denigrating the dignity of the human subject In response they contributed to a new belief that man should no longer be viewed as the basis for existence thought and ethics rather human nature became dependent on other concepts and structures including Being language thought and culture This argument which was to be paramount for existentialism and structuralism came to dominate postwar thought This intellectual history of these developments argues that at their heart lay a new atheism that rejected humanism as insufficient and ultimately violent **Introduction to a Phenomenology of Life** Renaud

Barbaras, 2022-01-04 In *Introduction to a Phenomenology of Life* renowned French philosopher Renaud Barbaras aims to construct the basis for a phenomenology of life Called an introduction because it has to deal with philosophical limits and presuppositions it is much more as Barbaras investigates life in its phenomenological senses approached through the duality of its intransitive and transitive senses Originally published in French *Introduction à une phénoménologie de la vie* *Introduction to a Phenomenology of Life* first defines the problem of life phenomenologically then studies the failures of the phenomenological movement to adequately think about life and finally elaborates a new original and productive approach to the problem Combining original interpretations and expert readings of philosophers such as Heidegger Henry Bergson and Merleau Ponty Barbaras offers a powerful and important contribution to phenomenology and continental thought **French Women Philosophers** Christina Howells, 2013-04-15 This reader is the first of its kind to present the work of leading French women philosophers to an English speaking audience Many of the articles appear for the first time in English and have been specially translated for the collection Christina Howells draws on major areas of philosophical and theoretical debate including Ethics Psychoanalysis Law Politics History Science and Rationality Each section and article is clearly introduced

and situated in its intellectual context The book is necessarily feminist in inspiration but draws on an unusually wide range of thinkers chosen to represent the philosophy of women rather than feminist philosophy It will be ideal for anyone coming to this area for the first time as well as those seeking to extend their understanding of French thought and Continental Philosophy Articles by the following writers are included Francoise Collin Sylviane Agacinski Catherine Chalié Luce Irigaray Francoise Proust Francoise Dastur Barbara Cassin Natalie Deprez Elisabeth de Fontenay Elisabeth Badinter Francoise Heritier Helene Cixous Monique Schneider Julia Kristeva Sarah Kofman Monique David Menard Francoise d'Eaubonne Genevieve Fraisse Michele Le Doeuff Natalie Charraud Francoise Balibar Anne Fagot Largeault Colette Guillaumin Dominique Schnapper Myriam Revault D'Allonnes Nicole Loraux Mireille Delmas Marty Blandine Kriegel *Phenomenology and the Primacy of the Political* Véronique M. Fóti, Pavlos Kontos, 2017-05-11 This volume is a Festschrift in honor of Jacques Taminiaux and examines the primacy of the political within phenomenology These objectives support each other in that Taminiaux's own intellectual itinerary brought him increasingly to an affirmation of the importance of the political Divided into four sections the essays contained in this volume engage with different aspects of the political dimension of phenomenology its dialogue with classic texts of political philosophy the political facets of phenomenological praxis phenomenology's contribution to actual political debates and the impact of Taminiaux's work in the shaping of phenomenology's notion of politics The phrase the primacy of the political echoes the primacy of perception as it was famously defined by Merleau-Ponty This book emphasizes however the inescapability of the political rather than its foundational character i.e. the fact that various itineraries of thought explored in different fields of phenomenological research give rise to politically relevant reflections It points out and elucidates political connotations that haunt phenomenological concepts such as world self nature intersubjectivity or language and traces them to a broad range of approaches concepts and methods In its explorations the book discusses a broad range of thinkers including but not limited to Aristotle and Kant Bergson Husserl Heidegger Merleau-Ponty Gadamer Ricoeur and Arendt The Origins of Responsibility François Raffoul, 2010-04-13 François Raffoul approaches the concept of responsibility in a manner that is distinct from its traditional interpretation as accountability of the willful subject Exploring responsibility in the works of Nietzsche Sartre Levinas Heidegger and Derrida Raffoul identifies decisive moments in the development of the concept retrieves its origins and explores new reflections on it For Raffoul responsibility is less about a sovereign subject establishing a sphere of power and control than about exposure to an event that does not come from us and yet calls to us These original and thoughtful investigations of the post-metaphysical senses of responsibility chart new directions for ethics in the continental tradition *Technofutures, Nature and the Sacred* Celia Deane-Drummond, Sigurd Bergmann, Bronislaw Szerszynski, 2016-03-03 The capacity of human beings to invent construct and use technical artifacts is a hugely consequential factor in the evolution of society and in the entangled relations between humans other creatures and their

natural environments Moving from a critical consideration of theories to narratives about technology and then to particular and specific practices Technofutures Nature and the Sacred seeks to arrive at a genuinely transdisciplinary perspective focusing attention on the intersection between technology religion and society and using insights from the environmental humanities It works from both theoretical and practical contexts by using newly emerging case studies including geo engineering and soil carbon technologies and breaks open new ground by engaging theological scientific philosophical and cultural aspects of the technology religion nature nexus Encouraging us to reflect on the significance and place of religious beliefs in dealing with new technologies and engaging critical theory common in sociological political and literary discourses the authors explore the implicit religious claims embedded in technology **Intrigues** Gabriel Riera, 2006 This book examines the possibility of writing the other and explores whether an ethical writing that preserves the other as such is possible It also discusses what the implications are for an ethically inflected criticism Emmanuel Levinas and Maurice Blanchot whose works constitute the most thorough contemporary exploration of the question of the other and of its relation to writing are Riera's main focus Critics in recent years have discussed an ethical moment or turn characterized by the other's irruption into the order of discourse The other becomes a true crossroads of disciplines since it affects several aspects of discourse the constitution of the subject the status of knowledge the nature of representation and what that representation represses gender power Through close readings of texts by Heidegger Levinas and Blanchot this book examines how the question of the other engages the very limits of philosophy rationality and power **Untimely Beggar** Patrick Greaney, This highly original book takes as its starting point a central question for nineteenth and twentieth century literature and philosophy how to represent the poor Covering the period from the publication of *Les Fleurs du Mal* in 1857 to the composition of Benjamin's final texts in the 1930s *Untimely Beggar* investigates the coincidence of two modern literary and philosophical interests representing the poor and representing potential To take account of literature's relation to the poor Patrick Greaney proposes the concept of impoverished writing which withdraws from representing objects and registers the existence of power By reducing itself to the indication of its own potential by impoverishing itself literary language attempts to engage and participate in the power of the poor This focus on impoverished language offers new perspectives on major French and German authors including Marx Nietzsche Mallarmé Rilke and Brecht and makes significant contributions to recent debates about power and potential in thinkers such as Agamben Deleuze Foucault Hardt and Negri In doing so Greaney offers significant insights into modernity's intense philosophical and literary interest in socioeconomic poverty Patrick Greaney is assistant professor of German studies at the University of Colorado Boulder **La Question anthropologique** Michel Foucault, 2022-06-10T00:00:00+02:00 Qu'est-ce que l'homme Michel Foucault au milieu des années 1950 consacre une partie de son enseignement dispensé à l'université de Lille et à l'école normale supérieure à comprendre comment cette interrogation a traversé et transformé la philosophie Ces leçons sont rassemblées dans un manuscrit dont nous proposons

ici l'édiction complète Foucault déroule son parcours en une dramaturgie impeccable Premier acte montrer pourquoi la philosophie classique Descartes Malebranche Leibniz demeurait sourde cette question Son idéal infini de nature empêche que l'homme puisse nouer un rapport immédiat sa propre vérité Deuxième acte exposer comment après le renversement kantien le point de gravitation de la philosophie moderne de Feuerbach Dilthey en passant par Hegel et Marx devient cet homme vrai qui déploie un monde de significations et de pratiques révélant son essence Troisième acte décrire l'éclatement du dispositif anthropologique chez Nietzsche travers cette pensée dionysiaque qui avec la mort de Dieu proclame l'effacement de l'homme et promet des expériences tragiques de vérité Pour la première et dernière fois on trouve sous la plume foucauldienne une présentation longue précise et percutante de la philosophie de Nietzsche Dans ce cours Foucault lance en même temps des flèches vers son œuvre venir On y discerne déjà l'entreprise critique qui s'annonce en 1966 dans *Les Mots et les Choses* thèse d'une configuration anthropologique de la modernité annonce d'une mort de l'homme après son invention toute récente programme d'une archéologie des sciences humaines Juste avant son départ pour la Suède Foucault surgit la verticale de son propre destin philosophique

Günther Anders' Philosophy of Technology Babette Babich, 2021-10-21 Gunther Anders Philosophy of Technology is the first comprehensive exploration of the ground breaking work of German thinker Gunther Anders Anders philosophy has become increasingly prescient in our digitised technological age as his work predicts the prevalence of social media ubiquitous surveillance and the turn to big data Anders oeuvre also explored the technologies of nuclear power and the biotech concerns for the human and transhuman condition which have become so central to current theory Babette Babich argues that Anders offers important resources on streaming digital media through his writings on radio television and film and is unusually both a comprehensive and profound thinker Anders relationship with key philosophers like Hannah Arendt and Walter Benjamin and his thinking on Goethe Nietzsche and Rilke is also explored with a focus on the deep impact he made on his peers It reflects specifically on the intersection of Anders thought Heidegger and the Frankfurt school and how influential a figure he was on the landscape of 20th century philosophy A compelling rehabilitation of a thinker with profound contemporary relevance

Citizen Subject Étienne Balibar, 2016-11-01 What can the universals of political philosophy offer to those who experience the living paradox of an unequalitarian construction of egalitarian citizenship Citizen Subject is the summation of Étienne Balibar's career long project to think the necessary and necessarily antagonistic relation between the categories of citizen and subject In this magnum opus the question of modernity is framed anew with special attention to the self enunciation of the subject in Descartes Locke Rousseau and Derrida the constitution of the community as we in Hegel Marx and Tolstoy and the aporia of the judgment of self and others in Foucault Freud Kelsen and Blanchot After the humanist controversy that preoccupied twentieth century philosophy Citizen Subject proposes foundations for philosophical anthropology today in terms of two contrary movements the becoming citizen of the subject and the becoming subject of the citizen The citizen subject who is constituted in the claim to a right to have

rights Arendt cannot exist without an underside that contests and defies it He or she because Balibar is concerned throughout this volume with questions of sexual difference figures not only the social relation but also the discontent or the uneasiness at the heart of this relation The human can be instituted only if it betrays itself by upholding anthropological differences that impose normality and identity as conditions of belonging to the community The violence of civil bourgeois universality Balibar argues is greater and less legitimate therefore less stable than that of theological or cosmological universality Right is thus founded on insubordination and emancipation derives its force from otherness Ultimately Citizen Subject offers a revolutionary rewriting of the dialectic of universality and differences in the bourgeois epoch revealing in the relationship between the common and the universal a political gap at the heart of the universal itself **The**

Metamorphosis of Finitude Emmanuel Falque, 2014-05-01 This book starts off from a philosophical premise nobody can be in the world unless they are born into the world It examines this premise in the light of the theological belief that birth serves or ought to serve as a model for understanding what resurrection could signify for us today After all the modern Christian needs to find some way of understanding resurrection and the dogma of the resurrection of the body is vacuous unless we can relate it philosophically to our own world of experience Nicodemus first posed the question How can anyone be born after having grown old Can one enter a second time into the mother's womb and be born This book reads that problem in the context of contemporary philosophy particularly the thought of Husserl Heidegger Sartre Merleau Ponty and Deleuze A phenomenology of the body born from below is seen as a paradigm for a theology of spiritual rebirth and for rebirth of the body from on high The Resurrection changes everything in Christianity but it is also our own bodies that must be transformed in resurrection as Christ is transfigured And the way in which I hope to be resurrected bodily in God in the future depends upon the way in which I live bodily today **Thinking the Event**

François Raffoul, 2020-05-05 The author of The Origins of Responsibility presents a major contribution to philosophical scholarship on the very idea of the event Edward S Casey author of The World on Edge In Thinking the Event continental philosopher François Raffoul explores the question of what constitutes an event as an event not what happens or why it happens but what happening means If it's true that nothing happens without a reason as Leibniz famously posited then does this principle of reason have a reason Bringing together philosophical insights from Martin Heidegger Jacques Derrida Jean Luc Nancy and Jean Luc Marion Raffoul shows how the event in its disruptive unpredictability always exceeds causality subjectivity and reason He then goes on to examine the inappropriability of this pure event and how this inappropriability may inform ethical and political considerations In the wake of the exhaustion of traditional metaphysics the notion of the event comes to the fore with key implications for philosophy ontology ethics and theories of selfhood Raffoul's Thinking the Event is essential reading on this fascinating topic

Reading Merleau-Ponty Thomas Baldwin, 2007-08-07 In this volume leading philosophers examine the nature and extent of Merleau Ponty's achievement in Phenomenology of Perception and related writings *La phénoménologie en*

questions Françoise Dastur, 2004 On sait que depuis la parution des Recherches logiques de Husserl le terme de phenomenologie ne designe plus comme c etait encore le cas chez Hegel une discipline particuliere mais une nouvelle conception de ce que doit etre la philosophie Ce qui a en effet donne a l entreprise husserlienne sa fecondite c est l idee reprise aux anciens que le travail philosophique doit etre mene en commun et exige par consequent le concours de plusieurs penseurs Mais ce qui rassemble ceux ci c est moins l unite d une doctrine et l appartenance a une ecole de pensee que la pratique d une methode De ce mouvement phenomenologique auquel appartiennent tant de philosophes du siecle dernier il n est certes pas question de dresser un inventaire exhaustif Ce que l on se propose simplement ici c est d en donner un apercu qui mette d ailleurs moins l accent sur les noms propres des penseurs que sur les problemes qu ils ont partages Les essais reunis dans ce volume sont en effet tous consacres a un petit nombre de questions fondamentales celles du langage et de la logique du moi et de l autre de la temporalite et de l histoire de la finitude et de la mortalite au sujet desquelles un dialogue a paru se nouer entre certaines des figures les plus eminentes de la nebuleuse phenomenologique Husserl et Heidegger surtout mais aussi Fink Patocka Merleau Ponty et plus pres encore de nous Gadamer Levinas Ricoeur

Handbook of Phenomenological Aesthetics Hans Rainer Sepp, Lester Embree, 2010-03-11 Historically phenomenology began in Edmund Husserl s theory of mathematics and logic went on to focus for him on transcendental philosophy and for others on metaphysics philosophical anthropology and theory of interpretation The continuing focus has thus been on knowledge and being But if one began without those interests and with an understanding of the phenomenological style of approach one might well see that art and aesthetics make up the most natural field to be approached phenomenologically Contributions to this field have continually been made in the phenomenological tradition from very early on but so to speak along the side The situation has been similar with phenomenological ethics A great deal of thought about art and aesthetics has nevertheless accumulated during a century and a handbook like the present one is long overdue The project of this handbook began in conversations over dinner in Sepp s apartment in Baden Baden at one evening of the hot European summer in the year 2003 As things worked out he knew more about whom to ask and how much space to allocate to each entry and Embree knew more about how to conduct the inviting preliminary editing and prodding of contributors who were late returning their criticized drafts and copyedited entries and was able to invest the time and other resources from his endowed chair That process took longer than anticipated and there were additional unfortunate delays due to factors beyond the editors s control

Vers une ontologie indirecte Emmanuel de Saint-Aubert, 2006 L oeuvre philosophique de Merleau Ponty travers ses travaux sur l ontologie Une pensee sur le corps et sur l tre illustrant une perspective heideggerienne

Daseinsanalyse Philippe Cabestan, Françoise Dastur, 2011 Que peuvent bien attendre les psychiatres les psychotherapeutes les psychologues et avant tout leurs patients de la Daseinsanalyse On tentera de repondre a cette question en partant ici du trait distinctif qui fonde la singularite de la Daseinsanalyse inscrire toute reflexion et toute pratique medicale dans le cadre d une meditation

ontologique en direction du mode d'être de l'homme. En effet, une conviction issue de l'œuvre de Heidegger domine la Daseinsanalyse : l'homme n'est pas une chose mais un Dasein, un existant, un être qui est dans son être, ouvert à l'être. Qu'il s'agisse de la mélancolie, de la manie, des troubles obsessionnels compulsifs, de la dépression ou de la schizophrénie, la description de ces pathologies, comme leur traitement, ne sauraient en effet demeurer les mêmes selon que l'on considère celui qui en souffre comme un être neuronal, un composé de forces physico-chimiques, une psyche dominée par des conflits inconscients ou comme un Dasein.

La liberté au principe Émilie Tardivel, 2011. Bien qu'il apparaisse aujourd'hui comme l'une des figures incontournables de la phénoménologie, le philosophe résistant tchèque Jan Patočka (1907-1977) attendait encore une interprétation intégrale de son œuvre. C'est l'ambition de cet essai qui en propose une lecture à la fois historique et systématique, s'appuyant également sur des textes tchèques inédits en français comme *Éternité et historicité* (1947) dont certains extraits sont ici traduits. Cette première tentative explicite la nouvelle possibilité de la phénoménologie qu'avait d'ailleurs entrevue Heidegger au début des années trente, rien d'autre que la liberté désormais enracinée dans le rapport de la vie humaine au monde, un monde et une vie humaine redéfinis comme des mouvements et plus essentiellement comme des événements. Reprenant à nouveaux frais le problème du monde de la vie, Patočka ouvre la voie à une transformation de la phénoménologie de l'existence en phénoménologie de l'événement et plus encore de l'histoire. Cette transformation lui permet de se situer dans l'histoire de la phénoménologie comme d'entrer en dialogue avec ses figures les plus contemporaines.
