Routledge Companion to Children's Literature and Culture presents a comprehensive overview of print digital and electronic texts for children aged zero to thirteen as forms of world literature participating in a panoply of identity formations Offering five distinct sections this volume Familiarizes students and beginning scholars with key concepts and methodological resources guiding contemporary inquiry into children's literature Describes the major media formats and genres for texts expressly addressing children Considers the production distribution and valuing of children's books from an assortment of historical and contemporary perspectives highlighting context as a driver of content Maps how children's texts have historically presumed and prescribed certain identities on the part of their readers sometimes addressing readers who share some part of the author's identity sometimes seeking to educate the reader about a presumed other and in recent decades increasingly foregrounding identities once lacking visibility and voice Explores the historical evolutions and trans regional contacts and inter connections in the long process of the formation of global children's literature highlighting issues such as retranslation transnationalism transculturality and new digital formats for considering cultural crossings and renegotiations in the production of children's literature Methodically presented and contextualized this volume is an engaging introduction to this expanding and multifaceted field *Comparative Children's Literature* Emer O'Sullivan,2005-03-05 WINNER OF THE 2007 CHLA BOOK AWARD Children's literature has transcended linguistic and cultural borders since books and magazines for young readers were first produced with popular books translated throughout the world Emer O Sullivan traces the history of comparative children's literature studies from the enthusiastic internationalism of the post war period which set out from the idea of a supra national world republic of childhood to modern comparative criticism Drawing on the scholarship and children's literature of many cultures and languages she outlines the constituent areas that structure the field including contact and transfer studies intertextuality studies intermediality studies and image studies In doing so she provides the first comprehensive overview of this exciting new research area Comparative Children's Literature also links the fields of narratology and translation studies to develop an original and highly valuable communicative model of translation Taking in issues of children's classics the canon and world literature for children Comparative Children's Literature reveals that this branch of literature is not as genuinely international as it is often fondly assumed to be and is essential reading for those interested in the consequences of globalization on children's literature and culture **The Publishers Weekly** ,1921

City Year Book for the City of New Haven ... New Haven (Conn.),1914 **Picturing the Wolf in Children's Literature** Debra Mitts-Smith,2012-12-06 From the villainous beast of Little Red Riding Hood and The Three Little Pigs to the nurturing wolves of Romulus and Remus and Rudyard Kipling's The Jungle Book the wolf has long been a part of the landscape of children's literature Meanwhile since the 1960s and the popularization of scientific research on these animals children's books have begun to feature more nuanced views In Picturing the Wolf in Children's Literature Mitts Smith analyzes visual images of the wolf in children's books published in Western Europe and North America from 1500 to the

present In particular she considers how wolves are depicted in and across particular works the values and attitudes that inform these depictions and how the concept of the wolf has changed over time What she discovers is that illustrations and photos in works for children impart social cultural and scientific information not only about wolves but also about humans and human behavior First encountered in childhood picture books act as a training ground where the young learn both how to decode the symbolic wolf across various contexts and how to make sense of real wolves Mitts Smith studies sources including myths legends fables folk and fairy tales fractured tales fictional stories and nonfiction highlighting those instances in which images play a major role including illustrated anthologies chapbooks picture books and informational books This book will be of interest to children s literature scholars as well as those interested in the figure of the wolf and how it has been informed over time
