Dreamlife Rufus Goodwin, 2004-06 Where do dreams come from By what light do we see them What lights a dream Dream theorists have been more interested in the content and implications of dreams or when more scientifically inclined their physiology They have rarely considered the light perhaps fearing where the search might lead Rufus Goodwin however advances courageously where angels fear to tread With subtle intelligence persistence and wit Goodwin pursues his question in short lucid chapters through thickets of competing theories He takes an evenhanded approach consulting those who work in dream laboratories poets and writers and those dreamers who like himself and us have pondered dreams and their meaning in life In the end he arrives at the concept of dreamlight as a bridge between body and mind This light however is not what it seems and has nothing to do with the brain's electrical activity Rather it is living light a transpersonal element in our lives that says much about the nature and possibility of human consciousness Rufus Goodwin will change and deepen your understanding of consciousness and dreams

Tarot Awareness Stephen Walter Sterling, 2000 Have you ever looked at the mysterious symbols on the Tarot cards and wondered what they meant Or perhaps you have read the Tarot for others for many years but still don t understand how to use them for meditation and spiritual development Or perhaps you use the intense imagery of the Tarot for meditation but don t think it is appropriate to use this mystical tool for readings Well now you can learn the meaning of the symbols for spiritual development and for giving great readings in Stephen Walter Sterling s Tarot Awareness The Tarot is composed of two major sections the illustrated cards that form the Major Arcana and the cards of the Minor Arcana which are like a deck of playing cards with an extra court card for each suit Each card has a meaning for a reading The meanings of the cards are given in the text The Major Arcana cards also are about the spiritual development of your consciousness As you go through the cards from zero to twenty one you follow the progression of yours spirituality The fifty six cards of the Minor Arcana are associated with your development from the spiritual to the physical In fact they deal with the four levels of progression to manifestation the spiritual emotional mental and physical Put this all together and for the first time you have a book which integrates spiritual and practical meditative and divinatory One of the great things about the Tarot is that it s symbolic Since the unconscious works through symbols it speaks to you Just working with the Tarot helps you to evolve especially when you understand the Tarot s spiritual truths In order to work with the cards the book shares five different readings you can do As an added bonus the book also deals with the difficult subject of proximity relating the cards in a spread to each other as opposed to just their positions in the spread This can enhance your

readings on your quest for spirituality
