F. Andrews's Lost Heirs of the Medieval Crown Everest Media,2022-03-25T22:59:00Z Please note This is a companion version as Robert neared his native Norman soil the news reached him that the king of England was dead and that he had been beaten to the crown by a younger brother 2 Robert was a very different man from his father They had one physical similarity in that they both had William s burly physique and barrel chest but Robert inherited his mother s lack of height He was given the nickname Curthose in his youth an epithet that stuck for the rest of his life 3 Robert the son of William the Conqueror was duke of Normandy He had spent his youth fighting for the duchy and he was not inclined to let the reins of power slip from his own grasp He was welcomed both in Flanders and at the court of Philip I of France 4 The union between England and Normandy had been created by William the Conqueror who had married Robert s aunt but Robert felt aggrieved that he had not been given the greater title Rufus having inherited his father s kingdom and his bellicose temperament did not see why he should not have Normandy as well as England **Cameos from English history.
