## **Helen Creighton:**

*Helen Creighton* Helen Creighton, 1975      **The Best of Helen Creighton** Helen Creighton, 1988      **Quest of the Folk** Ian McKay, 2009-05 Debunking the myth of Nova Scotians as simple folk      *The Ballad Collectors of North America* Scott B. Spencer, 2012 Much has been written about the songs gathered in North America in the first half of the 20th century. However, there is scant information on those individuals responsible for gathering these songs. *The Ballad Collectors of North America: How Gathering Folksongs Transformed Academic Thought and American Identity* fills this gap, documenting the efforts of those who transcribed and recorded North American folk songs. Both biographical and topical, this book chronicles not only the most influential of these song catchers but also examines the main schools of thought on the collection process, the leading proponents of those schools, and the projects that they shaped. Contributors also consider the role of technology, especially the phonograph, in the collection efforts. Chapters organized by region cover such areas as Appalachia, the West, and Canada, while others devoted to specialized topics range from the cowboy tune and occupational song to the commercialization of folk music through song collections and anthologies. *Ballad Collectors* investigates the larger role of the ballad in the development of American identity, from the national appreciation of cowboy songs in popular culture to the use of Appalachian song forms in radio broadcasts to the role of dustbowl ballads in the urban folk revival of the 1950s and 1960s. Finally, this collection assesses the changing role of songs and song texts in the academic fields of folklore, anthropology, musicology, and ethnomusicology. Scholars and students of American cultural and social history, as well as fans of North American folk and popular music, will find *The Ballad Collectors of North America* a fascinating story of how the American folk tradition gained greater visibility, fueling the revolutions that would follow in the writing and performance of American music.      THE BEST OF HELEN CREIGHTON. SEL. & INTRO. BY ROSEMARY BAUCHMAN. Helen Creighton, 1988      *Helen Creighton* Clary Croft, 1999 Helen Creighton made a remarkable contribution towards retrieving the stories, songs, and legends that have shaped the culture and the people of the Maritimes. Written by her protégé Clary Croft, this biography offers both a portrait of a woman woven into the fabric of Canadian folklore and a glimpse into the social mores of her time.      *Quest of the Folk, CLS Edition* Ian McKay, 2009-05-01 The popular conception of Nova Scotians as a pure, simple, idyllic people is false, argues Ian McKay. In *The Quest of the Folk*, he shows how the province's tourism industry and cultural producers manipulated and refashioned the cultural identity of the region and its people to project traditional folk values. McKay offers an in-depth analysis of the infusion of a folk ideology into the art and literature of the region and the use of the idea of the Simple Life in tourism promotion. He examines how Nova Scotia's cultural history was rewritten to erase evidence of an urban capitalist society, class, and ethnic differences, and women's emancipation. In doing so, he sheds new light on the roles of Helen Creighton, the Maritime region's most famous folklorist, and Mary Black, an influential handicrafts revivalist, in creating this false identity.      **Notes and Sources for Folk Songs of the Catskills** Norman Cazden, Herbert

**Singing the Gospel along Scotland's North-East Coast, 1859-2009** Frances Wilkins, 2018-01-17 Following three years of ethnomusicological fieldwork on the sacred singing traditions of evangelical Christians in North East Scotland and Northern Isles coastal communities Frances Wilkins documents and analyses current singing practices in this book by placing them historically and contemporaneously within their respective faith communities In ascertaining who the singers were and why when where how and what they chose to sing the study explores a number of related questions How has sacred singing contributed to the establishment and reinforcement of individual and group identities both in the church and wider community What is the process by which specific regional repertoires and styles develop Which organisations and venues have been particularly conducive to the development of sacred singing in the community How does the subject matter of songs relate to the immediate environment of coastal inhabitants How and why has gospel singing in coastal communities changed These questions are answered with comprehensive reference to interview material fieldnotes videography and audio field recordings As one of the first pieces of ethnomusicological research into sacred music performance in Scotland this ethnography draws important parallels between practices in the North East and elsewhere in the British Isles and across the globe

**Rockefeller, Carnegie, and Canada** Jeffrey David Brison, 2005 In the first half of the twentieth century the Rockefeller Foundation and the Carnegie Corporation helped to create and maintain a cultural and intellectual infrastructure in Canada that benefited key institutions such as University of Toronto McGill University the National Gallery the Humanities Research Council of Canada and the Canadian Social Science Research Council Jeffrey Brison documents how American philanthropy facilitated the transformation from a private localized system of cultural intellectual and academic patronage to a complex nation based system of incorporated patronage a system in which the major patron was the federal state His study calls into question our essentialistic notions of contrasting national identities and the now mythologized juxtaposition of an American culture fuelled by the free market with a Canadian one sustained by state support

**The North American Folk Music Revival: Nation and Identity in the United States and Canada, 1945-1980** Gillian Mitchell,2016-02-17 This work represents the first comparative study of the folk revival movement in Anglophone Canada and the United States and combines this with discussion of the way folk music intersected with and was structured by conceptions of national affinity and national identity Based on original archival research carried out principally in Toronto Washington and Ottawa it is a thematic rather than general study of the movement which has been influenced by various academic disciplines including history musicology and folklore Dr Gillian Mitchell begins with an introduction that provides vital context for the subject by tracing the development of the idea of the folk folklore and folk music since the nineteenth century and how that idea has been applied in the North American context before going on to examine links forged by folksong collectors artists and musicians between folk music and national identity during the early twentieth century With the boom of the revival in the early sixties came the ways in which the movement in both countries proudly promoted a vision of nation that was inclusive pluralistic and eclectic It was a vision which proved compatible with both Canada and America enabling both countries to explore a diversity of music without exclusiveness or narrowness of focus It was also closely linked to the idealism of the grassroots political movements of the early 1960s such as integrationist civil rights and the early student movement After 1965 this inclusive vision of nation in folk music began to wane While the celebrations of the Centennial in Canada led to a re emphasis on the Canadianness of Canadian folk music the turbulent events in the United States led many ex revivalists to turn away from politics and embrace new identities as introspective singer songwriters Many of those who remained interested in traditional folk music styles such as Celtic or Klezmer music tended to be very insular and conservative in their approach rather than linking their chosen genre to a wider world of folk music however more recent attempts at fusion or world music suggest a return to the eclectic spirit of the 1960s folk revival Thus from 1945 to 1980 folk music in Canada and America experienced an evolving and complex

relationship with the concepts of nation and national identity Students will find the book useful as an introduction not only to key themes in the folk revival but also to concepts in the study of national identity and to topics in American and Canadian cultural history Academic specialists will encounter an alternative perspective from the more general broad approach offered by earlier histories of the folk revival movement *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), **Travellers' Songs from England and Scotland** Ewan MacColl, Peggy Seeger, 2015-12-22 Originally published in 1977 The Travellers from those living in bow tents and horse drawn caravans to those dwelling in motor caravans and permanent homes are an important source of traditional music Their society means that songs that have died out in more settled communities are preserved among them Ewan MacColl and Peggy Seeger widely known as two of the founding singers of the British and American folk revivals here display a vast fund of folklore scholarship around the songs of British travelling people Resulting from extensive collecting in southern and southeastern England and central and northeastern Scotland in the 1960s and 70s this book contains 130 songs with music and comprehensive notes relating them to folkloristic and historical points of interest It includes traditional ballads and ballads of broadside origin bawdy tragic and humorous songs about love work and death Most are in English or in Scots dialect with four in Anglo Romani
