Helena Augusta:

Helena Augusta Jan Willem Drijvers, 1991-10-01 This study on Flavia Julia Helena Augusta mother of Constantine the Great is divided into two parts The purpose of the first part is to ascertain the facts of Helena's life on the basis of reliable historical sources The second part deals with the legends concerning the discovery of the True Cross in Jerusalem by Helena Fact and fiction which are so often confused in the secondary literature are carefully distinguished The first part deals with subjects like Helena's life before the reign of Constantine her residences in Trier and Rome her conversion her position at the court of Constantine and her pilgrimage to the Holy Land The second part investigates the origin development and function of the legends of the discovery of the True Cross which were developed in the 4th and 5th centuries the Helena legend the Syriac Protonike legend and the Judas Cyriacus legend An appendix deals with the portraits of Helena Helena Augusta Julia Hillner, 2023 In the middle of the third century a girl was born on the north eastern frontier of the Roman empire Eighty years later she died as Flavia Iulia Helena Augusta of the Roman world and mother of the first Christian emperor Constantine without ever having been married to an emperor herself In *Helena Augusta Mother of the Empire* Julia Hillner traces Helena's story through her life's peaks which generated beautiful imperial artwork entertaining legends as well as literary outrage But Helena Augusta also pays careful attention to the disruptions in Helena's life course and in her commemoration disruptions that were created by her nearest male relatives Hillner shows that Helena's story was not just determined by the love of a son or the rise of Christianity It was also like that of many other late Roman women defined by male violence and by the web of changing female relationships around her to which Helena was sometimes marginal sometimes central and sometimes ancillary Helena Augusta offers unique insight into the roles of imperial women in Constantinian self display and in dynastic politics from the Tetrarchy to the Theodosian Age and it also reminds us that the late Roman female life course even that of an empress was fragile and non linear Christian Women in the Patristic World Lynn H. Questions of Gender in Byzantine Society Lynda Garland, 2016-05-23 Gender was a key social indicator in Byzantine society as in many others While studies of gender in the western medieval period have appeared regularly in the past decade similar studies of Byzantium have lagged behind Masculine and feminine roles were not always as clearly defined as in the West while eunuchs made up a third gender in the imperial court Social status indicators were also in a state of flux as much linked to patronage networks as to wealth as the Empire came under a series of external and internal pressures This fluidity applied equally in ecclesiastical and secular spheres The present collection of essays uncovers gender roles in the imperial family in monastic institutions of both genders in the Orthodox church and in the nascent cult of Mary in the east It puts the spotlight on flashpoints over a millennium of Byzantine rule from Constantine the Great to Irene and the Palaiologoi and covers a wide geographical range from Byzantine Italy to Syria The introduction frames the following nine chapters against recent scholarship and considers methodological issues in the study of gender and Byzantine society Together these essays portray a surprising range of male and female experience in various Byzantine social institutions whether religious military or imperial over the course of more than a millennium The collection offers a provocative contrast to recent studies based on western medieval scholarship Common themes that bind the collection into a coherent whole include specifically Byzantine expectations of gender among the social elite the fluidity of social and sexual identities for Byzantine men and women within the church and the specific challenges that strong individuals posed to the traditional limitations of gender within a hierarchical society dominated by Christian orthodoxy *Routledge Encyclopedia of Ancient Mediterranean Religions* Eric Orlin, 2015-11-19 The Routledge Encyclopedia of Ancient Mediterranean Religions is the first comprehensive single volume reference work offering authoritative coverage of ancient religions in the Mediterranean world Chronologically the volume's scope extends from pre historical antiquity in the third millennium B C E through the rise of Islam in the seventh century C E An interdisciplinary approach draws out the common issues and elements between and among religious traditions in the Mediterranean basin Key features of the volume include Detailed maps of the Mediterranean World ancient Egypt the Roman Empire and the Hellenistic World A comprehensive timeline of major events innovations and individuals divided by region to provide both a diachronic and pan Mediterranean synchronic view A broad geographical range including western Asia

northern Africa and southern Europe This encyclopedia will serve as a key point of reference for all students and scholars interested in ancient Mediterranean culture and society **The Sons of Constantine, AD 337-361** Nicholas

Baker-Brian, Shaun Tougher, 2020-05-30 This edited collection focuses on the Roman empire during the period from AD 337 to 361 During this period the empire was ruled by three brothers Constantine II 337 340 Constans I 337 350 and Constantius II 337 361 These emperors tend to be cast into shadow by their famous father Constantine the first Christian Roman emperor 306 337 and their famous cousin Julian the last pagan Roman emperor 361 363 The traditional concentration on the historically renowned figures of Constantine and Julian is understandable but comes at a significant price the neglect of the period between the death of Constantine and the reign of Julian and of the rulers who governed the empire in this period The reigns of the sons of Constantine especially that of the longest lived Constantius II mark a moment of great historical significance As the heirs of Constantine they became the guardians of his legacy and they oversaw the nature of the world in which Julian was to grow up The thirteen contributors to this volume assess their influence on imperial administrative cultural and religious facets of the empire in the fourth century A Historical Guide to Roman York Paul

Chrystal, 2021-12-30 Considering that York was always an important Roman city there are few books available that are devoted specifically to the Roman occupation even though it lasted for over 300 years and played a significant role in the politics and military activity of Roman Britain and the Roman Empire throughout that period The few books that there are tend to describe the Roman era and its events in date by date order with little attention paid either to why things happened as they did or to the consequences of these actions and developments This book is different in that it gives context to what happened here in the light of developments in Roman Britain generally and in the wider Roman Empire the author digs below the surface and gets behind the scenes to shed light on the political social and military history of Roman York Eboracum explaining for example why Julius Caesar invaded what indeed was really behind the Claudian invasion why was York developed as a military fortress why as one of Roman Britain's capitals Why did the emperors Hadrian and Severus visit the fortress You will also discover how and why Constantine accepted and projected Christianity from here York's role in the endless coups and revolts besetting the province the headless gladiators and wonderful mosaics discovered here and why the Romans finally left York and Roman Britain to its own defence These intriguing historical events are brought to life by reference to the latest local archaeological and epigraphical evidence to current research and to evolving theories relating to the city's Roman treasures of which can be seen in the Yorkshire Museum in York or in situ *City of Caesar, City of God*

Konstantin M. Klein, Johannes Wienand, 2022-12-05 When Emperor Constantine triggered the rise of a Christian state he opened a new chapter in the history of Constantinople and Jerusalem In the centuries that followed the two cities were formed and transformed into powerful symbols of Empire and Church For the first time this book investigates the increasingly dense and complex net of reciprocal dependencies between the imperial center and the navel of the Christian

world Imperial influence initiatives by the Church and projects of individuals turned Constantinople and Jerusalem into important realms of identification and spaces of representation Distinguished international scholars investigate this fascinating development focusing on aspects of art ceremony religion ideology and imperial rule In enriching our understanding of the entangled history of Constantinople and Jerusalem in Late Antiquity City of Caesar City of God illuminates the transition between Antiquity Byzantium and the Middle Ages *Mulieres suadentes - Persuasive Women* Martin Homza,2017-03-06 In *Mulieres suadentes Persuasive Women* Martin Homza scrutinises the genesis of ruler ideology among the most prominent East Central and Eastern European dynasties from the early and later Middle Ages At the center of attention are the P emyslids the Piasts the Rurikids and the rp ds but also the main dynasties of the Balkans namely the Trpimirovi and the Nemanji dynasties as well as the House of Bogdan and the Moldova dynasty of the Mu atins Unlike previous work which has focused on narrative sources of male ruler hagiography Homza studies texts concerning female royal figures More broadly this book also attempts to bridge the artificial gap between West and East in Europe **The 'Lost Arian History' in Late Antique and Medieval Historiography** Joseph J. Reidy,2024-05-10 This book explores the writing of church history during the early Byzantine period reconsidering the evidence for the nature and authorship of a hypothetical Arian source for many surviving medieval histories of the fourth century It considers surviving ecclesiastical histories written between the fifth and early thirteenth centuries to draw out commonalities apparently owed to this lost source and discusses attempts by modern historians to reconstruct it In doing so it convincingly argues that this Arian material likely belongs not to one work but three two chronicles and a martyrology This book therefore provides a vital reassessment of fourth century Christian historiography as well as important insights on chronicle writing in the Middle Ages Type and Archetype in Late Antique and Byzantine Art and Architecture ,2023-02-13 This book addresses typology of Late Antique and Byzantine art and architecture in eight wide ranging contributions from an international group of scholars A dialogue between type and its ultimate source archetype surpasses issues of formalism and conventional chronological narratives to suggest a more nuanced approach to typology as a systematic and systemic classification of types in the visual landscape of the pagans Jews and Christians Set against the contemporaneous cultural context select examples of Mediterranean material culture confirm the great importance of type and archetype constructs for theoretical discourse on architecture and visual arts Contributors are Anna Adashinskaya Jelena An elkovi Gra ar Jelena Bogdanovi edomila Marinkovi Marina Mihaljevi Ljubomir Milanovi Cecilia Olovsson and Ida Sinkevi Constantine and the Christian Empire Charles Odahl,2010-07-02 Drawing on over a quarter of a century of the author s research and experience this book focuses on the man and his life for scholars students and those interested in Roman imperial early Christian and Byzantine imperial history It is illustrated with ninety two photographs and eight maps **Mosaics, Empresses and Other Things in Byzantium** Liz James,2024-08-01 This volume consists of 15 articles published between 1991 and 2018 It falls into three sections reflecting

different areas of Liz James's interests. The first section deals with light and colour and mosaics: four articles considering light and colour in mosaics and the making of mosaics as well as the question of what it means to define mosaics as Byzantine are reprinted. The second brings together four pieces on empresses: their relationships with female personifications and the Mother of God, their roles in founding and refounding buildings and their employment as ciphers by some authors. Finally, seven papers cover a range of topics: what monumental images of saints in churches might have been for, what the differences between relics and icons might have been, how captions to images can be misleading, why touch was an important sense, how words can sometimes just be decorative rather than for reading, why the materiality of objects makes a difference. There is also a brief section of additional notes and comments which add to, update and reflect on each piece. Now in 2024, *Mosaics, Empresses and Other Things in Byzantium* will be of interest to scholars and students alike interested in material culture, the depiction of regal women and the use of relics and icons in the Byzantine Empire.
