**Hellenism and Hebraism in Egypt Under the Ptolemies** S. Rappoport, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work *History of Egypt, Chaldea, Syria, Babylonia, and Assyria* Gaston Maspero, 1904 **History of Egypt, Chaldea, Syria, Babylonia, and Assyria: History of Egypt from 330 B.C. to the present time**, 1904 *History of Egypt from 330 B.C. to the Present Time* Angelo Solomon Rappoport, 1904 **History of Egypt From 330 B.C. To the Present Time, Volume (10 of 12)** Angelo Solomon Rappoport, 2020-09-28 When Alexander the Great bridged the gulf dividing Occident and Orient the Greeks had attained to a state of maturity in the development of their national art and literature Greek culture and civilisation passing beyond the boundaries of their national domain crossed this bridge and spread over the Asiatic world To perpetuate his name the great Macedonian king founded a city and selected for this purpose with extraordinary prescience a spot on the banks of the Nile which on account of its geographical position was destined to become a centre not only of international commerce and an entrep t between Asia and Europe but also a centre of intellectual culture The policy of Alexander to remove the barriers between the Greeks and the Asiatics and to pave the way for the union of the races of his vast empire was continued by the Lagid dynasty in Egypt With her independence and native dynasties Egypt had also lost her political strength and unity she retained however her ancient institutions her customs and religious system The sway of Persian dominion had passed over her without overthrowing this huge rock of sacerdotal power which deeply rooted with many ramifications seemed to mock the wave of time Out of the ruins of political independence still towered the monuments of civilisation of a mighty past which gave to this country moral independence and prevented the obliteration of nationality It would have mattered very little in the vast empire of Alexander if one province had a special physiognomy It was different however with the Lagid their power was concentrated in Egypt and they were therefore compelled to obliterate the separation existing between the conquering and the conquered races and fuse them if possible into one A great obstacle which confronted the Macedonian rulers in Egypt was the religion of the country The interest and the policy of the Lagid demanded the removal of this obstacle not by force but by diplomacy Greek gods were therefore identified with Egyptian Phtah became Heph stos Thot Hermes Ra Helios Amon Zeus and in consequence of a dream which commanded him to offer adoration to a foreign god Ptolemy Soter created a new Greek god who was of Egyptian origin Osiris at that period was the great god of Egypt Memphis was the religious centre of the cult of Apis the representative of Osiris and who when living was called Apis Osiris and when dead Osiris Apis Cambyses had killed the god or his representative it was a bad move Alexander made sacrifices to him Ptolemy Soter did more He endeavoured to persuade the Egyptians that

Osirapi or Osiris Apis was also sacred to the Greeks and to identify him with some Greek divinity There was a Greek deity known as Serapis identified with Pluton the god of Hades Serapis by a clever manouvre a coup de religion was identified with Osiris Apis The lingual similarity and the fact that Osirapi was the god of the Egyptian Hades made the identification acceptable

**History of Egypt, Chald<sup>3</sup>/<sub>4</sub>a, Syria, Babylonia, and Assyria (Complete)** Gaston Maspero, Professor Maspero does not need to be introduced to us His name is well known in England and America as that of one of the chief masters of Egyptian science as well as of ancient Oriental history and archaeology Alike as a philologist a historian and an archaeologist he occupies a foremost place in the annals of modern knowledge and research He possesses that quick apprehension and fertility of resource without which the decipherment of ancient texts is impossible and he also possesses a sympathy with the past and a power of realizing it which are indispensable if we would picture it aright His intimate acquaintance with Egypt and its literature and the opportunities of discovery afforded him by his position for several years as director of the Bulaq Museum give him an unique claim to speak with authority on the history of the valley of the Nile In the present work he has been prodigal of his abundant stores of learning and knowledge and it may therefore be regarded as the most complete account of ancient Egypt that has ever yet been published In the case of Babylonia and Assyria he no longer it is true speaks at first hand But he has thoroughly studied the latest and best authorities on the subject and has weighed their statements with the judgment which comes from an exhaustive acquaintance with a similar department of knowledge Naturally in progressive studies like those of Egyptology and Assyriology a good many theories and conclusions must be tentative and provisional only Discovery crowds so quickly on discovery that the truth of to day is often apt to be modified or amplified by the truth of to morrow A single fresh fact may throw a wholly new and unexpected light upon the results we have already gained and cause them to assume a somewhat changed aspect But this is what must happen in all sciences in which there is a healthy growth and archaeological science is no exception to the rule The spelling of ancient Egyptian proper names adopted by Professor Maspero will perhaps seem strange to many But it must be remembered that all our attempts to represent the pronunciation of ancient Egyptian words can be approximate only we can never ascertain with certainty how they were actually sounded All that can be done is to determine what pronunciation was assigned to them in the Greek period and to work backwards from this so far as it is possible to more remote ages This is what Professor Maspero has done and it must be no slight satisfaction to him to find that on the whole his system of transliteration is confirmed by the cuneiform tablets of Tel el Amarna The difficulties attaching to the spelling of Assyrian names are different from those which beset our attempts to reproduce even approximately the names of ancient Egypt The cuneiform system of writing was syllabic each character denoting a syllable so that we know what were the vowels in a proper name as well as the consonants Moreover the pronunciation of the consonants resembled that of the Hebrew consonants the transliteration of which has long since become conventional When therefore an Assyrian or Babylonian name is written phonetically its correct transliteration

is not often a matter of question But unfortunately the names are not always written phonetically The cuneiform script was an inheritance from the non Semitic predecessors of the Semites in Babylonia and in this script the characters represented words as well as sounds Not unfrequently the Semitic Assyrians continued to write a name in the old Sumerian way instead of spelling it phonetically the result being that we do not know how it was pronounced in their own language The name of the Chaldean Noab for instance is written with two characters which ideographically signify the sun or day of life and of the first of which the Sumerian values were ut babar khis tarn and par while the second had the value of zi Were it not that the Chaldean historian Berosus writes the name Xisuthros we should have no clue to its Semitic pronunciation *A Curriculum for*

Bedoyere,2024-09-10 A compelling history of the Ptolemies the decline of Egypt and the rising power of the Roman Empire

The Ptolemaic era Egypt's last and one of its longest dynasties was in many ways a gilded age Its early rulers restored and even expanded Egyptian power Over a span of 300 years the period was witness to intellectual enlightenment imaginative state building and some of the most memorable characters in ancient history including Alexander the Great and Cleopatra VII But these Macedonian Greek pharaohs embarked on ruinous warfare faced rebellion and descended into murderous family feuds Increasingly reliant on the dizzying rise of Roman power Ptolemaic Egypt was finally annexed by Augustus in 30 BCE How did such an ancient civilization come to this Exploring the lives of the Ptolemaic pharaohs de la Bedoyere reveals the jealousy greed and murderous ambition in their Egypt and the legendary city of Alexandria their capital This is a lively accessible account of Ancient Egypt's last days and of the new power rising in its place *The Abingdon Bible Commentary*

**Israel in Europe** G.F. Abbott,2022-10-30 First published in 1907 and this edition in 1971 with a preface by C C Arsonfeld Israel in Europe outlines the fortunes of the Jews of the Diaspora from the earliest times until the twentieth century It is indeed no exaggeration to say that the Jews have been in Europe for a longer period than some of the nations which glory in the title European And yet despite the length of their sojourn among the peoples of the West the majority of Jews have remained in many essential respects as Oriental as they were in the time of the Patriarchs This penetrating study source material for research into world Jewry the history of anti semitism and the consequent ideas of Zionism is an indispensable reference work for proper understanding of this significant Jewish problem and of the historical roots of the present state of Israel
