Hellenistic World New Perspectives:

The Hellenistic World Daniel Ogden, 2002-12-31 The history of the Hellenistic world has long been more popular than has widely been realized. This volume seeks to contribute to that popularity. Here are fourteen new perspectives on the period from a distinguished and international group of scholars. Their varied papers are grouped together around five themes: Structure and System, King and Court, Family and Kinship, Landscape and People, Art and Image. The book is conceived as a sister volume to CPW's successful *Archaic Greece: New Approaches and New Evidence* edited by Nick Fisher and Hans van Wees, 1998.

New Perspectives in Seleucid History, Archaeology and Numismatics Roland Oetjen, 2019-12-16 Dedicated to Getzel M. Cohen, a leading expert in Seleucid history, this volume gathers 45 contributions on Seleucid history, archaeology, numismatics, political relations, policy toward the Jews, Greek cities, non-Greek populations, peripheral and neighboring regions, imperial administration, economy and public finances, and ancient descriptions of the Seleucid Empire. The reader will gain an international perspective on current research.

New Perspectives on Healing, Restoration and Reconciliation in John's Gospel Jacobus Kok, 2016-10-05 In *New Perspectives on Healing, Restoration and Reconciliation in John*, Jacobus Kok investigates the depth and applicability of Jesus' healing narratives in John's Gospel. Against the background of an ancient group-oriented worldview, it goes beyond the impasse of most Western approaches to interpreting the Biblical healing narratives to date. He argues that the concept of healing was understood in antiquity as in some parts of Africa in a much broader way than we tend to understand it today. He shows inter alia why the interaction between Jesus and the Samaritan woman could be interpreted as a healing narrative illustrating the ancient interrelationship between healing, restoration, and reconciliation.

New Perspectives on Old Texts Esther G. Chazon, Betsy Halpern-Amaru, Ruth Clements, 2010-05-03 This volume presents new perspectives on the ancient texts discovered at Qumran. The essays offer fresh insights into particular texts and genres by applying methods and constructs drawn from other disciplines to the study of the Dead Sea Scrolls and by exploring new as well as long-standing issues raised by these works. The topics and approaches engaged include group identity, memory, ritual, theory, sectarian sociology, philosophy of education, liturgical anthropology, Jewish law, history of religion, and mysticism. The articles in this volume were originally presented at the Tenth Annual International Orion Symposium sponsored in 2005 by the Orion Center for the Study of the Dead Sea Scrolls and Associated Literature at the Hebrew University of Jerusalem.

Alexander the Great Ian Worthington, 2012-03-12 This exciting new edition includes a selection of the most significant and representative published articles and chapters about Alexander and covers all the main areas of debate and discussion in Alexander scholarship.

Scriptural Vitality Hindy Najman, 2024-12-18 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations. *Scriptural Vitality* challenges the view that the Persian and Hellenistic periods constitute a time of decay, a period of late Judaism languishing between an

original vibrant Judaism and the birth of Christianity Instead Hindy Najman argues that the Second Temple period was one of untethered creativity and poetic imagination of dynamism exemplified through philosophical translation poetic composition and a convergence of ancient Mediterranean cultures that gave birth to hermeneutic innovation Building on Nietzsche's critique of classical philology and drawing on new ways of reading the Dead Sea Scrolls the author carries out a radical rethinking of biblical studies Instead of seeking to reconstruct the original text and to find its original author or at least the original context of its production Najman celebrates textual pluriformity and transformation tracing ways in which texts and meanings proliferated within interpretive communities through new performances and fresh articulations of the past Engaging with thinkers such as Friedrich Schlegel and Peter Szondi whom biblicalists have rarely considered biblical philology is reimagined as the forward moving study of the poetic processes by which Jewish communities re created their past and revitalized their present The Second Temple period emerges as a golden age of creativity whose traces may still be discerned in Judaism and Christianity today

Religion and Society in Ancient Thessaly Maria Mili, 2015 The fertile plains of the ancient Greek region of Thessaly stretch south from the shadow of Mount Olympus Thessaly's numerous small cities were home to some of the richest men in Greece their fabulous wealth counted in innumerable flocks and slaves It had a strict oligarchic government and a reputation for indulgence and witchcraft but also a dominant position between Olympus and Delphi and a claim to some of the greatest Greek heroes such as Achilles himself It can be viewed as both the cradle of many aspects of Greek civilization and as a challenge to the dominant image of ancient Greece as moderate rational and democratic Religion and Society in Ancient Thessaly explores the issues of regionalism in ancient Greek religion and the relationship between religion and society as well as the problem of thinking about these matters through particular bodies of evidence It discusses in depth the importance of citizenship and of other group identities in Thessaly and the relationship between cult activity and political and social organization The volume investigates the Thessalian particularities of the evidence and the role of religion in giving the inhabitants of this land a sense of their identity and place in the wider Greek world as well as the role of Thessaly in the ancients and moderns understanding of Greekness

Aegean Interactions Christy Constantakopoulou, 2017 The third century BC was a particularly troubled period of ancient Greek history when the Aegean sea became the main stage for power struggles between various royal circles and dynasties including the Antigonids and the Ptolemies This volume addresses the history of interaction in the Aegean world during this time by focusing on the island of Delos which housed one of its most important regional sanctuaries It draws on contemporary network theory and approaches to regionalism as well as thorough investigation of the Delian epigraphic and material evidence to explore how and to what degree the islands of the southern Aegean formed active networks of political religious and cultural interaction Four case studies examine different types of networks on and around Delos covering the federal organisation of islands into the so called Islanders League the participation of Delian and other agents in the processes of monumentalisation of the

Delian landscape the network of honours of the Delian community and the social dynamics of dedication through the record of dedicants in the Delian inventories They reveal not only that these kinds of regional interaction in the southern Aegean were pervasive but also that they had a significant impact on the creation of a regional identity one that persisted despite the political changes of the age *A Companion to Ancient Macedonia* Joseph Roisman,Ian Worthington,2010-12-06 The most comprehensive and up to date work available on ancient Macedonian history and material culture A Companion to Ancient Macedonia is an invaluable reference for students and scholars alike Features new specially commissioned essays by leading and up and coming scholars in the field Examines the political military social economic and cultural history of ancient Macedonia from the Archaic period to the end of Roman period and beyond Discusses the importance of art archaeology and architecture All ancient sources are translated in English Each chapter includes bibliographical essays for further reading

up to date synopsis of the field of Greek and Roman Art and Architecture filling a genuine need in the literature Ancient

Alexandria between Egypt and Greece William V. Harris, Giovanni Ruffini, 2021-10-01 As one of the greatest cities of antiquity Alexandria has always been a severe challenge to its historians all the more so because the surviving evidence material and textual is so disparate New archaeological and literary discoveries and the startling diversity of ancient Alexandria so reminiscent of some modern cities add to the interest The present volume contains the papers given at a conference at Columbia University in 2002 which attempted to lay some of the foundations for a new history of Alexandria by considering in particular its position between the traditions and life of Egypt on the one hand and on the other the immigrants who came there from Greece and elsewhere in the wake of the founder Alexander of Macedon Saviour Gods and Soteria in Ancient Greece Theodora Suk Fong Jim, 2022 This book investigates what it meant to be saved and the underlying concept of soteria in ancient Greece It challenges the prevailing assumption that soteria was a predominantly Christian concern and demonstrates instead its centrality and significance in the relationship between the Greeks and their gods A Companion to Greek Rhetoric Ian Worthington, 2010-01-11 This complete guide to ancient Greek rhetoric is exceptional both in its chronological range and the breadth of topics it covers Traces the rise of rhetoric and its uses from Homer to Byzantium Covers wider ranging topics such as rhetoric's relationship to knowledge ethics religion law and emotion Incorporates new material giving us fresh insights into how the Greeks saw and used rhetoric Discusses the idea of rhetoric and examines the status of rhetoric studies present and future All quotations from ancient sources are translated into English **The New Perspective on Paul** James D.G. Dunn, 2008 The New Perspective on Paul By author James D G Dunn published on January 2008 by James D G Dunn 2008 Social Memory among the Literati of Yehud Ehud Ben Zvi, 2019-07-22 Ehud Ben Zvi has been at the forefront of exploring how the study of social memory contributes to our understanding of the intellectual world of the literati of the early Second Temple period and their textual repertoire Many of his studies on the matter and several new relevant works are here collected together providing a very useful resource for furthering research and teaching in this area The essays included here address inter alia prophets as sites of memory kings as sites memory Jerusalem as a site of memory a mnemonic system shaped by two interacting national histories matters of identity and othering as framed and explored via memories mnemonic metanarratives making sense of the past and serving various didactic purposes and their problems memories of past and future events shared by the literati issues of gender constructions and memory memories understood by the group as counterfactual and their importance and in multiple ways how and why shared memories served as a safe playground for exploring multiple central ideological issues within the group and of generative grammars governing systemic preferences and dis preferences for particular memories
