and Theory for Materials Development in L2 Learning Alan Maley, Hitomi Masuhara, Freda Mishan, 2017-03-07 This volume represents a unique addition to the growing body of empirical literature on materials development adopting a reverse approach to the topic. Rather than applying theory to practice, practitioners and researchers from 11 countries reappraise applied linguistics theories through practice. The book also provides evidence for the diversity of materials development around the globe at different levels for different specialities and for different purposes. Each chapter surveys the relevant literature such as task based learning and language and culture, describes a specific research project, reports the results of the project and discusses the implications of these results for the development of materials both in the local context and in general. After each section there are editorial comments highlighting the issues emerging from the research and there is a conclusion which connects the findings of the various chapters and makes suggestions both for future research and for the principled development of materials for L2 learners. The book will be suitable for teachers, materials developers, academics and students in post graduate courses in applied linguistics, in TEFL/TESOL and in the teaching of other languages as an L2

Genesis Jordan Roberts, 2023-08-23 Jordan is the model Baptist kid following in his parents' footsteps by living the word of Christ. As he nears adolescence, a growing understanding of sin coincides with an undeniable pattern of same-sex attraction. Jordan finds himself the perfect Christian teen grappling with the most abominable of transgressions. After various attempts to suppress his feelings, Jordan comes to grips with being gay, but he finds himself alone, feeling the pain of not being accepted as his true self. Depressed and broken, Jordan ventures to Chicago to build a life and explore his identity. But a war rages within him that pushes him to the edge. In the aftermath of a near tragedy, Jordan knows he must find a new path of healing, and it is one of reconciliation and an understanding that none of us are made in error. *Genesis*, a harrowing memoir by Jordan Roberts, reveals the traumas and trials of being gay within the church and his realization that no one is outside of God's love.

Authenticity and Teacher-Student Motivational Synergy Richard Pinner, 2019-06-14 Despite the common association between authenticity and motivation in language learning, there does not currently exist a single volume exploring these connections. This book looks at the relationship between authenticity and motivation by specifically viewing the process of mutually validating the act of learning as social authentication, which in turn can often lead to positive motivational synergy between students and teachers. The study at the centre of this book uses autoethnography and practitioner research to examine the complex relationship between authenticity and motivation in the foreign language learning classroom. In particular, it traces the links between student and teacher motivation and proposes that authenticity can act as a bridge to connect learners to the classroom environment and engage with the activity of learning. **Windows**
