Translation Today Gunilla M.

Anderman, Margaret Rogers, 2003 This text provides a snapshot of issues reflecting the changing nature of translation studies at the beginning of a new millennium Resulting from discussions between translation theorists from all over the world topics covered include the nature of translation English as a lingua franca public service translation and interpreting assessment and audio visual translation The first part of the work covers a discussion stimulated by Peter Newmark's paper and the second part allows invited colleagues to develop his topics

DESPERTARES Josemanuel tallon, 2025-08-29 *In the Iberian Peninsula and Beyond* Maria Filomena Lopes de Barros, Lúcia Liba Mucznik, José Alberto R. Silva Tavim, 2015-09-18 This book is the result of two scientific encounters hosted by the University of Vora in 2012 with the theme Muslims and Jews in Portugal and the Diaspora Identities and Memories 16th 17th centuries and co-financed by the Foundation for Science and Technology and by FEDER through Eixo I of the Programa Operacional Fatores de Competitividade POFC of QREN COMPETE Beginning with an analysis of the forced conversion of Iberian Jews and Muslims this volume examines the effects of this on their respective diasporas focusing on a variety of approaches from language and culture to identity discourses and interchanges between those communities

Transnational Encounters Alejandro L. Madrid, 2011-09-29 Through the study of a large variety of musical practices from the U S Mexico border *Transnational Encounters* seeks to provide a new perspective on the complex character of this geographic area By focusing not only on norte a banda or conjunto musics the most stereotypical musical traditions among Hispanics in the area but also engaging a number of musical practices that have often been neglected in the study of this border's history and culture indigenous musics African American musical traditions pop musics the authors provide a glance into the diversity of ethnic groups that have encountered each other throughout the area's history Against common misconceptions about the U S Mexico border as a predominant Mexican area this book argues that it is diversity and not homogeneity which characterizes it From a wide variety of disciplinary and multidisciplinary enunciations these essays explore the transnational connections that inform these musical cultures while keeping an eye on their powerful local significance in an attempt to redefine notions like border nation migration diaspora etc Looking at music and its performative power through the looking glass of cultural criticism allows this book to contribute to larger intellectual concerns and help redefine the field of U S Mexico border studies beyond the North South and American Mexican dichotomies Furthermore the essays in this book problematize some of the widespread misconceptions about U S Mexico border history and culture in the current debate about immigration

Latinx Literature Unbound Ralph E.

Rodriguez, 2018-05-08 Since the 1990s there has been unparalleled growth in the literary output from an ever more diverse group of Latinx writers Extant criticism however has yet to catch up with the diversity of writers we label Latinx and the range of themes about which they write Little sustained scholarly attention has been paid moreover to the very category

under which we group this literature Latinx Literature Unbound thus begins with a fundamental question What does it mean to label a work of literature or an entire corpus of literature Latinx From this question others emerge What does Latinx allow or predispose us to see and what does it preclude us from seeing If the grouping which brings together a heterogeneous collection of people under a seemingly homogeneous label tells us something meaningful is there a poetics we can develop that would facilitate our analysis of this literature In answering these questions Latinx Literature Unbound frees Latinx literature from taken for granted critical assumptions about identity and theme It argues that there may be more salubrious taxonomies than Latinx for organizing and analyzing this literature Privileging the act of reading as a temporal meaning making event Ralph E Rodriguez argues that genre may be a more durable category for analyzing this literature and suggests new ways we might proceed with future studies of the writing we have come to identify as Latinx *Fencing in Democracy* Miguel Díaz-Barriga, Margaret E. Dorsey, 2020-01-31 Border walls permeate our world with more than thirty nation states constructing them Anthropologists Margaret E Dorsey and Miguel D az Barriga argue that border wall construction manifests transformations in citizenship practices that are aimed not only at keeping migrants out but also at enmeshing citizens into a wider politics of exclusion For a decade the authors studied the U S Mexico border wall constructed by the Department of Homeland Security and observed the political protests and legal challenges that residents mounted in opposition to the wall In *Fencing in Democracy* Dorsey and D az Barriga take us to those border communities most affected by the wall and often ignored in national discussions about border security to highlight how the state diminishes citizens rights That dynamic speaks to the citizenship experiences of border residents that is indicative of how walls imprison the populations they are built to protect Dorsey and D az Barriga brilliantly expand conversations about citizenship the operation of U S power and the implications of border walls for the future of democracy
