

La noche empezaba a caer sobre la selva.
Las mariposas ya habían doblado sus alas para
dormir y los animales se disponían a descansar.

El Sueño De La Razón:

El sueño de la razón Antonio Buero Vallejo, 2010 El sueño de la razón is an excellent example of Antonio Buero Vallejo's posibilismo as the Spanish playwright called his strategy for conveying his strong public denunciations while eluding the Franco regime's censorship Buero Vallejo centers the action in the pathos of Francisco de Goya an indisputable icon of the Spanish culture he delves into the painter's mind and daemons using Goya's art to transform the play into a total immersion experience In this way he provokes the audience's feelings and leads it to complete the work's message after the curtain's fall Most of the action takes place in Goya's Quinta del sordo the deaf man's country home during the Spanish King Ferdinand VII's restoration 1823 with its subsequent crack down on freethinkers liberals and masons The projected Black Paintings form a good part of the sparse stage design Buero Vallejo plays with a sequence of images conflating Goya's deafness with dialogue paintings and his etchings Caprichos Disparates and Desastres de la guerra in order to achieve a strong univocal form of communication This edition with a foreword by Dr Yolanda C Rivero Zaritzky combines ample footnotes with reproductions of the Black Paintings inserted in the places prescribed by the author's stage directions The text thus evokes the theatrical effect intended by Buero Vallejo An appendix with reproductions of the etchings mentioned throughout the text completes the background information required to fully understand and enjoy this masterpiece of Spanish theatre

Tratado de la razón humana en sus estados intermedios Pedro Mata Fontanet, 1864 **Writing and Filming the Painting** Laura M. Sager Eidt, 2008 This innovative interdisciplinary study compares the uses of painting in literary texts and films In developing a framework of four types of ekphrasis the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists Analyzing selected works of art by Goya Rembrandt and Vermeer and their ekphrastic treatment in various texts and films this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity Because of its highly cross disciplinary nature this book is of interest not only to scholars of literature and aesthetics but also for scholars of film studies By providing an innovative approach to discussing non documentary films about artists the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century Tratado de la razón humana en sus estados intermedios Pedro Mata, 1864 *Filosofía Española. characters humorous stories and quiet reflection *Elsa Morante's Politics of Writing* Stefania Lucamante, 2014-12-18 Elsa Morante's *Politics of Writing* is a collected volume of twenty one essays written by Morante specialists and international scholars. Essays gather attention on four broad critical topics namely the relationship Morante entertained with the arts cinema theatre and the visual arts new critical approaches to her four novels treatment of body and sexual politics and Morante's prophetic voice as it emerges in both her literary works and her essayistic writings. Essays focus on Elsa Morante's strategies to address her wide disinterest and contempt for the Italian intellectual status quo of her time regardless of its political side while showing at once her own kind of ideological commitment. Further contributors tackle the ways in which Morante's writings shape classical oppositions such as engagement and enchantment with the world sin and repentance self reflection and corporality as well as how her engagement in the visual arts theatre and cinematic adaptations of her works garner further perspectives to her stories and characters. Her works particularly the novels *Menzogna e sortilegio* *House of Liars* 1948 *La Storia* *Romanzo History A Novel* 1974 and more explicitly *Aracoeli* 1982 foreshadowed and advanced tenets and structures later affirmed by postmodernism namely the fragmentation of narrative cells rhizomatic narratives lack of a linear temporal consistency and meta and self reflective processes **Enlightened Nightscapes** Pamela F.

Phillips, 2023-04-03 This volume brings together eleven case studies that address how the night became visible in the long and global eighteenth century through different mediums and in different geographical contexts. Situated on the eve of the introduction of artificial lighting the long eighteenth century has much to say about night's darkness and brilliance. The eighteenth century has been bound up epistemologically with images of light reason and order. Night and day light and darkness reason and mystery however are not necessarily at odds in the eighteenth century. In their analysis of narratives poetry urban spaces music the visual arts and geological phenomena the essays provide various frameworks to examine the representation treatment and meaning of the enlightened night. The transnational and multidisciplinary nature of the volume presents a survey of the research currently being done in the field of the long eighteenth century night. This collection contributes to an ongoing exercise that questions the accepted definitions of the Enlightenment and by bringing Eighteenth Century Studies into dialogue with Night Studies it enriches the critical conversation between these lines of research.

Stages of European Romanticism Theodore Ziolkowski, 2018 Employs an innovative approach by stages to offer a unified vision of European Romanticism over the half century of its growth and decline. Romanticism was a truly European phenomenon extending roughly from the French Revolution to the 1848 revolutions and embracing not only literature and drama but also music and visual arts. Because of Romanticism's vast scope most treatments have restricted themselves to single countries or to specific forms notably literature art or music. This book takes a wider view by considering in each of six chapters representative examples of works from across Europe and across a range of the arts that were created in a single year. For instance in the first chapter focusing on the year 1798 Beethoven's *Pathétique* sonata Wordsworth and Coleridge's

Lyrical Ballads Tieck's novel Franz Sternbald's Wanderungen and Goya's painting El sueño de la razón The following chapters treat works from the years 1808 1818 1828 1838 and 1848 This approach by stages makes it possible to determine characteristics of six stages of Romanticism in its historical and intellectual context and to note the conspicuous differences between these stages as European Romanticism developed for example the waxing and waning of religious themes the shifting visions of landscape the gradual ironic detachment from early Romanticism In sum the volume offers a unified vision of European Romanticism in all its aesthetic forms over the half century of its growth and decline Theodore Ziolkowski is Professor Emeritus of German and Comparative Literature Princeton University

Los bastardos de Voltaire : la dictadura de la razón en Occidente John Ralston Saul, 1992 Voltaire fue el individuo más cèlebre del siglo dieciocho que fijó el rumbo de Occidente para gran parte del siglo diecinueve Fue un hombre consumido por la ambición social y económica que derrochó gran parte de su vida tratando de ganarse la aceptación de la aristocracia y de triunfar como cortesano Sin embargo al no poder influir sobre los monarcas y los poderosos Voltaire se dirigió a los ciudadanos y se convirtió en principal defensor de los derechos humanos y en el apologista de las reformas prácticas La preocupación humanística de Voltaire y sus seguidores fue olvidada en la actualidad En su lugar han surgido grupos de poder que han construido enormes estructuras racionales cuya única motivación es mantenerse en el poder Ellos hacen uso de la razón no para liberar a la gente sino para crear sistemas que únicamente los tecnócratas aquellos expertos a los que Saul llama los bastardos de Voltaire pueden entender y manipular
