humanity This approach will allow the nature and limitations of scientific research to be questioned while opening up more venues to explore scientific creativity that crosses the subject boundaries of science and humanities Latin American literature offers many examples of the interconnection between literary and scientific discourse Notwithstanding the often explored relationship between Jorge Luis Borges s literary themes and contemporary scientific discoveries a more general question should be asked is the influence of scientific thought a privilege of the select few or is it indeed an all pervading experience in Latin American literary narrative from late modernism to present day This book explores the texts that overtly incorporate scientific content or are structured in such a way that immediately reminds the reader of a scientific phenomenon it will also examine the texts that are presented in such a way that a conventional literary analysis does not help penetrate the many narrative layers that the text comprises The volume offers cross disciplinary readings of such authors as Jorge Luis Borges Gabriel Garc a M rquez Ernesto S bato and Gustavo Sainz to name but a few

Ferreira,1998 **Place and Displacement in the Narrative Worlds of Jorge Luis Borges and Julio Cortázar** Nataly Tcherepashenets,2008 Place and Displacement in the Narrative Worlds of Jorge Luis Borges and Julio Cort zar engages the notions of place and displacement as heuristic devices for literary analysis of Borges s and Cort zar s narratives It maps out these authors visions of place and displacement in some of their most famous texts locates the place of Borges s texts within Cort zar s fictional universe and delineates new routes in communication between different literary traditions and philosophical and anthropological discourses This book also suggests that the challenge of a strict opposition between place and displacement in Borges s and Cort zar s works is both representative and emblematic of a continuum of Latin American literature **Encyclopedia of Latin American and Caribbean Literature, 1900-2003** Daniel Balderston,Mike Gonzalez,2004 The Encyclopedia of Twentieth Century Latin American and Caribbean Literature 1900 2003 draws together entries on all aspects of literature including authors critics major works magazines genres schools and movements in these regions from the beginning of the twentieth century to the present day With more than 200 entries written by a team of international contributors this Encyclopedia successfully covers the popular to the esoteric The Encyclopedia is an invaluable reference resource for those studying Latin American and or Caribbean literature as well as being of huge interest to those folowing Spanish or Portuguese language courses
