Elbeuf During The Revolutionary Period History And Social Structure

Paul R. Hanson

Elbeuf During The Revolutionary Period History And Social Structure:

Elbeuf during the Revolutionary Period Jeffry Kaplow, 2019-12-01 Originally published in 1964 Jeffry Kaplow investigates the effects of the French Revolution on life in Elbeuf a textile town in Normandy through a social historical lens A careful study of local demographic fiscal and tax records allows him to reconstruct the social structure of Elbeuf s population on the eve of the French Revolution and to make claims about its economy which was based on wool production Somewhat unusually there was no strong noble or clerical presence in Elbeuf which was dominated by wool manufacturers Despite the destabilizing effects of the Revolution which included an economic downturn and an inflamed sense of grievance among less wealthy local constituencies the bourgeoisie retained its grip on power in Elbeuf and its environs throughout this period With the support of extensive archival evidence Kaplow goes to great lengths to model the particular social and economic conditions that allowed this town to avoid succumbing to the tumult of the Revolution and to undergo in fact so little change compared with most municipalities of the country

Elbeuf During the Revolutionary Period Jeffry Kaplow, 1964

Living the French Revolution, 1789-1799 P. McPhee, 2006-10-10 What did it mean to live through the French Revolution This volume provides a coherent and expansive portrait of revolutionary life by exploring the lived experience of the people of France s villages and country towns revealing how The Revolution had a dramatic impact on daily life from family relations to religious practices

Elections in the French Revolution Malcolm Crook, 1996-03-07 This book explores the vital but neglected issue of elections in the French Revolution Based on extensive research in different regions of France it is the only general survey to examine the full range of local and national contests from the Estates General to the advent of Napoleon Focusing on electoral behaviour it reveals a fascinating experiment with a quasi universal suffrage which established enduring features of French elections The retention of the traditional practice of voting in assemblies and a refusal to acknowledge candidates canvassing and competing political parties inhibited the emergence of a pluralistic electoral culture Nonetheless frequent polling offered unprecedented political opportunities to millions This revolutionary apprenticeship in democracy left a lasting imprint on the development of modern French citizenship

Economic Development in Early Modern France Jeff Horn, 2015-02-26 This book explores how the institution of privilege and liberty shaped early modern economic development in France between 1650 and 1820

Historical Dictionary of the French Revolution Paul R. Hanson, 2015-01-15 The French Revolution remains the most examined event or period in world history It was most historians would argue the first modern revolution an event so momentous that it changed the very meaning of the word revolution from restoration as in the Glorious Revolution of 1688 in England to its modern sense of connoting a political and or social upheaval that marks a decisive break with the past one that moves a society in a forward or progressive direction No revolution has occurred since 1789 without making reference to this first revolution and most have been measured against it One cannot utter the date 1789 without thinking of revolution and so significant were the changes

unleashed in that year that it has come to mark the dividing line between early modern and late modern European history
Kings This second edition of Historical Dictionary of the French Revolution covers its history through a chronology an introductory essay and an extensive bibliography The dictionary section has over 400 cross referenced entries on the causes and origins the roles of significant persons crucial events and turning points important institutions and organizations and the economic social and intellectual factors involved in the event that gave birth to the Declaration of the Rights of Man and Citizen This book is an excellent access point for students researchers and anyone wanting to know more about this period

Night the Old Regime Ended Michael P. Fitzsimmons, 2010-11-01 **Europe in the Eighteenth Century** George F. E. Rudé, 1985 Europe in the Eighteenth Century is a social history of Europe in all its aspects economic political diplomatic military colonial expansionist Crisply and succinctly written it describes Europe not through a history of individual countries but in a common context during the three quarters of a century between the death of Louis XIV and the industrial revolution in England and the social and political revolution in France It presents the development of government institutions cities economies wars and the circulation of ideas in terms of social pressures and needs and stresses growth interrelationships and conflict of social classes as agents of historical change paying particular attention to the role of popular as well as upper and middle class protest as a factor in that change *Clermont de Lodève 1633-1789* J. K. J. Thomson, 2003-09-25 Describes the economic and social manifestations of the two cycles of prosperity and decline in Clermont de Lodève *The A to Z of the French Revolution* Paul R. Hanson, 2007-02-23 The French Revolution remains the most examined event and period in world history Most historians would argue that it was the first modern revolution an event so momentous that it changed the very meaning of the word revolution to its current connotation of a political and or social upheaval that marks a decisive break with the past moving the society in a forward or progressive direction No revolution has occurred since 1789 without making reference to this first revolution and most have been measured against it When revolution shook the foundations of the Old Regime in France shock waves reverberated throughout the western world The A to Z of the French Revolution examines the causes and origins the roles of significant persons crucial events and turning points important institutions and organizations and the economic social and intellectual factors involved in the event that gave birth to the Declaration of the Rights of Man and Citizen the introduction of universal manhood suffrage and the Napoleonic Empire An introductory essay chronology and comprehensive bibliography complement the more than 400 cross referenced dictionary entries making this a great resource for students and history enthusiasts alike Poverty and Charity in Aix-en-Provence, 1640-1789 Cissie C. Fairchilds, 2019-12-01 Originally published in 1976 This book is a study of the charitable institutions of one French town Aix en Provence It begins with their foundation during the Counter Reformation and ends with their dissolution during the Revolution It details the impulses behind their foundation and describes how they were financed and administered It also explores the lives of the people they helped The study is based primarily on surviving records of the charities These are the

same sort of records that charitable institutions today accumulate entrance registers minutes of board meetings account books and fund raising pamphlets Records of the local and central government and court records were also consulted One purpose of this study is to bring readers closer to the reality of the problem of poverty in Old Regime France Another purpose is to historicize contemporary perceptions of poverty in the minds of French historical actors Chapter 1 outlines the social and economic makeup of Aix en Provence Chapter 2 deals with the attitudes and assumptions behind the foundation of the charities Chapter 3 describes how the institutions were administered and financed and the many important roles they played in the community at large Chapter 4 describes the types of assistance available to the poor and the types of people who received it Chapter 5 discusses the most important alternatives to charity for the needy beggary and crime After 1760 the traditional charities entered a period of decline Both the economic and social realities of poverty and popular perceptions of those realities changed drastically after 1760 Flooded by increasing numbers of the poor paralyzed financially because of declining donations and general mismanagement repudiated by public opinion and subject to increasing control by the state the charities were ineffective and indeed almost moribund after 1760 Chapters 6 and 7 detail these developments

The Spinners and Weavers of Auffay Gay L. Gullickson, 2002-08-08 This 1987 book broadens our understanding of the proto industrial era and the history of women

The Path Not Taken Jeff Horn, 2008-08-29 In *The Path Not Taken* Jeff Horn argues that contrary to standard Anglocentric accounts French industrialization was not a failed imitation of the laissez faire British model but the product of a distinctive industrial policy that led over the long term to prosperity comparable to Britain's Despite the upheavals of the Revolution and the Napoleonic Wars France developed and maintained its own industrial strengths France was then able to take full advantage of the new technologies and industries that emerged in the second industrial revolution and by the end of the nineteenth century some of France's industries were outperforming Britain's handily *The Path Not Taken* shows that the foundations of this success were laid during the first industrial revolution Horn posits that the French state's early attempt to emulate Britain's style of industrial development foundered because of revolutionary politics The threat from below made it impossible for the state or entrepreneurs to control and exploit laborers in the British manner The French used different means to manage labor unruliness and encourage innovation and entrepreneurialism Technology is at the heart of Horn's analysis and he shows that France unlike England often preferred still profitable older methods of production in order to maintain employment and forestall revolution Horn examines the institutional framework established by Napoleon's most important Minister of the Interior Jean Antoine Chaptal He focuses on textiles chemicals and steel looks at how these new institutions created a new industrial environment Horn's illuminating comparison of French and British industrialization should stir debate among historians economists and political scientists

Lourmarin in the Eighteenth Century Thomas F. Sheppard, 2019-12-01 Originally published in 1971 In the 1970s social historians of seventeenth century France began examining the social changes in the ancien r gime in an effort to

reconstruct the events leading up to the French Revolution Thomas Sheppard examines Lourmarin a mainly Protestant village with a small textile industry He seeks to answer a series of questions posed at the outset of the book What was daily life like in an eighteenth century French village How was village government organized To what extent did community leaders regulate village political life What effect did the Revolution have on life in the village Sheppard answers these questions with his archival work in Lourmarin He concludes his work with an investigation of the effects of the Revolution on life in Lourmarin following 1789 *Unpublished Research on Western Europe, Completed and in Progress* United States Department of State. External Research Division,1963 Beginning in 1954 Apr issue lists studies in progress Oct issue completed studies **From Artisan to Worker** Michael P. Fitzsimmons,2010-03-08 Examines the debate over the potential reestablishment of guilds that occurred inside and outside the French government from 1776 to 1821 *The ^AGreat Wave* David Hackett Fischer,1996-11-07 David Hackett Fischer has gained a reputation for making history come alive even stories as familiar as Paul Revere s ride or as complex as the transit of British culture to America Now he has done it again in *The Great Wave* a history of price movements and cultural change from the middle ages to the present Fischer examines price records in many nations and finds our great waves of rising prices in the thirteenth sixteenth eighteenth and twentieth centuries All were marked by price swings of increasing volatility falling real wages a growing gap between rich and poor and an increase in violent crime family disintegration and cultural despair Each long wave reached its climax in a period of political revolution demographic contraction and economic collapse Every crisis was followed by sharp deflation and then by a long era of price equilibrium rising real wages falling returns to capital growing equality and accelerating population growth Aggregate demand increased and another wave began Fischer concludes that we are living in the late stages of the twentieth century price revolution He does not predict what will happen next Rather he ends with an analysis of where we might go from here and what our choices are now **External Research. ER List** United States. Department of State. External Research Division,1963 External Research List ,1963 **Western Europe, Great Britain and Canada** ,1964
