Knauer, 2024-08-06 In an era where the population is rapidly ageing this timely Research Handbook addresses the wide ranging social and legal issues concerning older people Theories on Law and Ageing Israel Doron, 2008-09-25 This book is about trying to answer questions These questions were well introduced by Prof Margaret Hall in the opening of her chapter in this book The fundamental idea of law and aging as a discrete category of legal principle and theory is controversial how and why are older adults or seniors or elders the very terminology is controversial and fraught with difficulties a discrete and distinct group for whom special legal thought and treatment is justified For some a category of law and aging is inherently paternalistic suggesting that older persons are like children especially in need of the protection of the law In this sense the argument continues the category itself internalizes ageist presumptions about older adults and is therefore inherently flawed and even harmful If certain older adults are because of physical or mental infirmities genuinely in need of an enhanced level of legal protection this entitlement should be conceptualized in terms of their disability older adults are not a distinct group but an arbitrarily delineated demographic category which contains within it any number of

groups that are legitimately distinct for the purposes of legal theory the disabled women persons of colour Aboriginal persons rich and poor etc Indeed the artificial category of older adults may be seen as obfuscating submerging these more meaningful distinctions
