A History of Aging in Qing China Clara Wing-chung Ho, 2025-05-24 This book examines the history of aging and old age during the Qing dynasty a pivotal period marked by rapid population growth that resulted in the largest elderly population in imperial China Drawing on previously overlooked first person accounts from the extensive collections authored by Qing men and women it offers an overview of the self curated collective aging journeys of several hundreds of elders By centering the voices of individuals reflecting on their aging experiences this book delves into the personal narratives from both genders rediscovering their aging journeys revealing their subjectively constructed emotional landscapes and giving a voice to the elderly individuals of the past The chapters closely analyze how the elderly in Qing China articulated their aging process channeling their joys challenges and

frustrations in later life History is not the monopoly of a single gender class race or age group without representations of the elderly history remains incomplete This book seeks to restore the elderly to the historical narrative and invites further discussion on Chinese historical gerontology as an emerging subfield In addition to appealing to general readers interested in contemporary demographic issues from a historical perspective this book will engage students and researchers of history historical gerontology aging studies gender studies cultural studies sociology psychology and Asian studies *Once Upon a Gospel* William J. Bausch, 2008-04 When the words great homily come to mind the name Bill Bausch inevitably pops up Here he offers 100 new homilies reflecting the liturgical year holy days and holidays and saying farewell to loved ones All are shaped and finessed with stories As Bausch himself says We never exhaust the meaning of a good story Truth wrapped in story is irresistible and that's why I use stories These homilies are irresistible as well Kincraft Todne Thomas, 2021-02-22 In *Kincraft* Todne Thomas explores the internal dynamics of community life among black evangelicals who are often overshadowed by white evangelicals and the common equation of the Black Church with an Afro Protestant mainline Drawing on fieldwork in an Afro Caribbean and African American church association in Atlanta Thomas locates black evangelicals at the center of their own religious story presenting their determined spiritual relatedness as a form of insurgency She outlines how church members cocreate themselves as spiritual kin through what she calls kincraft the construction of one another as brothers and sisters in Christ Kincraft which Thomas traces back to the diasporic histories and migration experiences of church members reflects black evangelicals understanding of Christian familial connection as transcending racial ethnic and denominational boundaries in ways that go beyond the patriarchal nuclear family Church members also use their spiritual relationships to navigate racial and ethnic discrimination within the majority white evangelical movement By charting kincraft's functions and significance Thomas demonstrates the ways in which black evangelical social life is more varied and multidimensional than standard narratives of evangelicalism would otherwise suggest Pandemic Reflections Geoffrey Karabin, 2023-11-25 St Francis of Assisi one of the most acclaimed and enduring of saints is particularly significant when reflecting upon the COVID pandemic Francis lived and ministered amid a leprosy pandemic How he lived in relation to that pandemic makes him a source of insight to as well as a potential critic of contemporary responses to COVID In turn one can use COVID to question Francis Did he exhibit a harmful form of religious devotion perhaps fanaticism by exposing himself and others to a lethal pathogen This edited collection examines a highly visible and impactful religious figure with the intent of bringing him into conversation with one of the defining issues of the early 21st Century *Native American Literatures* Suzanne Everts Lundquist, 2004-01-01 Following the structure of other titles in the Continuum Introductions to Literary Genres series *Native American Literatures* includes A broad definition of the genre and its essential elements A timeline of developments within the genre Critical concerns to bear in mind while reading in the genre Detailed readings of a range of widely taught texts In depth analysis of major themes and issues Signposts for further study within the genre A summary of

the most important criticism in the field A glossary of terms An annotated critical reading list This book offers students writers and serious fans a window into some of the most popular topics styles and periods in this subject Authors studied in Native American Literatures include N Scott Momaday Leslie Marmon Silko Louise Erdrich James Welch Linda Hogan Gerald Vizenor Sherman Alexie Louis Owens Thomas King Michael Dorris Simon Ortiz Cater Revard and Daine Glancy Indian Diaspora ,2008-01-01 Indian Diaspora Social Gerontology Nursing Multiculturalism Education In historic and ethnographic accounts of Indians living in diaspora the elderly seem to receive much less attention than the new generation and its progress prosperity and success Using critical pedagogy approach this book attempts to close that gap by focusing on the voices of the Punjabi Bengali Sindhi and Gujarati diasporic Indians elderly living in five countries Learning to listen to the voices of these seniors may enable professors teachers students policy makers and parents to work towards building democratic societies *EXPERIENCE OF ELDERLY PEOPLE IN NEPAL* Purna Bahadur Thapa,2020-10-01 Living longer is regarded as a triumph of human development Progress in health services has brought noticeable increase in life expectancy and a reduction in mortalityand fertility rate In general wrinkled faces and sags weak bones and changes in appearances manifest old age In Nepal by and large old age has been understood largely from the physical dimension thus there is wider belief that in old age people are frail and weak The main purpose of this research is to explore perceptions and practices on old age To explore this I have employed an interpretative research paradigm and qualitative approach with purposive sampling method The major findings of the study show that security concerns of old age have yet to get adequate attention from family members society and government The elderly people have mixed opinions on their age few consider that old age has brought lots of knowledge experience and skills so they are resourceful whereas othersassert themselvesas utterly dependent on family and helpless Interestingly it also reveals that longevity has provided an opportunity to ponder upon life and death and they tend to chase more spiritual gatherings and functions This study also reveals the mounting generational gaps emerging in the families **Reflections on Old Age** Cornelius F. Murphy,2015-04-07 The English writer E M Forster described old age as a seductive combination of increased wisdom and decaying powers to which too little intelligence is devoted This book is a response to that criticism It explains how old age has been considered throughout the ages by philosophers poets and other literary figures and explores how the extraordinary increase of life expectancy that began in the last century has be sustained by science and medicine Unfortunately the general public still prefers to keep the elderly out of sight and especially out of mind To overcome this marginalization I call for the emergence of a more inclusive humanism one that is welcoming to persons of all ages To overcome the pervasive isolation of the elderly requires a new dialogue across all the living generations Echoing the sentiments of Cicero in his classic study of old age I also call for a reflective maturity to develop among the elderly one that reaches deeply into themselves and increases their understanding of the world around them Spiritual maturity demands growth in virtue and charity in the advance of years A reaching out to all in the pursuit of

justice and the common good is strongly recommended The book concludes with some reflections upon hopes for personal immortality as well as the qualities of divine justice and mercy
