The Hundred Brothers Donald Antrim, 2011-06-21 With a New Introduction by Jonathan Franzen There's Rob Bob Tom Paul Ralph and Noah Nick Dennis Bertram Russell and Virgil The doctor the documentary filmmaker and the sculptor in burning steal the eldest the youngest and the celebrated perfect brother Benedict In Donald Antrim's mordantly funny novel *The Hundred Brothers* our narrator and his colossal fraternity of ninety eight brothers one couldn't make it have assembled in the crumbling library of their family's estate for a little sinister fun Executed with the invention and intelligence of Barthelme and Pynchon Antrim's taxonomy of male specimens is in equal proportions disturbing and absurdly hilarious

The Dead Father Donald Barthelme, 2014-05-06 *The Dead Father* is a gargantuan half dead half alive part mechanical wise vain powerful being who still has hopes for himself even while he is being dragged by means of a cable toward a mysterious goal In this extraordinary novel marked by the imaginative use of language that influenced a generation of fiction writers Donald Barthelme offered a glimpse into his fictional universe As Donald Antrim writes in his introduction Reading *The Dead Father* one has the sense that its author enjoys an almost complete artistic freedom a permission to reshape misrepresent or even ignore the world as we find it Laughing along with its author we escape anxiety and feel alive

Aggressive Fictions Kathryn Hume, 2012-01-15 A frequent complaint against contemporary American fiction is that too often it puts off readers in ways they find difficult to fathom Books such as Bret

Easton Ellis's *American Psycho*, Katherine Dunn's *Geek Love* and Don DeLillo's *Underworld* seem determined to upset, disgust or annoy their readers or to disorient them by shunning traditional plot patterns and character development. Kathryn Hume calls such works aggressive fiction. Why would authors risk alienating their readers and why should readers persevere? Looking beyond the theory-based justifications that critics often provide for such fiction, Hume offers a commonsense guide for the average reader who wants to better understand and appreciate books that might otherwise seem difficult to enjoy. In her reliable and sympathetic guide, Hume considers roughly forty works of recent American fiction, including books by William Burroughs, Kathy Acker, Chuck Palahniuk and Cormac McCarthy. Hume gathers attacks on the reader into categories based on narrative structure and content. Writers of some aggressive fictions may wish to frustrate easy interpretation or criticism. Others may try to induce certain responses in readers. Extreme content deployed as a tactic for distancing and alienating can actually produce a contradictory effect for readers who learn to relax and go with the flow: the result may well be exhilaration rather than revulsion.

Terrorism and Temporality in the Works of Thomas Pynchon and Don DeLillo James Gourley, 2013-06-06

Terrorism and Temporality in the Works of Thomas Pynchon and Don DeLillo starts from a simple premise: that the events of the 11th of September 2001 must have had a major effect on two New York residents and two of the seminal authors of American letters, Pynchon and DeLillo. By examining implicit and explicit allusion to these events in their work, it becomes apparent that both consider 9/11 a crucial event and that it has profoundly impacted their work. From this important point, the volume focuses on the major change identifiable in both authors' work: a change in the perception and conception of time. This is not, however, a simple change after 2001. It allows at the same time a re-examination of both authors' work and the acknowledgment of time as a crucial concept to both authors throughout their careers. Engaging with several theories of time and their reiteration and examination in both authors' work, this volume contributes both to the understanding of literary time and to the work of Pynchon and DeLillo.

American Culture in the 1990s Colin Harrison, 2010-03-31

American Culture in the 1990s focuses on the dramatic cultural transformations of the last decade of the millennium. Lodged between the fall of Communism and the outbreak of the War on Terror, the 1990s was witness to America's expanding influence across the world but also a period of anxiety and social conflict. National traumas such as the Los Angeles riots, the Oklahoma City bombing and the impeachment of President Clinton lend an apocalyptic air to the decade, but the book looks beyond this to a wider context to identify new voices emerging in the nation. This is one of the first attempts to bring together developments taking place across a range of different fields, from Microsoft to the Internet, from black fiction to gangsta rap, from abject art to new independent cinema and from postfeminism to posthumanism. Students of American culture and general readers will find this a lively and illuminating introduction to a complex and immensely varied decade.
