Elections And Conflict Management In Africa:

Elections and Conflict Management in Africa Timothy D. Sisk, Andrew Reynolds, 1998 Elections have emerged as one of the most important and most contentious features of political life on the African continent In the first half of this decade there were more than 20 national elections serving largely as capstones of peace processes or transitions to democracies The outcomes of these and more recent elections have been remarkably varied and the relationship between elections and conflict management is widely debated throughout Africa and among international observers Elections can either help reduce tensions by reconstituting legitimate government or they can exacerbate them by further polarizing highly conflictual societies This timely volume examines the relationship between elections especially electoral systems and conflict management in Africa while also serving as an important reference for other regions The book brings together for the first time the latest thinking on the many different roles elections can play in democratization and conflict management

Resolving Election Related Conflicts in Africa. Role and Challenges of the National Peace Council of Ghana

Caeser Nibelli, 2020-02-21 Master s Thesis from the year 2017 in the subject Politics Topic Peace and Conflict Security grade 3 00 course Msc Defence and International Politics language English abstract This study examines the causes of electoral conflicts in Ghana and Africa and the role and challenges of the National Peace Council in resolving election related conflicts In many African countries both the economic and political authorities are confiscated and held in the hands of some corrupt leaders who through the use of force control the destiny of their countries Since the adoption of multiparty systems in some African countries most elections have been tarnished by violence and by political antagonists who continue to question not only the fairness and the transparency of elections but also the validity of the electoral systems of their countries Ghana s elections for some time now have become violent resulting in disputes A typical case of this situation was the 2012 elections which ended up in the Supreme Court as a dispute In all of these conflicts the role of the National Peace Council cannot be over emphasized The Council played an important role before during and after elections This contributed in the peace that the Ghana experienced during and after elections In the light of the key role of the Council played in ensuring peace before during and after elections there are a number of challenges that confronted the Council This study examines the specific role played by the National Peace Council NPC in ensuring peace in elections The study discussed the challenges that affected the work of the Council such as limited funding to initiate activities and inadequate staff to help carry out its functions The methodology adopted in this study is the qualitative case study approach which enabled the study to analyze the findings by relying mostly on secondary data to make its findings Literatures from secondary data were reviewed to answer research questions The findings of this study confirm that the role played by the National Peace Council NPC yielded positive results in ensuring the peace of the country throughout the electoral period which other Africa countries can emulate to prevent election related conflicts *Elections and Governance in Nigeria's Fourth Republic* Agbu, Osita, 2017-05-03 Elections and

Governance in Nigeria's Fourth Republic is a book about Nigerian politics governance and democracy. It at once encompasses Nigeria's post colonial character its political economy party formation since independence the role of Electoral Commissions as well as indepth analyses of the 1999 2003 and 2007 general elections that involved extensive fieldwork. It also presents aspects of the 2011 and 2015 general elections while discussing the state of democratic consolidation and lessons learned for achieving good governance in the country. It is indeed a must read for students of politics academics politicians statesmen and policy makers and in fact stakeholders in the Nigerian democracy project. The book stands out as a well researched and rich documentary material about elections in Nigeria and the efforts so far made in growing democracy.

The Resolution of African Conflicts Alfred G. Nhema, Paul Tiyambe Zeleza, 2008. These two volumes clearly demonstrate the efforts by a wide range of African scholars to explain the roots routes regimes and resolution of African conflicts and how to re build post conflict societies. They offer sober and serious analyses eschewing the sensationalism of the western media and the sophistry of some of the scholars in the global North for whom African conflicts are at worst a distraction and at best a confirmation of their pet racist and petty universalist theories. From the introduction by Paul Tiyambe Zeleza. This book offers analyses of a range of African conflicts and demonstrates that peace is too important to be left to outsiders.

Managing Conflicts in Africa's Democratic Transitions Akanmu G. Adebayo, 2012-08-31. This book explores the nascent and complex terrain of democratization and peaceful political transitions in Africa. It analyzes major election related conflicts across the continent explains their root causes and major consequences and offers measures that may be undertaken.

Electoral Systems and Democratization in Southern Africa Andrew Reynolds, 1999-01-28. The design of electoral systems and executive types is increasingly being recognized the key lever of constitutional engineering to be applied in the interests of political accommodation and stability in ethnically divided societies. In this groundbreaking comparative study of democratic design in Southern Africa Andrew Reynolds finds that the decisions about how to constitute representative parliaments have wide ranging effects on the type of parties and party system that develops the nature of executive legislative relations and the inclusiveness of both majority and minority interests in the process of governance. While electoral system design is the primary focus of the book the related constitutional issues of whether to choose a presidential or parliamentary system and whether to entrench consensual consociational or majoritarian government are also discussed. Analysing the experiences of Malawi Namibia South Africa Zambia and Zimbabwe the author presents a host of revealing conclusions that help shed light on the success or failure of democratic design in other fledgling democracies in both Africa and beyond.

Elections and Conflict Management In Africa ... Ballot Paper, 1999* Democracy, Elections, and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2021-03-18. The third wave of democracy that reached African shores at the end of the Cold War brought with it a dramatic decline from 1990 onwards in dictatorships military regimes one party governments and presidents for life. Multiparty democracy was at the core of the constitutional revolutions that swept

through most of Africa in those watershed years. However, that wave is either losing momentum or receding or being reversed in its entirety. This volume examines democracy and elections in Africa, a focus motivated by two concerns. First, after 30 years, it is important to take stock of the state of constitutional democracy on the continent. The democratic gains of the 1990s and 2000s seem to be falling by the wayside with the evidence mounting that regimes are concealing authoritarianism under the veneer of elections, doing so in an international context where populist regimes are on the rise and free and fair multiparty elections are consequently no longer a given. It is becoming a battle to protect and retain constitutional democracy. The second reason for this volume's focus on democracy and elections is that multiparty democracy is essential for the proper functioning of the state in addressing the major problems facing Africa: internal conflict, inequality, and lack of development and poor governance and corruption. The focus of this volume is thus on how competitive politics or multiparty democracy can be realized and how, through competition, such politics could lead to better policy and practice outcomes.

Elections in Dangerous Places David Gillies, 2011. From Afghanistan and Iraq to Haiti, Côte d'Ivoire, and Egypt, ill-timed, fraudulent, or poorly managed elections have led to discord, violence, and even regime change. While much of the international community views elections as a critical milestone in the stabilization of war-torn societies, *Elections in Dangerous Places* shows how flawed elections can act as democracy in reverse and diminish political legitimacy and stable governance. Through a series of frank and incisive case studies of conflicted countries, contributors' chapters challenge the centrality and timing of elections as a key pillar of reconstruction at a war's end. They underline the dangers in rushing elections, compromising principles, and lowering the bar for what constitutes free and fair elections in situations of conflict. The authors also underline the economic cost of elections in uncertain political situations and argue that global taxpayers, who must bear the burden, are justified in questioning the value of ill-timed elections. A candid and important study of political turmoil, *Elections in Dangerous Places* provides valuable lessons and practical advice on how to better mitigate conflict and violence before, during, and after highly charged elections.

Region-Building in Southern Africa Chris Saunders, Gwinyayi Albert Dzinesa, Dawn Nagar, 2013-07-04. How successful have Southern African states been in dealing with the major issues that have faced the region in recent years? What could be done to produce more cohesive and effective region building in Southern Africa? In this original and wide-ranging volume, which draws on an interdisciplinary team of mainly African and African-based specialists, the key political, socio-economic, and security challenges facing Southern Africa today are addressed. These include the various issues confronting the Southern African Development Community (SADC) and its institutions, such as HIV/AIDS, migration, and xenophobia, land grabbing, and climate change, and the role of the main external actors involved with the region, including the United Nations, the European Union, the United States, and China. The book also looks at the Southern African Customs Union and Southern African Development Finance Institutions, including the Development Bank of Southern Africa and Industrial Development Corporation, and issues of gender and peacebuilding. In doing so, the book goes to the heart of

analyzing the effectiveness of SADC and other regional organisation suggesting how region building in Southern Africa may be compared with similar attempts elsewhere in Africa and other parts of the world

Elections, Violence and Transitional Justice in Africa Elias Opongo,Tim Murithi,2022-05-29 Elections in Africa are competitive in nature and can be manipulated by incumbents to extend and entrench their rule through changes to constitutions intimidation of opponents excess use of police force and in some cases assassinations of dissident voices Ethnic cleavages are also exploited by contestants to incite and mobilize unsuspecting masses to pursue their electoral ambitions which can lead to political instability In many African countries violence before during and after elections has become a regrettable norm rather than the exception The function of transitional justice is to address the legacy of human rights atrocities political violence and societal harm resulting from prior misrule or violent conflicts with a view to establishing fair democratic and inclusive societies This book interrogates the potential intersection between transitional justice and electoral processes Specifically it examines the hypothesis that transitional justice interventions that strive to address historical injustices perpetrated by violence conflict and entrenched by socio political impunity can initiate preventive measures against electoral violence through redress accountability and institutional reforms The contributors to this volume have engaged with country case studies from across Africa while examining the intersection between transitional justice and electoral processes Hence this is a timely volume that highlights the uninterrogated nexus between elections violence and transitional justice in Africa
