

## The Electoral College: Annotated Bibliography

Our country is founded on democracy and the freewill of the people, but in two elections within the past two decades the majority of citizens in the United States voted for the losing candidate. This is a direct result of the system called the Electoral College. Below are the sources I have acquired throughout the week of March 24, 2019. I intend to complete my draft by April 1, 2019 with submission of final on April 8, 2019. The resources were acquired based on several questions I desired to answer: While the Electoral College may have proved vital to the creation and existence of the early United States, does its current form holds no such function or value. I intend to research if the Electoral College has outlived its purposefulness and contradicts the founding principles of the Constitution and even of the twelfth amendment. Additionally, I seek to answer those that argue the Electoral College is necessary to uphold states' rights and the representation of small states'. Is this archaic institution silencing the voices of the people it claims to represent, and should it be abolished or at the least reformed before the next Presidential election.

Aldrich, et al, in the article "Sophisticated and Myopic? Citizen Preferences for Electoral College Reform" suggest that different institutions can produce more (or less) preferred outcomes, in terms of citizens' preferences. The authors investigate whether citizens acting on established preferences is accepted by an original observed dataset conducted before the 2004 election. The author's purpose is to show the reader that support for a reform to split a states' Electoral College votes is explained by which candidate is expected to win the election under the existing system, preferences for abolishing the Electoral College in favor of the popular vote winner, and statistical connections amongst these variables. The authors write in an analytical tone for their audience.

- Electoral College Kalman S. Szekely,1970      Electoral College Kalman S. Szekely,1970      **Electoral College Reform** Gary Bugh,2016-04-29 The United States has not updated the Electoral College system since the Twelfth Amendment was ratified in 1804 despite public opinion polls showing a majority of Americans are in favor of changing or outright abolishing it So why hasn't the United States reformed this system Electoral College Reform brings together new essays examining all aspects of this crucial debate including the reasons for reform the issues surrounding a constitutional amendment the effect of the Electoral College on political campaigns and the possibilities for extra constitutional avenues to change The authors consider both the Federalists vision of balanced representation and a more democratic and equality based ideal These competing frameworks perhaps more than any other factor account for centuries of American indecision on this key issue By offering an unprecedented and carefully researched analysis of an always controversial subject this volume explores the potential for changing a system that many contend is long overdue      **The Runner-Up Presidency** Mark Weston,2016-03-01 An entertaining and important account of presidential elections in which the winner of the popular vote lost or came all too close to losing focusing on the Constitutional Convention in 1787 the disputed elections of 1876 and 2000 the deadlocks of 1800 and 1824 when the elections were thrown to the House of Representatives and the close call during the tumultuous year of 1968 Author and historian Mark Weston explains how electoral votes emerged as a compromise between the free states and slave states at the Constitutional Convention how they were inspired by an unusual method of counting votes in ancient Rome and how this system played out in six presidential elections that shake our faith in American democracy The Runner Up Presidency combines an in depth political and numerical analysis of America's electoral system with rich narratives of our six strangest elections      **American Civil Procedure** John Bilyeu Oakley,Vikram D. Amar,Vikram Amar,2009-01-01 This convenient description of civil procedure in the federal and state courts of the United States will be greatly welcomed by lawyers and legal scholars everywhere Without going into deep analysis the book covers every important feature of these legal systems drawing on the expertise and experience of two well versed practitioners As well as the rules policies normative principles and future trends the authors cite recent cases affecting procedure Areas covered include sources judicial organization exercise of the legal profession jurisdiction due process standards rules of evidence enforcement of judgements arbitration and much more      Reader's Guide to the Social Sciences Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense      **A Bibliography of Bibliographies of Legal Material** Margaret A. Committee of Fifteen, Frank Charles Touton, 1924      Felony Disenfranchisement in America Katherine Irene Pettus, 2013-04-01 State felony disenfranchisement laws that date back to Reconstruction fracture the American electorate into those who are citizens in the fullest sense of the term in Aristotle's words and those who are deprived of political voice still have the status of slaves. The existence of this invisible constituency approximately 5.8 million or 2.5% of the national voting population who live alongside the ruling enfranchised electorate is one of the scandals of our generation. In this second edition of *Felony Disenfranchisement in America* Katherine Irene Pettus draws on philosophy, history, law, and punishment theory to make the compelling argument that state disenfranchisement policies have collective moral and political significance that transcends the personal tragedy of being legally deprived of full citizenship status. Pettus argues that the war on drugs, mass incarceration, and racially unbalanced disenfranchisement rates distort and disfigure the body politic as a whole and undermine the legitimacy of the domestic and foreign policies promulgated by our elected representatives.
