Electronic Document Handling The New Communications Architectures:

Electronic Document Handling Dimitris N. Chorafas, 1988-06-01 *Electronic Document Handling* Dimitris N. Chorafas, 1988-06-01 *Expert Systems in Banking* Dimitris N. Chorafas, Heinrich Steinmann, 2016-07-27 This book presents the reader with a complete and comprehensive picture of what is happening today in banks and other financial institutions in terms of expert systems implementation In addition it helps in refining the reader's thoughts on how to build an environment for the successful implementation of expert systems in banking and how to sell this concept to management including risks and opportunities *Enterprise Architecture for Global Companies in a Digital IT Era* Yoshimasa Masuda, Murlikrishna Viswanathan, 2025-08-22 This book investigates solutions incorporated by architecture boards in global enterprises to resolve issues and mitigate related architecture risks while also proposing and implementing an adaptive integrated digital architecture framework AIDAF and related models and approaches platforms covering Big Data and AI such as Generative AI unstructured data analytics and HCI AI etc which can be applied in companies to promote IT strategies using cloud mobile IT digital IT The book is divided into three main parts the first of which Chapters 1 2 addresses the background and motivation for AIDAF aligned with digital IT strategies while involving AI and Design Thinking approach The second part Chapter 3 provides an overview of strategic enterprise architecture EA frameworks for digital IT elaborates on the essential elements of EA frameworks in the digital IT era and advocates using AIDAF models for architecture assessment risk management and knowledge management on digital platforms while involving the new models introduction with Design Thinking approach covering AI and Digital Transformation process In turn the third part Chapters 4 9 demonstrates the application and benefits of AIDAF and related models involving the above new ones for AI and Digital Transformation process as shown in more than six case studies I found this book to be a very nice contribution to the EA community of practice I can recommend this book as a textbook for digital IT strategists practitioners EA practitioners students in universities and graduate schools From the Foreword by Scott A Bernard In this new age of the digital information society it is necessary to advocate a new EA framework This book provides state of the art knowledge and practices about EA frameworks beneficial for IT practitioners IT strategists CIO IT architects and even students It serves as an introductory textbook for all who drive the information society in this era From the Foreword by Jun Murai *eWork and eBusiness in Architecture, Engineering and Construction. ECPPM 2006* Manuel Martinez, Raimar Scherer, 2020-11-25 The task of structuring information on built environment has presented challenges to the research community software developers and the industry for the last 20 years Recent work has taken advantage of Web and industry standards such as XML OWL IFC and STEP Another important technology for the fragmented AEC industry is digital communication Wired or wireless it brings together architects engineers and construction site workers enabling them to exchange information communicate and work together Virtual enterprise organization structures involving mobile teams

over distance are highly compatible with the needs of the construction industry

Enterprise Architecture for Strategic Management of Modern IT Solutions Tiko Iyamu, 2022-03-16 The popularity of enterprise architecture EA has increased in the last two decades in both business and academic domains Despite the cumulative interest from all sectors the implementation and practice of EA have been entangled with numerous challenges and complexities Consequently some organisations continue to theorise the concept which has ramifications on practice and return on investment ROI This has led to many studies that have been conducted to understand the complexities impacting the implementation and practice of EA in organisations Yet the trajectory of some convolutions remains mystery in many quarters This attributes to the struggle to articulate the value of EA in many environments Hence many organisations find it difficult to apply EA for strategic management of modern information technology IT solutions Enterprise Architecture for Strategic Management of Modern IT Solutions provides guidance on how to employ EA in deploying and managing IT solutions from pragmatic and implementable strategies perspectives Until now implementation and practice of EA have been slow despite its growing popularity and interest from all sectors The author employs sociotechnical theories such as actor network theory ANT and structuration theory ST as lenses to examine and explain why and how challenges and complexities exist and derail the implementation or practice of EA in organisations By doing so this serves to enable practitioners and readers to gain fresh insights on why the challenges exist and how they can be addressed in creating collaborative capabilities for business enhancement sustainability and competitiveness The book provides detailed insights on how to apply EA for organisational purposes from three main fronts First it explains the implications that lack of understanding of EA have on organisational activities and processes Second it examines the challenges and complexities that hinder the implementation and practice of EA in organisations Third it proposes models and frameworks on how EA can be applied for strategic management of modern IT solutions in organisations Written for postgraduates researchers academics and professionals in the fields of EA IT and information systems this book provides a valuable resource that will enable and enhance implementation and practice of EA including future studies

[eWork and eBusiness in Architecture, Engineering and Construction](#) Z. Turk, R. Scherer, 2002-01-01 This is a comprehensive review of research related to construction informatics with a particular focus on the related 5th framework EU projects on product and process technology and the implementation of the new economy technologies and business models in the construction industry

Anderson Anderson, Architecture and Construction Mark Anderson, Peter Anderson, Cameron Schoepp, Andrew Zago, 2000 Brothers Mark and Peter Anderson have been building things together since their boyhood days in Tacoma Washington Their work as architects carpenters builders and general contractors encompasses the design and construction of residential commercial and public art projects Anderson Anderson is noted for its highly customized work and its prefabricated systems for large scale production Informed by their experiences as carpenters and influenced by place and landscape mud clouds and rain in the case of the Pacific Northwest the work of Mark and Peter

Anderson highlights experimentation and adventure Anderson Anderson Architecture and Construction delves into the process of construction as a source of creative imagination and discovery from the hands on material process of making things to the lessons learned from large scale projects to the development of new construction technologies This book explores the simple beauty of their finished products as much as the process of getting there the unglossed stories of young architects working learning traveling and having fun The book features over 25 projects in the Pacific Northwest Hawaii Alaska Texas and Japan
