Electronic Commerce: Concepts, Methodologies, Tools, and Applications Becker, Annie, 2007-12-31 Compiles top research from the world's leading experts on many topics related to electronic commerce Covers topics including mobile commerce virtual enterprises business to business applications Web services and enterprise methodologies

E-Commerce and Development Report 2004 United Nations Conference on Trade and Development, 2004 Information and communications technologies ICT have considerable potential to promote development and economic growth by helping to foster innovation improve productivity and expand the knowledge capacity of developing countries especially for small and medium sized enterprises This is the fourth report in the series published by UNCTAD which seeks to assess the implications of the growing role of ICTs in economic development Issues discussed include the growth of e commerce and issues for international dialogue e business survey results in Latin America the use of digital and internet technologies in the creative industries particularly in the music industry online learning in the higher education sector government e commerce applications in e procurement legal issues and challenges of data privacy in an information society and the ICT sector in Tunisia and the development of a national e strategy *The WTO, the Internet and Trade in Digital Products* Sacha Wunsch-Vincent, 2006-01-20 The rapid development of the Internet has led to a growing potential for electronic trade in digital content like movies music and software As a result there is a need for a global trade framework applicable to such digitally delivered content products Yet digital trade is currently not explicitly recognised by the trade rules and obligations of the World Trade Organization WTO This study provides a complete analysis of the related challenges in the ongoing WTO Doha Negotiations to remedy this state of affairs It elaborates on the required measures in the multilateral negotiations to achieve market access for digital content and examines the obstacles that lie on the path to reach consensus between the United States and the European Communities Negotiation parameters analysed include the current US and EC regulatory approach to audiovisual and information society services and the evolution of their applicable trade policy jurisdiction Finally this examination takes stock of how the Doha Negotiations and parallel US driven preferential trade agreement have so far contributed to securing free trade in digital content As new technologies are an increasingly prominent source of trade dispute this book is an assessment of how WTO Members can maintain the relevance of the multilateral trade framework in a changing technological and economic environment This important work highlights the missed opportunity in on going global trade talks the failure to pursue a free trade framework for digitally delivered content If not corrected one can readily imagine the rise of discriminatory barriers to digital trade of the type that have dogged global trade flows for years and a failed recognition by the WTO of the reality of modern commerce The WTO should as the author argues put a spotlight on electronic trade and move forward in a comprehensive fashion Ambassador Charlene Barshefsky Former United States Trade Representative Wunsch Vincent provides a comprehensive analysis of the challenges to establish a liberal trade regime for

trade in digital products This book will become an important point of reference for anybody interested in e commerce and the WTO Carlos A Primo Braga Senior Adviser International Trade Department The World Bank *Electronic Commerce and Organizational Leadership: Perspectives and Methodologies* Djoletto, Wilhelmina,2013-02-28 Although the topic of e commerce has been very widely discussed and researched it is not often discussed in terms of its affect on leadership and management structures Electronic Commerce and Organizational Leadership Perspectives and Methodologies investigates the ways in which e commerce not only affects daily business operations but more specifically it focuses on how e commerce has a great influence on administrative hierarchy and leadership This unique publication highlights these issues within higher education institutions but more specifically in historically black colleges and universities Researchers and administrators who seek to understand and improve the hierarchical and organizational structures through the deeper investigation of information technology e commerce and its impacts will find this book valuable Algorithmic Game Theory Noam Nisan,Tim Roughgarden,Eva Tardos,Vijay V. Vazirani,2007-09-24 In recent years game theory has had a substantial impact on computer science especially on Internet and e commerce related issues Algorithmic Game Theory first published in 2007 develops the central ideas and results of this exciting area in a clear and succinct manner More than 40 of the top researchers in this field have written chapters that go from the foundations to the state of the art Basic chapters on algorithmic methods for equilibria mechanism design and combinatorial auctions are followed by chapters on important game theory applications such as incentives and pricing cost sharing information markets and cryptography and security This definitive work will set the tone of research for the next few years and beyond Students researchers and practitioners alike need to learn more about these fascinating theoretical developments and their widespread practical application

Entrepreneurship and Innovations in E-Business: An Integrative Perspective Zhao, Fang,2006-01-31 The book presents a comprehensive introduction of the concepts and practices of e entrepreneurship and e innovation Provided by publisher **Trade Governance in the Digital Age** Mira Burri,Thomas Cottier,2015-07-09 The development of new digital technologies has resulted in significant transformations in daily life from the arrival of online shopping to more fundamental changes in the ways we work and communicate Many of these changes raise questions that transcend market access and liberalisation and demand cooperation and coherent regulatory design International trade regulation has hitherto not reacted in a forward looking manner to the digital revolution and particularly at the multilateral level legal engineering has yielded few tangible results This book examines whether WTO laws possess the necessary flexibility and resilience to accommodate the changes brought about by burgeoning digital trade By revealing both the potential and the limitations of the WTO framework it provides a broad picture of the interaction between digital technologies and trade regulation links the often disconnected discourses of international trade law intellectual property and cyberlaw and explores discrete problems in different domains of global trade regulation **Rethinking Strategy for Creative Industries** Milan Todorovic,with Ali

Bakir,2016-03-02 Creative Industry practices are increasingly manifested through hybrid models and methods and emerging sub sectors With ever finer dividing lines between form and content product and service participation and consumption the distinctions between sectors are increasingly blurred while new convergent models emerge Reflecting this fluid context this book provides a new perspective on strategy in the Creative Industries Based on extensive original research and live empirical data derived from case studies interviews and observations with creative managers it reveals strategic decision making by analysing business manoeuvres and stages of innovation in the Creative Industries Through analysing the interactive features of aesthetically driven information assets and how new user consumer cultures are applied it uncovers the principles that are transforming strategy in the Creative Industries This innovative volume will be of significant interest to scholars advanced students and practitioners in the Creative Industries as well as well as industry consultancies and practitioners *Mobile Peer-to-Peer Computing for Next Generation Distributed Environments: Advancing Conceptual and Algorithmic Applications* Seet, Boon-Chong,2009-05-31 This book is dedicated to the coverage of research issues findings and approaches to Mobile P2P computing from both conceptual and algorithmic perspectives Provided by publisher
