Timothy Brook, 2013-03-11 The Mongol takeover in the 1270s changed the course of Chinese history The Confucian empire a millennium and a half in the making was suddenly thrust under foreign occupation What China had been before its reunification as the Yuan dynasty in 1279 was no longer what it would be in the future Four centuries later another wave of steppe invaders would replace the Ming dynasty with yet another foreign occupation *The Troubled Empire* explores what happened to China between these two dramatic invasions If anything defined the complex dynamics of this period it was changes in the weather Asia like Europe experienced a Little Ice Age and as temperatures fell in the thirteenth century Kublai Khan moved south into China His Yuan dynasty collapsed in less than a century but Mongol values lived on in Ming institutions A second blast of cold in the 1630s combined with drought was more than the dynasty could stand and the Ming fell to Manchu invaders Against this background the first coherent ecological history of China in this period Timothy Brook explores the growth of autocracy social complexity and commercialization paying special attention to China s incorporation into the larger South China Sea economy These changes not only shaped what China would become but contributed to the formation of the early modern world **Gender and the City before Modernity** Lin Foxhall, Gabriele Neher, 2012-04-17

*Zhao Mengfu* Shane McCausland,Mengfu Zhao,2011-01-01 Zhao Mengfu has enormous significance for Chinese art history This work presents a new synthetic portrait of the artist s development from the 1280s to his death in 1322 and evaluates his pivotal role in the social political context in Yuan China as well as the development of the artist s self consciousness Shane McCausland s study features detailed interpretations of pictorial forms in light of historical changes and close readings of critical colophons many of which are appended to artworks but neglected as visual sources These readings are meant to stimulate visual analysis of the oeuvre as well as debate about the use of Tang 618 907 and other period modes as models for the Yuan renaissance The book challenges stereotypes portraying Zhao Mengfu as a traitor or careerist The historical background of dynastic change and Mongol rule is treated in a revisionist manner that aims to contextualize the traditional Chinese hostility towards Zhao Mengfu as a Yuan scholar official The concern here is for his development in the context of Mongol rule as a Chinese scholar artist This book will be a

must for scholars curators and other specialists in Chinese painting and calligraphy especially those focusing on Yuan dynasty and literati painting Shane McCausland is a lecturer in the history of Chinese art in the Department of Art and Archaeology at SOAS University of London

**The Gunpowder Age** Tonio Andrade, 2017-08-29 A first look at gunpowder's revolutionary impact on China's role in global history The Chinese invented gunpowder and began exploring its military uses as early as the 900s four centuries before the technology passed to the West But by the early 1800s China had fallen so far behind the West in gunpowder warfare that it was easily defeated by Britain in the Opium War of 1839-42 What happened In *The Gunpowder Age* Tonio Andrade offers a compelling new answer opening a fresh perspective on a key question of world history why did the countries of western Europe surge to global importance starting in the 1500s while China slipped behind Historians have long argued that gunpowder weapons helped Europeans establish global hegemony Yet the inhabitants of what is today China not only invented guns and bombs but also as Andrade shows continued to innovate in gunpowder technology through the early 1700s much longer than previously thought Why then did China become so vulnerable Andrade argues that one significant reason is that it was out of practice fighting wars having enjoyed nearly a century of relative peace since 1760 Indeed he demonstrates that China like Europe was a powerful military innovator particularly during times of great warfare such as the violent century starting after the Opium War when the Chinese once again quickly modernized their forces Today China is simply returning to its old position as one of the world's great military powers By showing that China's military dynamism was deeper longer lasting and more quickly recovered than previously understood *The Gunpowder Age* challenges long standing explanations of the so called Great Divergence between the West and Asia
