Kybalion Hermetic Philosophy originally published in 1908 under the pseudonym of the Three Initiates is a book claiming to be the essence of the teachings of Hermes Trismegistus Since 1908 it has served as a study of basic hermetic teachings that outline an ageless wisdom In ancient times and even today these teachings were not understood by the lay person but were readily understood by students after the axioms and principles had been explained and exemplified by the Hermetic Initiates and Masters to their Neophytes The purpose of this work is not the enunciation of any special philosophy or doctrine but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study Our intent is not to erect a new Temple of Knowledge but rather to place in the hands of the student a Master Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered The Kybalion *The Kybalion: Centenary Edition* Three Initiates,2018-01-30 The most popular occult work of the twentieth century now in a hardbound edition that evokes the original volume with a new introduction by scholar of mysticism Richard Smoley For generations readers have debated the origins and studied the knowledge of this mysterious exploration of Hermetic wisdom attributed to Three Initiates Now in its second century The Kybalion is restored to hardcover in a commemorative volume that evokes the appearance of the occult landmark s first edition The new introduction by Richard Smoley a celebrated scholar of mystical traditions makes this a historical keepsake **The Book of Hermetica** Three Initiates,Hermes Trismegistus,2024-02-06 The Book of Hermetica is the definitive collection of the most pivotal texts of hermetic wisdom It includes the three most critical books in the cannon Corpus Hermeticum The Emerald Tablet and The Kybalion Corpus Hermeticum and The Emerald Tablet are both attributed to Hermes Trismegistus and were written between 100 300 BCE These works form the foundation of hermetic wisdom expounding on philosophy religion magic and alchemy The Kybalion was written much later in the 20th century and explores the seven basic hermetic principles Faithfully reproduced in The Book of Hermetica these esoteric writings have inspired great minds throughout the ages everyone from Newton and Milton to Leonardo da Vinci and Jung and modern readers will find their pages equally fascinating The Book of Hermetica is the perfect introduction to the mysteries of hermeticism and essential reading for anyone interested in understanding western mystical thought through the ages **Dark Pool of Light 3 Volume Set** Richard Grossinger,2012-12-18 In books like Embyogenesis and Embryos Galaxies and Sentient Beings author Richard Grossinger brought together the subjects of biological embryology and the esoteric process of human consciousness becoming embodied The embryo is the universe writing itself on its own body In Dark Pool of Light his latest creation Grossinger weaves neuroscience based behaviorism and the phenomenology of being and reality together with psychological and psychospiritual views of that single thing which is most difficult to understand or vindicate our own existence In 2008 Grossinger began studying with noted psychic teacher John Friedlander who helped him refine his vision of cerebral and somatic awareness to
