Arabic Grammar Kassem M. Wahba, Zeinab A. Taha, Manuela E. B. Giolfo, 2022-12-30 Foundational and comprehensive this volume provides a theoretical and practical overview of the current issues that dominate the field of teaching and learning Arabic grammar. Bringing together authorities on Arabic grammar from around the world, the book covers both historical contexts and current practices and provides principles, strategies, and examples of current Arabic grammar instruction across educational settings. Chapter authors offer a range of perspectives on teaching approaches implementing research findings in the classroom and future challenges. A much needed volume to help students, teachers, and teacher educators develop their knowledge and skills, it addresses the most salient and controversial issues in the field, including what grammar to teach, how much grammar to teach, how to address grammar in content-based or communication-based classroom, and how to teach variation in grammar. This resource is ideal for preservice Arabic language teachers as well as Arabic language professors and researchers.

Criteria for Appraising Computer-based Simulations for Teaching Arabic as a Foreign Language Richard Dabrowski, 2005 This was an exploratory study aimed at defining more sharply the pedagogical and practical challenges entailed in designing and creating computer-based game-type simulations for learning Arabic as a foreign language. For those with neither access to study abroad nor classroom instruction, or for those whose classroom instruction emphasizes grammar translation over communication, the possibility now exists to learn to speak a foreign language in a virtual environment. The basic pedagogical premise of digital game-based learning is that it allows training to occur past the point of mastery to overlearning through the creation of an engaging virtual environment where the learner doesn't tire of the instruction. Kaplan Sabol Wisner as stress diminishes the performance of all skills, overlearning is essential for effective use of their limited knowledge. Effective use of the language would foster confidence in the students of themselves as language learners that would ease their subsequent study of more difficult aspects of the language. The latest advances in computer technology have made computer-based language instruction both an ever more authentic approximation of a study abroad experience and something which potentially can be widely and conveniently distributed. Abstract from DTIC web site.

The Arabic Language in America Aleya Rouchdy, 1992 As in any other situation of languages in contact, Arabic spoken in the United States is changing under the influence of English. It has incorporated different linguistic innovations and interference from English occurs on the various linguistic levels. However, in many cases, this interference does not lead to language attrition but rather to the creation of an ethnic language with special uses understood only by members of the Arab American community. Developed out of Aleya Rouchdy's own involvement and teaching of Arabic in the United States, this book, the first of its kind, is devoted to the full range of Arabic in America. In Part I, contributors discuss borrowing and the changes occurring on the various linguistic levels of Arabic and the social factors that have contributed to these changes. Other chapters in Part I deal with code switching between English and Arabic. Part II examines the shift toward English and the maintenance of Arabic as well as the attitudes that speakers display toward Arabic. Chapters in Part III are pedagogical in

nature The essays explore the history of the study of Arabic in the United States and examine methods and materials used in the teaching of Arabic as well as some of the theoretical and practical implications associated with these different approaches Primarily for readers with special interest in Arab immigration settlement and ethnicity The Arabic Language in America will also engage the attention of sociologists social historians anthropologists linguists and sociolinguists who will find the book relevant for their work Bulletin MLSA University of Michigan.
