Records and Briefs** California (State)., Nursing Research: Reading, Using and Creating Evidence, Third Edition Janet Houser, 2013-10-29 Nursing Research Reading Using and Creating Evidence Third Edition is an essential text for nursing research courses This new edition features expanded coverage on the appraisal and use of evidence in the profession of Nursing As in past editions the text will maintain its traditional focus on research while weaving in an emphasis on evidence based practice The text will keep its focus on how to conduct research rather than how to apply it Nursing Research Reading Using and Creating Evidence Third Edition will also focus on the dissemination of information and research best practices as conferences and other such resources become more available to students and professionals The text is intended as an undergraduate resource for pre licensure or for the RN to BSN students taking nursing research or evidence based practice classes **Elements of Architecture** Mikkel Bille, Tim Flohr Sorensen, 2016-02-26 Elements of Architecture explores new ways of engaging architecture in archaeology It conceives of architecture both as the physical evidence of past societies and as existing beyond the physical environment considering how people in the past have not just dwelled in buildings but have existed within them The book engages with the meeting point between these two perspectives For although archaeologists must deal with the

presence and absence of physicality as a discipline which studies humans through things to understand humans they must also address the performances as well as temporal and affective impacts of these material remains The contributions in this volume investigate the way time performance and movement both physically and emotionally are central aspects of understanding architectural assemblages It is a book about the constellations of people places and things that emerge and dissolve as affective mobile performative and temporal engagements This volume juxtaposes archaeological research with perspectives from anthropology architecture cultural geography and philosophy in order to explore the kaleidoscopic intersections of elements coming together in architecture Documenting the ephemeral relational and emotional meeting points with a category of material objects that have defined much research into what it means to be human Elements of Architecture elucidates and expands upon a crucial body of evidence which allows us to explore the lives and interactions of past societies
