The Elephant Tourism Business Eric Laws, Noel Scott, Xavier Font, John Koldowski, 2020-11-23 Elephant tourism is a growing activity in many countries across Asia and Africa and is popular with tourists from all parts of the world Elephant tourism has grown rapidly providing the only viable way for elephants and their owners to survive since the banning of logging Old logging camps have been developed into sanctuaries for some elephants but many other camps were established as entertainment centres resulting in serious welfare issues for the elephants and their mahouts The profits from elephant tourism in Asia have encouraged African operators to follow a similar business model This book draws attention to the need for a comprehensive and rigorous focus on local solutions to improve the welfare of captive elephants their mahouts and local residents and to enhance tourists experiences of elephant tourism

Children's Book Review Index: Title index, 1985 **An Unfortunate Place to Die** Allan Taylor, 2018-03-29 The Islamic terrorist group al Shabaab has overrun Somalia and is believed to be planning a major terrorist attack across the border in neighboring Kenya US officials are concerned the attack may be aimed at an American target in retaliation for recent drone strikes the US has been conducting against the terrorists As part of an all out effort to thwart the attack the US sends a young intelligence agent Alex Morgan to Mombasa the center of Kenya's Muslim community where al Shabaab is known to have a covert presence to try to uncover information about the group's plans But soon after he arrives Alex and a young French woman he meets run afoul of both al Shabaab and the notoriously corrupt Mombasa police causing Alex to wonder whether he has in fact been sent into a trap Caught in a web of terror and deceit Alex and the young woman must somehow find a way out with their lives hanging in the balance Keywords Spy Thriller Africa Terrorist Espionage Lies Murder Sex Corruption Betrayal *Settler Ecologies* Charis Enns, Brock Bersaglio, 2024-05-01 *Settler Ecologies* tells the story of how settler colonialism becomes memorialized and lives on through ecological relations Drawing on eight years of research in Laikipia Kenya Charis Enns and Brock Bersaglio use immersive methods to reveal how animals and plants can be enrolled in the reproduction of settler colonialism The book details how ecological relations have been unmade and remade to enable settler colonialism to endure as a structure in this part of Kenya It describes five modes of violent ecological transformation used to prolong structures of settler colonialism eliminating undesired wild species rewilding landscapes with

more desirable species to settler ecologists selectively repeopling wilderness to create seemingly more inclusive wild spaces and capitalize on biocultural diversity rescuing injured animals and species at risk of extinction to shore up moral support for settler ecologies and extending settler ecologies through landscape approaches to conservation that scale wild spaces Settler Ecologies serves as a cautionary tale for future conservation agendas in all settler colonies While urgent action is needed to halt global biodiversity loss this book underscores the need to continually question whether the types of nature being preserved advance settler colonial structures or create conditions in which ecologies can otherwise be re made and flourish
