Good Life Album Of Helen Scott Nearing:

The Good Life of Helen K. Nearing Margaret O. Killinger, 2007 A lively biography of the famous homesteader and author Helen Knothe Nearing *The Good Life Album of Helen & Scott Nearing* Helen Nearing, 1974 Loving and Leaving the Good Life Helen Nearing, 1993-03-01 Helen and Scott Nearing authors of *Living the Good Life* and many other bestselling books lived together for 53 years until Scott's death at age 100 *Loving and Leaving the Good Life* is Helen's testimonial to their life together and to what they stood for self sufficiency generosity social justice and peace In 1932 after deciding it would be better to be poor in the country than in the city Helen and Scott moved from New York City to Vermont Here they created their legendary homestead which they described in *Living the Good Life How to Live Simply and Sanely in a Troubled World* a book that has sold 250 000 copies and inspired thousands of young people to move back to the land The Nearings moved to Maine in 1953 where they continued their hard physical work as homesteaders and their intense intellectual work promoting social justice Thirty years later as Scott approached his 100th birthday he decided it was time to prepare for his death He stopped eating and six weeks later Helen held him and said goodbye *Loving and Leaving the Good Life* is a vivid self portrait of an independent committed and gifted woman It is also an eloquent statement of what it means to grow old and to face death quietly peacefully and in control At 88 Helen seems content to be nearing the end of her good life As she puts it To have partaken of and to have given love is the greatest of life's rewards There seems never an end to the loving that goes on forever and ever *Loving and leaving* are part of living Helen's death in 1995 at the age of 92 marks the end of an era Yet as Helen writes in her remarkable memoir When one door closes another opens As we search for a new understanding of the relationships between death and life this book provides profound insights into the question of how we age and die

Shi,2001 Looking across three centuries of want and prosperity war and peace this work introduces a cast of practitioners and proponents of the simple life among them Thomas Jefferson Scott and Helen Nearing Jimmy Carter and Jane Addams It finds that nothing is simple about our mercurial devotion to the ideal of plain living and high thinking Though we may hedge a bit in practice and are now and then driven by motives no deeper than nostalgia this work stresses that the diverse efforts to avoid anxious social striving and compulsive materialism have been essential to the nation s spiritual health At Home in Nature Rebecca Kneale Gould,2005-10-24 Gould s attention to the ironies and ambivalences that abound in the practice of homesteading provides fresh and insightful perspective Beth Blissman Oberlin College This luminously written ethnography of the worlds that homesteaders make significantly broadens our understanding of modern American religion In richly textured descriptions of the everyday lives and work of the homesteaders with whom she lived Gould helps us understand how the tasks of clearing land making bread and building a garden wall were ways of taking on the most urgent issues of meaning and ethics Robert A Orsi Harvard University This is a fascinating authoritative and accessible look at one of America s most important subcultures If you ever get around to building that cabin in the woods or especially if you don t you ll want this volume on the bookshelf Bill McKibben author of *Wandering Home* A Long Walk Across America s Most Hopeful Landscape Rebecca Gould s compelling book on American homesteading brings the study of the religion nature connection in the U S to a new place Catherine L Albanese author of *Nature Religion in America* From the Algonkian Indians to the New Age Gould provides brand new data and sheds new interpretive light on familiar figures and movements *At Home in Nature* is a model of how to seamlessly blend ethnography and history Bron Taylor University of Florida editor of the *Encyclopedia of Religion and Nature* *Less is More* Cecile Andrews,Wanda Urbanska,2009-09-01 A collection of essays consider such topics as creating a cool lifestyle for a warming planet the connection between faith and environmental protection and working toward creating a carbon friendly economy
