Youth Culture in Global Cinema Timothy Shary, Alexandra Seibel, 2009-01-27 Coming of age is a pivotal experience for everyone. So it is no surprise that filmmakers around the globe explore the experiences of growing up in their work. From blockbuster US movies such as the Harry Potter series to thought provoking foreign films such as *Bend It Like Beckham* and *Whale Rider*, films about youth delve into young people's attitudes, styles, sexuality, race, families, cultures, class, psychology, and ideas. These cinematic representations of youth also reflect perceptions about youth in their respective cultures, as well as young people's worth to the larger society. Indeed, as the contributors to this volume make plain, films about young people open a very revealing window on the attitudes and values of cultures across the globe. *Youth Culture in Global Cinema* offers the first comprehensive investigation of how young people are portrayed in film around the world. Eighteen established film scholars from eleven different national backgrounds discuss a wide range of films that illuminate the varied conditions in which youth live. The essays are grouped thematically around the issues of youthful resistance and rebellion, cultural and national identity, including religion and politics, and sexual maturation, including gender distinctions and coming of age, queer. Some essays engage in close readings of films, while others examine the advertising and reception of films or investigate psychological issues. The volume concludes with filmographies of over 700 youth-related titles arranged by nation and theme.

Screen Dreams Clare Whatling, 1997 From Streep to Foster, Maidens in Uniform to Heavenly Creatures, Whatling reinvestigates mainstream feminist film theory, provides an engaging introduction to a complex area, whilst drawing on the relationship between an audience and a film text.

Lesbian Discourses Veronika Koller, 2008-02-19 *Lesbian Discourses* is the first book-length treatment of lesbian text and discourse. It looks at what changing images of community, American and British lesbian authors have communicated since 1970, how this change can be traced in texts such as pamphlets, magazines, and blogs, and why this change has taken place. At the heart of the book is a detailed linguistic analysis, which is embedded in a discussion of the relevant socio-political contexts and discourse practices, and supplemented by interview data. The book can more generally be read as an example of how to do textual analysis in social research, in particular how to engage in the discourse, historical, and socio-cognitive study of collective identity. Despite its text-centered approach, the book avoids being overly technical and will therefore be of interest not only to postgraduate students and researchers in linguistics, but also to those in anthropology, history, and sociology, especially women's gender studies.
