Good Place Guide Urban Design In Britain And Ireland:

The Good Place Guide John Billingham,2002 What makes a space be it a city neighborhood park square beach or market comfortable for people to use and visit Just look through these beautiful color photographs of 150 splendidly designed places and see Each one has been created or significantly altered over the last 50 years The Waterfront in Cardiff Wales the Barbican at Plymouth Concert Square in Liverpool these and many other places provide eye opening examples of fine design and planning for anyone concerned with urban spaces as well as those of us who must live in them **Urban Design** Jon Lang,2006-08-11 Urban Design provides a comprehensive and accessible introduction to urban design presenting a 3 dimensional model with which to categorise the processes and products involved It not only defines the subject but also considers the future direction of the field and what can be learned from the past 50 international case studies demonstrate the variety of urban design efforts that have occurred in recent history **Urban Design Futures** Malcolm Moor,Jon Rowland,2006-09-27 The last decade has seen the rise of urban design which has taken a central position in the new agendas for urban regeneration and renaissance Urban design has moved from marginality to mainstream The principles espoused by urban designers over the past thirty years are now accepted as key to a better urban environment and as we move towards greater sustainability different ideas are emerging that are challenging some of the accepted urban design norms urban design is at a watershed Urban Design Futures presents essays from an international cast of authors to review progress and explore emerging ideas should urban design reflect the future rather than recreate the past What are the new driving forces that will shape urban living and hence urban design in the future This book explores new concepts and points the way towards a series of urban design paradigms for the twenty first century Convivial Urban Spaces Henry Shaftoe,2012-05-04 Despite developments in urban design during the last few decades architects urban planners and designers often continue to produce areas of bland commercially led urban fabric that deliver the basic functional requirements of shelter work and leisure but are socially unsustainable and likely generators of future problems Convivial Urban Spaces demonstrates that successful urban public spaces are an essential part of a sustainable built environment Without them we are likely to drift into an increasingly private and polarized society with all the problems that would imply Taking a multidisciplinary approach this book draws on research and the literature and theory of environmental psychology and urban design to advance our understanding of what makes effective public spaces Practical guidance is illustrated with case studies from the UK Spain Germany and Italy The result is a practical and clearly presented guide to urban public space for planners architects and students of the urban environment **Town & Country Planning** ,2003 **The Architects' Journal** ,2003 Norway Ingerid Helsing Almaas,2002 Around 100 projects have been chosen to represent an architectural tradition of great quality and innovation in Norway The projects described are predominantly the work of young architects working within a context of prosperity and relatively cheap and plentiful land The Housing Design Handbook David

Levitt,2012-12-06 How well have architects succeeded in building housing and what lessons can be learned from their triumphs and failures The Housing Design Handbook will give you a complete understanding of what makes successful housing design Through the analysis of work by Levitt Bernstein and a wide range of other UK practices it illustrates good design principles and accumulates a wealth of knowledge in a readily accessible format for the first time Written by a recognised authority in the field the book provides a range of cases to illustrate the way that different issues in the design of housing have been approached and with what degree of success a review of the place of housing as the most significant built form in the urban landscape an understanding of the importance of achieving a sense of place as the bedrock of social continuity a discussion of how flexibility might be achieved in order to accommodate future changes in housing need if wholesale demolition and replacement is to be avoided more recent examples which explore why certain social groupings are more resistant to design innovation than others and why there has been such an architectural breakthrough in market led higher density urban living David Levitt examines the ideas behind the schemes and assesses how successful and sustainable those ideas have proved making this an essential reference for professionals and students practicing and studying the design and commissioning of housing

changes to planning gain and the introduction of the Community Infrastructure Levy and new initiatives across a number of other themes Notes on further reading are provided and at the end of the book there is an extensive bibliography maintaining its reputation as the bible of British planning

Trees in Towns and Cities Mark Johnston, 2015-08-31 This is the first book on the history of trees in Britain's towns and cities and the people who have planted and cared for them It is a highly readable and authoritative account of the trees in our urban landscapes from the Romans to the present day including public parks private gardens streets cemeteries and many other open spaces It charts how our appreciation of urban trees and woodland has evolved into our modern understanding of the many environmental economic and social benefits of our urban forests A description is also given of the various threats to these trees over the centuries such as pollution damage during the Industrial Revolution and the recent ravages of Dutch elm disease Central and local government initiatives are examined together with the contribution of civic and amenity societies However this historical account is not just a catalogue of significant events but gives a deeper analysis by exploring fundamental issues such as who owned those treed landscapes why they were created and who had access to them The book concludes with the fascinating story of how trees have contributed to efforts to improve urban conditions through various visions of urban green such as the model villages garden cities garden suburbs and the new towns Studies in garden and landscape history have often been preoccupied with those belonging to the rich and powerful This book focuses particularly on working people and the extent to which they have been able to enjoy urban trees and greenspace It will appeal to a general readership especially those with an interest in garden history heritage landscapes and the natural and built environment Its meticulous referencing will also ensure it is much appreciated by students and academics pursuing further reading and research It is written by an internationally renowned arboriculturist who combines a passion for trees with a sound understanding of British social and cultural history

Urban Planning and Real Estate Development John Ratcliffe, Michael Stubbs, Miles Keeping, 2021-07-29 This fourth edition of *Urban Planning and Real Estate Development* guides readers through the procedural and practical aspects of developing land from the point of view of both planner and developer The twin processes of planning and property development are inextricably linked it is not possible to carry out a development strategy without an understanding of the planning process and equally planners need to know how real estate developers do their job The planning system is explained from the increasing emphasis on spatial planning at a national local and neighbourhood level down to the detailed perspective of the development management process and the specialist requirements of historic buildings and conservation areas At the same time the authors explain the entire development process from inception through appraisal valuation and financing to completion Sustainability and corporate social responsibility and their impact on planning and development are covered in detail and the future consequences of the COVID 19 pandemic are explored in new opening and closing chapters setting the text in a global context Written by a team of authors with many years of academic professional and research experience and

illustrated throughout with practical case studies and follow up resources this book is an invaluable textbook for real estate and planning students and helps to meet the requirements of the RICS and RTPI Assessment of Professional Competence

Architecture, Space and Memory of Resurrection in Northern Ireland Mohamed Gamal Abdelmonem, Gehan Selim, 2019-04-25 Northern Ireland has a complex urbanism with multilayered socio spatial politics In this environment issues of communication self representation and expression of identity are central to the experience of urban space and architecture where the dichotomy of division and shared living are spatially exercised in everyday life Unlike other studies in the area this book focuses on the everyday experiences of local communities in both public and private spheres issues of shareness challenging conventional approaches to divided cities The book aims to layer its narratives of architectural and social developments as an urban experience in post conflict settings over the past two decades

Urban forests: a global perspective Borelli, S., Conigliaro, M., Di Cagno, F., 2023-10-16 Urban forestry is not a one size fits all solution each city and region with its own unique set of challenges and opportunities requires tailored strategies In recognition of the diversity and distinctiveness of urban forestry issues and their potential for mitigating environmental and socioeconomic inequality across the globe FAO has asked experts around the world to share their views on how urban forests and trees are perceived and managed in their respective geographical areas bringing together a broad range of regional perspectives The primary goal of this publication is to provide a comprehensive overview of the current state of urban forestry worldwide By showcasing the regional perspectives insights experiences and case studies in urban and peri urban forestry UPF we hope to inspire individuals communities and policymakers to reimagine their relationships with urban green spaces

Urban Planning and the British New Right Philip Allmendinger, Huw Thomas, 2002-01-22 Did the 1980s and 1990s see the death of planning Exposing the myth that has grown up around Thatcherism leading experts from a wide range of land use policy areas examine the changes that were brought about in planning and the environment during the 1980s and 1990s and argue that much less was achieved than expected Urban Planning and the British New Right questions common assumptions about planning practices under Thatcherism concluding that the complex relationship of power between central local and national government requires a sensitivity to change that is inclusive rather than doctrinal This is a book that says as much about the administration institutions and processes of planning as it does about Mrs Thatcher s attempts to change it
