**When the Future Came: The Collapse of the USSR and the Emergence of National Memory in Post-Soviet History Textbooks** Li Kurbatov, Sergiy Bennich-Björkman, 2019-11-30 This captivating volume brings together case studies drawn from four post Soviet states Russia Ukraine Belarus and Moldova The collected papers illustrate how the events that started in 1985 and brought down the USSR six years later led to the rise of fifteen successor states with their own historicized collective memories The volume's analyses juxtapose history textbooks for secondary schools and universities and how they aim to create understandings as well as identities that are politically usable within their different contexts From this emerges a picture of multiple perestroika's and diverging development paths Only in Ukraine a country that recently experienced two popular uprisings the Orange Revolution and the Revolution of Dignity the people themselves are ascribed agency and the power to change their country In the other three states elites are instead presented as prime movers of society as is historical determinism The volume's contributors are Diana Benchechi Andrei Dudchik Liliya Erushkina Marharyta Fabrykant Alexandr Gorylev Andrey Kashin Alla Marchenko Valerii Mosneagu Alexey Rusakov Natalia Tregubova and Yuliya Yurchuk

**The Strange Death of Soviet Communism** Nikolas K. Gvosdev, 2017-07-05 The collapse of communism marked the close of an era of world history What took place in the Soviet Union between 1917 and 1991 in the eyes of its proponents constituted a great experiment in the application of new modes of organization to social life the largest such experiment in history The Strange Death of Soviet Communism which first appeared as a special issue of The National Interest brings together leading scholars of Soviet history who show why the experiment failed and how it has destroyed the laboratory of socialist utopias Francis Fukuyama considers the role of long term social and intellectual modernization while Vladimir Kontorovich examines the related factor of economic stagnation Myron Rush then analyzes the accidental and precedent breaking accession and leadership of Gorbachev Charles Fairbanks looks at the more general factors of change and rigidity within communist political culture Chapters by Peter Reddaway and Stephen Sestanovich conclude this section by assessing respectively the role of internal pressure from Soviet citizens and external pressure from the West The next chapters deal with why the West was surprised by the communist collapse This involves a critique of Western Sovietology both for its scholarly failures and its ideological prejudices Here Peter Rutland and William Odom deal with social science interpretations of the Soviet Union while Robert Conquest and Richard Pipes reflect on historians readings of Soviet history Martin Malia then offers a comparative assessment of both In the third section Irving Kristol and Nathan Glazer discuss communism in relation to the intellectuals in

the West Although the authors are united in their anti communist stance the volume is diverse in its perspectives and assessments of Soviet communism Taken together these contributions show that the debate on the legacy of communism and a subsequent rethinking of modern history is just beginnin **The Future of U.S.-Soviet Relations** United States.

*Future Survey Annual 1990* Michael Marien,1990-01-01 The Future: International scene ,1989 Gorbachev's New Thinking and Third World Conflicts JiÅñ Valenta, Frank Cibulka, Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries Despite countless studies of Soviet U S relations and U S relations with the Third World the area of Soviet relations with the Third World has been left relatively undeveloped This is the first of several volumes intended to add to our knowledge of what the series editor Jiri Valenta characterizes as East South relations In this new era of cooperation and diplomacy the superpowers are working to resolve regional conflicts in and around Afghanistan Nicaragua Angola and Cambodia Such efforts are exceedingly complex since

they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam This volume addresses a number of such conflicts In addition to those already mentioned conflicts in Ethiopia Namibia and the Philippines are discussed and their implications for Western policy makers are reviewed As the contributors emphasize despite current Soviet emphasis on peaceful solutions to regional conflicts Gorbachev's New Thinking in foreign affairs is still decidedly selective In some cases the Soviet Union will actually encourage close ties with regional Third World powers as it has with India It is also too much to expect that the Soviet Union much less Cuba and Vietnam will completely cut ties to revolutionary allies worldwide That said the 1990s will undoubtedly be characterized by new Soviet foreign policy styles Their shape and form is the subject of this book It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World Contributors include Vernon Aspaturian Bhabani Sen Gupta William E Griffith Jerry F Hough Douglas Pike Howard Wiarda AH T Sheikh Sabahuddin Kushkaki Colin Legum H de V du Toit Khien Theeravit Frank Cibulka Alvaro Taboada Charles William Maynes W Bruce Weinrod Jiri Valenta     Gorbachev's USSR Uri Ra'anani, 1990-06-18 A collection of papers presented at Boston University by leading Sovietologists evaluating the meaning of developments in the USSR and their impact since Gorbachev became head of government The consensus is that the USSR is facing a systemic crisis affecting ideology leadership and economics     *Perestroika Era Politics: The New Soviet Legislature and Gorbachev's Political Reforms* Robert T. Huber, Larry D Kelley, 2016-09-16 This book is an evaluation of the new legislative politics in the Soviet Union The contributors examine the uneven progress of electoral and constitutional reform the composition organisation staffing and procedures of the Congress of People's Deputies and the Supreme Soviet the development of factions movements and parties on the left on the right and of the nationalist bent the path of executive legislative relations and case studies of the role of the legislature on domestic and foreign policy realms This book should prove of interest to students of Soviet politics political parties and legislative politics as well as for anyone interested in the struggle of political ideas forces and institutions in the USSR today     *Soviet Constitutional Crisis* Robert Sharlet, 2016-06-16 Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev Andropov and Chernenko to the radical legal restructuring of the Gorbachev years Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR Sharlet a noted authority on Soviet law and constitutional development demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development In effect he argues one of Gorbachev's most durable achievements may be his redefinition of Soviet politics into a legal idiom along with his relocation of policymaking from behind the closed doors of Party conclaves into the more open emergent arena of constitutional government In analyzing the politics of law from the Brezhnev era to the rise of Yeltsin the author takes account of the war of laws the symbolic uses of the Soviet constitution and even the fact that the leaders of the failed coup

attempted to justify their seizure of power on constitutional grounds Constitutionalism has sufficiently suffused Soviet public life the book concludes that most of the sovereign republics as successors to the former USSR have begun designing their futures to varying degrees in constitutional forms     Perestroika Ken Coates,1988     United States-Soviet Relations, 1991 United States.
