El Segundo Mesmas:

A Sense of Brutality Carlos Alberto Sánchez, 2020-09-01 Contemporary popular culture is riddled with references to Mexican drug cartels, narco culture and drug trafficking. In the United States, documentary filmmakers, journalists, academics and politicians have taken note of the increasing threats to our security coming from a subculture that appears to feed on murder and brutality while being fed by a romanticism about power and capital. Carlos Alberto Sánchez uses Mexican narco culture as a point of departure for thinking about the nature and limits of violence, culture and personhood. *A Sense of Brutality* argues that violent cultural modalities of which narco culture is but one, call into question our understanding of violence as a concept. The reality of narco violence suggests that violence itself is insufficient to capture it; that we need to redeploy and reconceptualize brutality as a concept that better captures this reality. Brutality is more than violence, other to cruelty and distinct from horror and terror, all concepts that are normally used interchangeably with brutality but which, as the analysis suggests, ought not to be. In narco culture, the normalization of brutality into everyday life is a condition upon which the absolute erasure or derealization of people is made possible. The study is original, bringing a wide range of voices into dialogue to present a problem that is pressing and deserving of careful analysis. The study will contribute to the field of Latin American philosophy in important ways. This is the only book by a philosopher on the topic of narco culture, and I think it's an important contribution to a topic that should be addressed by philosophers. Adaptación a la variabilidad climática Isabel Cristina Bolaños Portilla, Inés Restrepo Tarquino, 2024-08-26 A nivel rural, las microcuencas abastecedoras están sufriendo los impactos de la variabilidad climática, lo cual agudiza los conflictos sociales y ambientales por la escasez de agua, como en el caso de la mayoría de acueductos rurales colombianos. Adicionalmente, la prestación de servicios de agua y saneamiento, la gestión de recursos y la toma de decisiones para adaptarse a los cambios del clima se ven afectados por la brecha existente entre zona urbana y rural. La disminución de la oferta de los servicios ecosistémicos hídricos incrementa la vulnerabilidad del sistema humano y natural concebido en esta investigación como el socioecosistema. En Colombia, el marco regulatorio del abastecimiento y usos múltiples del agua en la zona rural es todavía incipiente, así como lo es el estudio integrado de variables del socioecosistema a partir del cual se puedan plantear opciones de adaptación para los planeadores de las cuencas. Por ello, esta investigación tuvo como propósito contribuir con la regulación de servicios ecosistémicos hídricos en microcuencas abastecedoras de acueductos rurales mediante el desarrollo de un modelo conceptual como herramienta para la toma de decisiones en adaptación con enfoque de protección al socioecosistema. Este libro presenta los resultados de la investigación doctoral con beca financiada por Colciencias, que propone herramientas metodológicas validadas y ajustadas a contextos reales rurales, con las cuales se puedan conocer los puntos críticos que afectan directamente el abastecimiento y que, mediante la acción de los planeadores de las cuencas, puedan tener opciones de adaptación a la variabilidad climática, protegiendo los servicios ecosistémicos hídricos y disminuyendo la vulnerabilidad de
