novels of the Boom period 1962-1967 attracted a world readership to Latin American literature but Latin American writers had already been engaging in the modernist experiments of their North American and European counterparts since the turn of the twentieth century. Indeed the desire to be modern is a constant preoccupation in twentieth century Spanish American literature and thus a very useful lens through which to view the century's novels. In this pathfinding study Raymond L. Williams offers the first complete analytical and critical overview of the Spanish American novel throughout the entire twentieth century. Using the desire to be modern as his organizing principle he divides the century's novels into five periods and discusses the differing forms that the modern took in each era. For each period Williams begins with a broad overview of many novels, literary contexts and some cultural debates followed by new readings of both canonical and significant non-canonical novels. A special feature of this book is its emphasis on women writers and other previously ignored and/or marginalized authors including experimental and gay writers. Williams also clarifies the legacy of the Boom, the Postboom and the Postmodern as he introduces new writers and new novelistic trends of the 1990s.

A Companion to Magical Realism Stephen M. Hart, Wen-chin Ouyang, 2005

The Companion to Magical Realism provides an assessment of the world wide impact of a movement which was incubated in Germany, flourished in Latin America and then spread to the rest of the world. It provides a set of up to date assessments of the work of writers traditionally associated with magical realism such as Gabriel Garcia Marquez in particular, his recently published memoirs, Alejo Carpentier, Miguel Angel Asturias, Juan Rulfo, Isabel Allende, Laura Esquivel and Salman Rushdie as well as bringing into the fold new authors such as W.B. Yeats, Seamus Heaney, Jos Saramago, Dorit Rabinyan, Ovid Mar, a Luisa Bombal, Ibrahim al Kawni, Mayra Montero, Nakagami Kenji, Jos Eustasio Rivera and Elias Khoury discussed for the first time in the context of magical realism. Written in a jargon free style and with all quotations translated into English, this book offers a refreshing new interdisciplinary slant on magical realism as an international literary phenomenon emerging from the trauma of colonial dispossession. The companion also has a Guide to Further Reading.

Stephen Hart is Professor of Hispanic Studies, University College London and Doctor Honoris Causa of the Universidad Nacional Mayor de San Marcos, Lima, Peru. Wen-chin Ouyang lectures in Arabic Literature and Comparative Literature at the School of Oriental and African Studies, London.

The National Union Catalogs, 1963-1964 *Deconstructing Paradise* Patricia E. Reagan, 2016-06-23

Deconstructing Paradise investigates Christian symbols that appear in Latin American Literature in an inverted way. The texts under investigation invert the Christian center to generate a social, political, cultural or even artistic commentary. In doing so, each text underscores a search for meaning that rejects the centering presence of the more

traditional Christian focus that has long validated humankind's existence both in society and in literature. As *Deconstructing Paradise* examines, finding a unified center around which to construct meaning is no longer possible, although the search for meaning persists in the inverted Christian center. The first three chapters analyze the trifecta of novels that offer a full allegory of inverted Christian symbolism, including Miguel ngel Asturias' *El Se or Presidente*, Juan Rulfo's *Pedro P ramo*, and Jos Donoso's *El lugar sin l mites*. Chapters Four and Five focus on inverted Christ and inverted Judas figures in multiple novels and short fiction. As many Latin American literary critics affirm, it is increasingly difficult to categorize fiction after the Boom, although even the usefulness of these categories is ultimately questionable. Literary critics now look for patterns, and *Deconstructing Paradise* offers one such pattern by identifying a trend in an impressive scope of the well-known authors of twentieth-century Latin American literature while also tracing this pattern back to nineteenth-century precursors. *Deconstructing Paradise* offers a unique and comprehensive look at a significant trend that will undoubtedly foment new ideas and paths of study in contemporary Latin American literature.

Central American Avant-Garde Narrative: Literary Innovation and Cultural Change (1926-1936) Adrian Taylor Kane, 2014-09-08. This book is in the Cambria Studies in Latin American Literatures and Cultures Series. General editor Rom n de la Campa, University of Pennsylvania. *Central American Avant-Garde Narrative* is an exemplary work of literary criticism that re-envisioning the canon of Central American literature and is destined to set a new standard for ethical, comprehensive research. Specialists and students, after reading this work, will have a clear understanding as to why prose fiction by certain lesser-known writers, Max Jim nez, Flavio Herrera, and Rogelio Sin n from this region, needs to be rescued from oblivion and concomitantly why stories and novels by one of Hispanic America's most accomplished authors, Miguel ngel Asturias, should be reexamined with an innovative interdisciplinary perspective. It also elucidates very effectively the aesthetic divergences of literary works of the Latin American and European avant-garde. Most importantly, readers will appreciate the author's carefully crafted definitions of the basic terminology: positivism, modernismo, Surrealism, etc., necessary for analyzing Central American avant-garde narrative and for coming to a fuller understanding, the best I have ever read of how and why Vanguardists rejected positivism's racist, oligarchical values and incorporated surrealist techniques in the case of Asturias as a form of cultural exploration and continued resistance to the effects of colonialism, necessary to conjure complex realities of Guatemalan culture, especially with regard to this country's indigenous population. Steven White, Lewis Professor of Modern Languages, St. Lawrence University, and editor of *El consumo de lo que somos: muestra de poes a ecol gica hisp nica contempor nea*. This is the first book study on Vanguardia narrative of Central America in the early twentieth century and an important addition to Latin American scholarship. Literary production in the 1920s is greatly overlooked due to international fanfare around the Boom of the 1960s, but in fact, avant-garde novelists influenced writers throughout the twentieth century. The chapters are very readable, and the introduction is an excellent critical guide for those unacquainted with this era. Elizabeth Coonrod, Mart nez Professor and Director, Center for

Hybrid Nations Patricia Lapolla Swier, 2009 This book is an interdisciplinary study that addresses the critical role that gender plays in the formation of national identities in Latin America that are negotiated and challenged within extreme struggles for power This study which traverses the national landscapes of Argentina Cuba Venezuela and Guatemala and covers the time span between 1837 and 1946 is linked by the author's common strategy of employing gender codes in order to challenge overtly masculinist hegemonic political orders One of the goals of this investigation is to explore the fissures that surface as a result of the ongoing fluctuations of gender codes due in part to the diverse shifting of institutions of power during the late nineteenth and early twentieth century By disturbing deleterious conceptualizations associated with femininity and masculinity one can embark upon new and open ended readings of these historical national texts and appreciate the groundbreaking strides of early revolutionary Latin American writers Publisher description
