OECD, Economic Commission for Latin America and the Caribbean, CAF Development Bank of Latin America, European Commission, 2021-12-02 The Latin American Economic Outlook 2021 Working Together for a Better Recovery aims to analyse and provide policy recommendations for a strong inclusive and environmentally sustainable recovery in the region The report explores policy actions to improve social protection mechanisms and increase social inclusion foster regional integration and strengthen industrial strategies and rethink the social contract to restore trust and empower citizens at all stages of the The Violence of Development Martin Mowforth, 2014-03-20 This book examines the failure of development in Central America where despite billions of dollars of development funding and positive indicators of economic growth poverty remains entrenched and violence endemic Martin Mowforth shows how development is predicated on force and systematic violence through which the world's most powerful governments financial institutions and companies punish the global south Crucially the analysis in The Violence of Development comes from many development project case studies and over sixty interviews with a range of people in Central America including nuns politicians NGO representatives trade unionists indigenous leaders and human rights defenders This book is a compelling synthesis of first hand research and development theory Beyond the numbers: How urban households in Central America responded to the recent **global crises** Manuel A. Hernandez, Miguel Robles, and Maximo Torero, Economics Of G20: A World Scientific Reference (In 2 Volumes) Manmohan Agarwal, 2020-03-20 The G20 or Group of Twenty is an international body established to manage the global economy and includes members from developing economies. This reference set examines the issues facing developing countries and studies the role that the G20 can play in light of continuing challenges and objectives to meet the UN's Sustainable Development Goals SDG Volume 1 sets out the state of the world economy and the intricate functions of the G20 in policy coordination and economic cooperation It also deals with the interests and strategies of some developing country members of the G20 These chapters answer questions such as what the country expects from the G20 the strategies adopted to achieve its ends the extent to which it sees itself as a representative of developing countries in its region and how does it seek to represent them The G20 has also centred its efforts around helping countries achieve the UN Sustainable Development Goals SDGs Volume 2 concentrates on trade issues and the prospects of achieving the SDGs In this context it examines whether the SDGs themselves are a desirable goal in terms of what the nature of development is which underlies Public Papers of the Presidents of the United States, George W. Bush United States. President these goals (2001-2009: Bush), 2003 Containing the public messages speeches and statements of the President 1956 1992 **Public** Papers of the Presidents of the United States United States. President, 2004 Containing the public messages speeches and statements of the President 1956 1992 The Art of Latina and Latino Elderhood Katynka Z. Martínez, Mérida M. Rúa, 2022-11-20 It is widely recognized that Latinos are a sizable and diverse population and that we are a young demographic The median age of non Hispanic white Americans is 58 whereas for Latinos it is 30 Footnote1 Perhaps this

partially explains the dearth of attention afforded to the topic of aging Latinos by academic scholarship and the mainstream media This special issue compellingly alerts us to the reality that there is a growing aging Latino population about which we know very little and that deserves our attention I am grateful to Katynka Mart nez and M rida R a for curating The Art of Latina and Latino Elderhood since this special issue responds to this significant gap in our knowledge with an exciting set of academic articles and creative contributions that challenges not only our assumptions about Latinos and aging but also our thinking on the types of contributions we include in our journal pages Katynka and M rida make the case that the story of Latino elderhood is best conveyed through a truly multidisciplinary and interdisciplinary approach bringing together public policy humanistic social sciences and artistic interventions So for the first time Latino Studies is pleased to feature a novel in progress a photo essay dial go an artist s monologue and a dialogue among actors alongside more traditional academic articles I think you will agree that this issue before you beautifully conveys why the subject of Latinos and aging should concern all of us and that it will powerfully spur other researchers and artists to take up the invitation to continue to share new evocative stories about the pleasures difficulties and complexities of Latinx later life Previously published in Latino Studies Volume 19 issue 4 December 2021 Congressional Record, Growth, Employment, and Poverty in Latin America Guillermo Cruces, Gary S. Fields, David Jaume, Mariana Viollaz, 2017 This book examines the links between economic growth changing employment conditions and the reduction of poverty in Latin America in the 2000s Our analysis answers the following broad questions Has economic growth resulted in gains in standards of living and reductions in poverty via improved labour market conditions in Latin America in the 2000s and have these improvements halted or been reversed since the international crisis of 2008 How do the rate and character of economic growth changes in the various employment and earnings indicators and changes in poverty and inequality indicators relate to each other Our contribution is an in depth study of the multi pronged growth employment poverty nexus based on a large number of labour market indicators twelve employment and earnings indicators and four poverty and inequality indicators for a large number of Latin American countries sixteen of them The book presents a positive and hopeful set of findings for the period 2000 to 2012 13 Economic growth took place and brought about improvements in almost all labour market indicators and consequent reductions in poverty rates But not all improvements were equal in size or caused by the same things Some macroeconomic factors were associated with changes in labour market conditions some of them always in the welfare improving direction and some others always in the welfare reducing direction Most countries in the region suffered a deterioration in at least some labour market indicators as a consequence of the international crisis of 2008 but the negative effects were reversed very quickly in most A.I.D. Research and Development Abstracts ,1992 Migration and Remittances during the Global countries Financial Crisis and Beyond Ibrahim Sirkeci, Jeffrey H. Cohen, Dilip Ratha, 2012-05-31 During the 2008 financial crisis the possible changes in remittance sending behavior and potential avenues to alleviate a probable decline in remittance flows

became concerns This book brings together a wide array of studies from around the world focusing on the recent trends in remittance flows The authors have gathered a select group of researchers from academic practitioner and policy making bodies Thus the book can be seen as a conversation between the different stakeholders involved in or affected by remittance flows globally The book is a first of its kind attempt to analyze the effects of an ongoing crisis on remittance flows globally Data analyzed by the book reveals three trends First The more diversified the destinations and the labour markets for migrants the more resilient are the remittances sent by migrants Second the lower the barriers to labor mobility the stronger the link between remittances and economic cycles in that corridor And third as remittances proved to be relatively resilient in comparison to private capital flows many remittance dependent countries became even more dependent on remittance inflows for meeting external financing needs There are several reasons for migration and remittances to be relatively resilient to the crisis First remittances are sent by the stock cumulative flows of migrants not only by the recent arrivals in fact recent arrivals often do not remit as regularly as they must establish themselves in their new homes Second contrary to expectations return migration did not take place as expected even as the financial crisis reduced employment opportunities in the US and Europe Third in addition to the persistence of migrant stocks that lent persistence to remittance flows existing migrants often absorbed income shocks and continued to send money home Fourth if some migrants did return or had the intention to return they tended to take their savings back to their country of origin Finally exchange rate movements during the crisis caused unexpected changes in remittance behavior as local currencies of many remittance recipient countries depreciated sharply against the US dollar they produced a sale effect on remittance behavior of migrants in the US and other destination countries Wars of Latin America, 1948-1982 René De La Pedraja, 2013-04-17 This book continues the narrative begun by the author in Wars of Latin America 1899 1941 It provides a clear and readable description of military combat occurring in Latin America from 1948 to the start of 1982 In an unusual peaceful lull Latin America experienced no wars from 1942 to 1947 Although the text concentrates on combat narrative matters of politics business and international relations appear as necessary to explain the wars The author draws on many previously unknown sources to provide information never before published The book traces the many insurgencies in Latin America as well as conventional wars Among the highlights are the chapters on the Cuban and Nicaraguan insurrections and on the Bay of Pigs invasion One goal of the text is to explain why of the many insurgencies appearing in Latin America only those in Cuba and Nicaragua were successful in overthrowing governments The book also helps explain why even unsuccessful insurgencies have survived for decades as has happened in Colombia and Peru Instructors considering this book for use in a course may request an examination copy here Catholic Peacebuilding and Mining Caesar A. Montevecchio, Gerard F.
