Elder Statesman A Play 1st Edition Us:

Book Prices: Used and Rare, 1994 Edward N. Zempel, 1994 *The American Play* Marc Robinson, 2009-05-26 In this brilliant study Marc Robinson explores more than two hundred years of plays styles and stagings of American theater Mapping the changing cultural landscape from the late eighteenth century to the start of the twenty first he explores how theater has and has not changed and offers close readings of plays by O'Neill Stein Wilder Miller and Albee as well as by important but perhaps lesser known dramatists such as Wallace Stevens Jean Toomer Djuna Barnes and many others Robinson reads each work in an ambitiously interdisciplinary context linking advances in theater to developments in American literature dance and visual art The author is particularly attentive to the continuities in American drama and expertly teases out recurring themes such as the significance of visuality He avoids neatly categorizing nineteenth and twentieth century plays and depicts a theater more restive and mercurial than has been recognized before Robinson proves both a fascinating and thought provoking critic and a spirited guide to the history of American drama *AB Bookman's Weekly*, 1999 **A History of British, Irish and American Literature** Hans-Peter Wagner, 2021-10-04 The third revised and enlarged edition contains discussions of British Irish and American literary works up to 2020 Focussing on outstanding writings in prose poetry drama and non fiction the book covers the time from the Anglo Saxon period to the 21st century The feature that makes this literary history unique among its rivals is the coverage of television web series as a particular form of postmodern drama The chapters on recent drama now contain detailed analyses of the development of TV and web series from Britain Ireland and America with extensive discussions of those series now considered classics In addition there are several major innovative features To begin with each century is introduced by a survey of the socio political and cultural backgrounds in which the literary works are embedded Furthermore extensive visual material more than 160 engravings cartoons and paintings has been integrated This visual aspect as well as the introductory sections on art for each century give the reader an excellent idea of the symbiosis between visual and literary representations Further innovative aspects include discussions of non fictional works from literary criticism and theory travel writing historiography and the social sciences analyses of such popular genres as crime fiction science fiction fantasy the Western horror fiction and children's literature footnotes explaining technical and historical terms and events a detailed glossary of literary terms chronological tables for British Anglo Irish and American literatures an updated cut off date 2020 extensive bibliography containing suggestions for further reading **Catalog of the Theatre and Drama Collections** New York Public Library. Research Libraries, 1967 **Baseball and American Culture** John P. Rossi, 2018-09-04 For more than a hundred years baseball has been woven into the American way of life By the time they reach high school children have learned about the struggles and triumphs of players like Jackie Robinson Generations of family members often gather together to watch their favorite athletes in stadiums or on TV Famous players like Babe Ruth Joe DiMaggio Hank Aaron Cal Ripken and Derek Jeter have shown their

athletic prowess on the field and captured the hearts of millions of fans while the sport itself has influenced American culture like no other athletic endeavor In *Baseball and American Culture A History* John P Rossi builds on the research and writing of four generations of baseball historians Tracing the intimate connections between developments in baseball and changes in American society Rossi examines a number of topics including the spread of the sport from the North to the South during the Civil War the impact on the sport during the Depression and World War II baseball's expansion in the post war years the role of baseball in the Civil Rights movement the sport's evolution during the modern era Complimented by supplementary readings and discussion questions linked to each chapter this book pays special attention to the ways in which baseball has influenced American culture and values *Baseball and American Culture* is the ultimate resource for students scholars and fans interested in how this classic sport has helped shape the nation

What Happened to the Vital Center? Nicholas Jacobs, Sidney M. Milkis, 2022 Taking the reader through a long view of American history *What Happened to the Vital Center* offers a novel and important contribution to the ongoing scholarly and popular discussion of how America fell apart and what might be done to end the Cold Civil War that fractures the country and weakens the national resolve In *What Happened to the Vital Center* Nicholas Jacobs and Sidney Milkis tackle a foundational question within American political history Is current partisan polarization aggravated by populist disdain for constitutional principles and institutions a novel development in American politics Populism is not a new threat to the country's democratic experiment but now insurgents intrude directly on elections and government During previous periods of populist unrest the US was governed by resilient parties that moderated extremist currents within the political system This began to crumble during the 1960s as anti institutionalist incursions into the Democratic and Republican organizations gave rise to reforms that empowered activists at the expense of the median voter and shifted the controlling power over parties to the executive branch Gradually the moderating influence that parties played in structuring campaigns and the policy process eroded to the point where extreme polarization dominated and decision making power migrated to the presidency Weakened parties were increasingly dominated by presidents and their partnerships with social activists leading to a gridlocked system characterized by the politics of demonization and demagoguery Executive centered parties more easily ignore the sorts of moderating voices that had prevailed in an earlier era While the Republican Party is more susceptible to the dangers of populism than the Democrats both parties are animated by a presidency led movement centered vision of democracy After tracing this history the authors dismiss calls to return to some bygone era Rather the final section highlights the ways in which the two parties can be revitalized as institutions of collective responsibility that can transform personal ambition and rancorous partisanship into principled conflict over the profound issues that now divide the country The book will transform our understanding of how we ended up in our current state of extreme polarization and what we can do to fix it

Book Prices Edward N. Zempel, Linda A. Verkler, 1993 **Harlem Renaissance Lives from the African American National Biography** Henry

Louis Gates (Jr.), Evelyn Brooks Higginbotham, 2009 The Harlem Renaissance is the best known and most widely studied cultural movement in African American history Now in Harlem Renaissance Lives esteemed scholars Henry Louis Gates Jr and Evelyn Brooks Higginbotham have selected 300 key biographical entries culled from the eight volume African American National Biography providing an authoritative who's who of this seminal period Here readers will find engagingly written and authoritative articles on notable African Americans who made significant contributions to literature drama music visual art or dance including such central figures as poet Langston Hughes novelist Zora Neale Hurston aviator Bessie Coleman blues singer Ma Rainey artist Romare Bearden dancer Josephine Baker jazzman Louis Armstrong and the intellectual giant W E B Du Bois Also included are biographies of people like the Scottsboro Boys who were not active within the movement but who nonetheless profoundly affected the artistic and political statements that came from Harlem Renaissance figures The volume will also feature a preface by the editors an introductory essay by historian Cary D Wintz and 75 illustrations

American Literature: Classification schedule, classified listing by call number, chronological listing Harvard University. Library, 1970

African-American Sports Greats David L. Porter, 1995-10-30 African American athletes have played a significant role in the development and popularity of American professional sports and have encountered numerous obstacles on the road to athletic success This is the first comprehensive multi sport

biographical dictionary of African Americans who reached the pinnacles of success in their sport. It contains more personal and career profiles of African American sports greats than are found in any other single source. Biographical profiles of 166 noted athletes, coaches, and administrators in team and individual sports include both historical figures such as Jesse Owens and Satchel Paige and contemporary stars such as Charles Barkley, Ken Griffey Jr., Michael Jordan, Jackie Joyner Kersee, Shaquille O'Neal, and Emmitt Smith. Forty-four sports historians contributed the colorfully written biographies, which blend both personal background information and athletic career accomplishments. All information is current through the middle of 1995. The dictionary covers the contributions made by African American greats in football, baseball, basketball, track and field, boxing, wrestling, auto and stock car racing, golf, thoroughbred racing, tennis, cycling, and figure skating. More than two thirds of the entries represent team sports. The dictionary is organized alphabetically by person. Each colorfully written profile is 800-1,000 words in length and traces the subject's personal life, family, and educational background, personal struggles, career accomplishments, records, set, statistical data, awards, and honors, and overall impact, and features lively quotations by and about the sports luminaries. Each entry contains a handy bibliography of books and articles about the subject. Biographies of managers, coaches, and club executives describe their teams, statistical achievements, accomplishments, strategy, and sports impact. A general introduction traces the historic struggle of African American athletes in professional and Olympic sports, and appendices provide alphabetical listings of biographical entries and entries by sport. A selection of photos complement the profiles. For the sports fan or librarian, this is a first stop for biographical information that captures the personality of the athlete and includes all the pertinent information about his or her accomplishments. It is an essential addition to the reference sections of junior high, high school, and public libraries.

African American Pioneers of Baseball Lew Freedman, 2007-04-30

When Jackie Robinson became the first African American player in major league baseball in 1947, elbowing aside the league's policies of segregation that had been inviolate for 60 years, he became a symbol of opportunity and acceptance for African American players everywhere. Robinson withstood discrimination to establish himself as a Hall of Fame player and to lead future generations of black players into the previously all-white world of Major League Baseball. Written for students and general readers alike, this biographical encyclopedia chronicles the history of African American baseball through the life stories of the game's greatest players, the legends who played a significant role in the integration of the major league. From Negro League stars Satchel Paige and Josh Gibson to color line shatterer Jackie Robinson and those who followed them in the limelight such as Hank Aaron and Willie Mays, readers will learn how the inclusion of African American players in Major League Baseball improved the sport and race relations in the United States during this critical period in history. Providing detailed accounts of each player's amazing professional achievements, this insightful reference describes how the spectacular talents of African American players elevated Major League Baseball forever. Features include a timeline of important events, numerous photographs, and a bibliography of print and electronic sources for further reading.

History of Military Mobilization in the United States Army, 1775-1945 Marvin A. Kreidberg, Merton G. Henry, 1955

The Oxford Companion to Modern Poetry in English Jeremy Noel-Tod, Ian Hamilton, 2013-05-23 This impressive volume provides over 1 700 biographical entries on poets writing in English from 1910 to the present day including T S Eliot Dylan Thomas and Carol Ann Duffy Authoritative and accessible it is a must have for students of English and creative writing as well as for anyone with an interest in poetry

Coup America Glen Roberts, 2001-03-13 The coup d etat begins to bubble when a Executive Contingency Plan is leaked that orders officials to euthanize prison inmates in the event of a major nuclear biological or chemical attack against the US A Leavenworth convict former Captain Ben Simon jailed for illegal and covert intrigues in Nicaragua discovers the contents of the directive Simon well trained by the U S military in counter intelligence and propaganda uses this directive to galvanize the population into a multiple prison breakout followed by inmate staged terrorist attacks Simon achieves total insurrection when he informs the public the remainder of the Federal euthanasia plan Inmates were not the only intended targets Mental patients premature infants and other undesirables were also in line for mercy killing The coup succeeds and John Cotton is called upon to terminate the leader As Cotton plots his strategy the story spirals in all directions with dealings double dealings and Machiavellian plans gone awry Techno thriller fans won t be disappointed by the array of artificial intelligence electronic warfare and other extremely unorthodox military hardware and tactics If you want to be thrilled by a savage but credible story of a U S insurrection in our time you ve found it with Coup America

The Enigmatic Realm of **Elder Statesman A Play 1st Edition Us**: Unleashing the Language is Inner Magic
