A Passion for Learning Philip A. Cusick, 2005-04-03 In his engaging new book Philip Cusick puts the personal back into education by examining the educational experiences of seven eminent Americans Benjamin Franklin Abraham Lincoln Jane Addams W E B Du Bois Eleanor Roosevelt J Robert Oppenheimer and Dorothy Day Devoting a chapter to each Cusick describes what they learned how they learned what they called their education and how they used education to establish their place in the world More than providing just a series of personal histories Cusick argues that the discourse about education has turned into a discourse about educational institutions But his descriptions show that one can talk about education without talking about schools talk about learning without talking about the state curriculum talk about achievement without talking about test scores and talk about accountability without talking about teacher preparation

away from the tyranny of the British Empire to build a nation based on the principles of freedom equal rights and opportunity for all men But life in the United States today is vastly different from anything the original Founders could have imagined in the late 1700s The notion of an African American president of the United States or a woman such as Condoleezza Rice or Hillary Clinton as Secretary of State would have been unimaginable to the men who wrote the Declaration of Independence and the Constitution or who ratified the Constitution or the Bill of Rights Among the modern day pioneers Williams writes about in this compelling new book are the passionate conservative President Reagan the determined fighters for equal rights Thurgood Marshall and Martin Luther King Jr the profound imprint of Rev Billy Graham s evangelism on national politics the focus on global human rights advocated by First Lady Eleanor Roosevelt the leaders of the gay community who refused to back down during the Stonewall Riots and brought gay life into America s public square the re imagined role of women in contemporary life as shaped by Betty Friedan Williams reveals how each of these modern day founders has extended the Founding Fathers original vision and changed fundamental aspects of our country from immigration to the role of American labor in the economy from modern police strategies to the importance of religion in our political discourse America in the 21st Century remains rooted in the Great American experiment in democracy that began in 1776 For all the changes our economy and our cultural and demographic make up there remains a straight line from the first Founders original vision to the principles and ideals of today s courageous modern day pioneers
